6 साल पहले गिरे उल्कापिंड को अब तक नहीं मिली पहचान

भैरसोडगढ़ के पास कंवरपुरा गांव पहुंची जर्मनी की रिसर्च

भारत न्यूज़ | कोटा

शहर से 125 किमी दूर भैरसोडगढ़ के पास कंवरपुरा गांव में 29 जनवरी, 2016 को गिरा उल्कापिंड 6 साल बाद भी अंतरराष्ट्रीय पहचान नहीं बना पाया है। जब तक कि देना के इटलीनी उल्कापिंड संग्रहालय, कोल्काता में नहीं पहुंच सके। पहले तो संशोधन से इसे मान्यता मिली थी। बाद में पता चला कि यह मिनेरालोजिकल सर्वे ऑफ इंडिया, जयपुर के पास रहा है। आज तक इसकी कोई रिपोर्ट या फोटो सांख्यिक नहीं मिल पाया। 6.8 बिजने जर्मनी इस उल्कापिंड पर देश-दुनिया के स्कोलर रिसर्च करना चाहते हैं।

रविवारा को देवरपुरा पंचायत के गांव कंवरपुरा का देना बस्ती लैटी जर्मनी को उल्कापिंड रिसर्च रेजीन पीटरसन या अमेचर एस्ट्रोनीमर टीका म्वा के अनुसार, जिस जगह यह उल्कापिंड गिरा उसके अक्षांश व देशांतर का निर्धारण मिला गया है। उनका कहना है कि 1901 से आज तक देना में 200 उल्कापिंड गिरे हैं, उनमें राज में यह 20वां है। 16 देशों के शोधकर्ताओं में इस उल्कापिंड के दुर्घट्टे मारे थे, लेकिन जॉर्जियाई, जयपुर से यह पहले हुए शोध बंद दिया था कि अभी इस पर जांच चल रही है। रेजीन इसके फोटो लेकर इंटरनेट पर जारी करना चाहती है।

ग्रामीणों ने सूबू हथौड़े मारे थे

जली से जंगलों में घेर चले निकले बैबली टोकम जंगल व इलाका में 29 जनवरी, 2016 को देना 2 बजे उल्कापिंड के टुकड़े को जमीन पर गिरो देना था। से इसे काल के घनी में छेद करने के लिए कातर चल दिया। बाद में 4 बजे गांव के किसान बैबली व मोटे बैबली उस गांव उल्कापिंड को उठाने गांव में ले गए। ग्रामीणों ने उसे उठाने समूह करके के गांव से लेने उसे कोलिका भी को रेजिन यह आई टूटा। बाद में जॉर्जियाई, जयपुर को टीम ने उसे कच्चे में ले लिया।

वया होता है उल्कापिंड

अर्लीच में गूरी और उस गूरी के बीच पावर और धनु के छेद-बंदे बिंदू मारे गये हैं। ये अलग अलग बलकर जब पृथ्वी के वायुमंडल में जाते हैं, तो वायुमंडल को घिसल पायी के फांस से जट हो जाते हैं, लेकिन कई बड़े बिंदू पृथ्वी तक आ पहुंचते हैं, जिन्हें उल्कापिंड कहते हैं। सामान्य बोलचाल में इसे गाव टूटना भी कहा जात है।

BILL Now tell us again in detail, you're driving home and you get to Fort Williams, and you turn left.

EUGENE Well, I come down Broadway, and I turn left on Fort Williams and go West.

BILL And the guy on the corner said what?

EUGENE The guy on the corner said »Hodges, you better hurry home, something fell through your house and hit your wife!«

BILL How was Mrs. Hodges when you first saw her?

EUGENE Well, you could tell she was real upset and all.

BILL Had Dr. Moody been out to the house already?

EUGENE Not when I got there. But the doctor did come out later.

BILL What did she tell you when you came in?

EUGENE She said »Somethin' come through the house and hit me. It hit the radio, then it hit me, and then it rolled down on the floor and the police picked it up.« And left with it.

BILL The way I remember you telling me is that Ann said »Honey, we've had a bit of excitement around here today.«

EUGENE Yeah, I think that's what she said. Something like that, I don't know.

BILL Here's what I remember when I interviewed you some years ago. She was asleep and it bounced off a radio and hit her. She had a quilt above her.

EUGENE Yeah, that's what it was.

BILL And it rolled off on the floor, and she woke up out of a daze, and her Momma was walking into that room. And her mother said »What happened?«, and Ann said »I think the chimney's fallen down.«

EUGENE Somethin' like that. I don't remember that far back.

BILL Here's what I know, and you tell me. I'm not tryin' to put words in your mouth, 'cause all we're interested in is history. They looked over and found what they called the »rock«, and they didn't know what it was. And they kind of huddled together and looked up to this hole in the ceiling ...

EUGENE They thought it was a piece o' airplane that fell. That's what they thought it was.

BILL Were there reporters coming to see Ann in the hospital?

EUGENE Oh yeah. And some way or the other Dr. P. Jr. got to be her doctor. And he was givin' her medicine and stuff, and she wouldn't be no better, just layin' there, and he didn't check on her for 2 or 3 days. So he was goin' down the hall, and I just reached and got him at the collar, like this, and bumped his head against the wall a few times to get his attention. And I told him I didn't want him back in the room no more.

BILL Was that when Ann was sick with the kidney stone or was that back when she got hit by the meteorite? I thought her doctor on the meteorite was Dr. Moody.

EUGENE Jacobs.

BILL Jacobs. Moody Jacobs.

EUGENE Yeah.

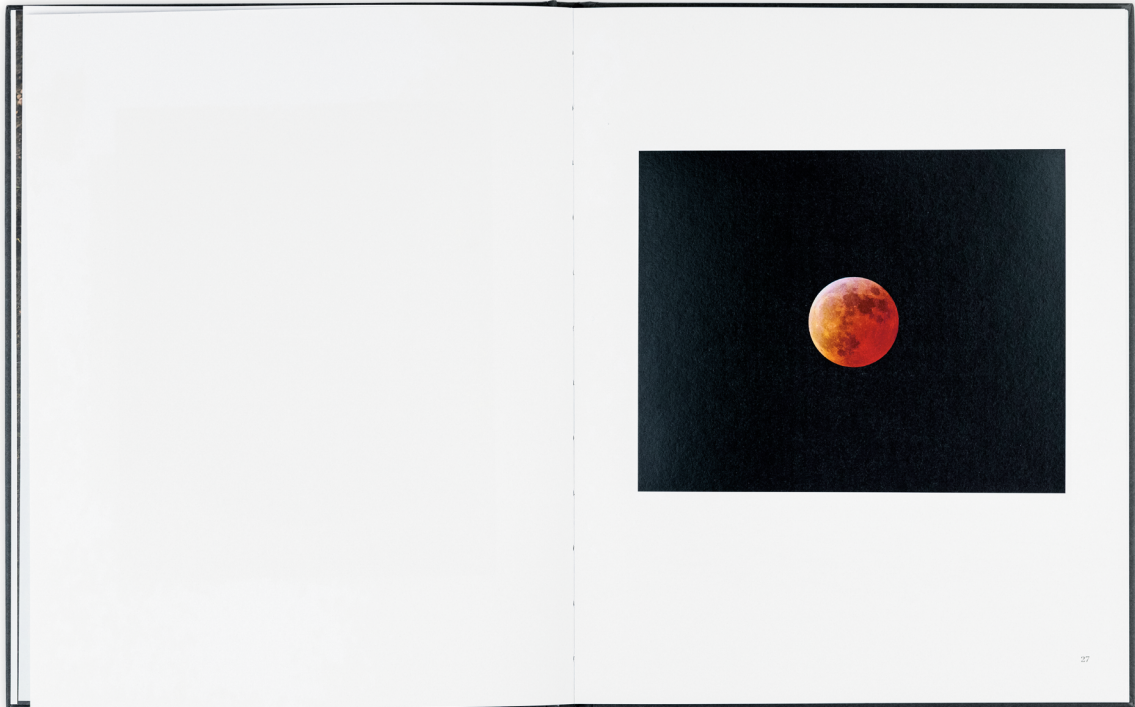

BILL But Dr. P. was treating her when she was sick with that kidney stone.

EUGENE That's when this was, yeah.

BILL There was a photograph in LIFE magazine, the one where the doctor is holding up the sheet, and there's that bruise on her hip?

The bright flash across the sky was reported simultaneously in Georgia, Alabama and Mississippi.

There were variances in the descriptions of the smoke from the explosions. In Sylacauga, it appeared black. In Birmingham and in other places at a distance, it appeared white.

Television viewers in Montgomery reported interference.

Montgomery people noted a bright shooting star overhead. When the sonic boom hit, a boy was nearly knocked off his bicycle.

In the eastern part of Alabama, people saw a fireball like »a gigantic welding arc« and recalled several explosions in the sky with a white or brownish cloud.

In Tuscaloosa, a squad of cadets were marching the university drill field and one of them reported a reddish light like »a Roman candle«, slowly descending from the sky and leaving a twisted trail of white smoke.

A waitress at a drive-in restaurant in Sylacauga recalled »I thought it was a plane on fire. The moment I looked, it blew up in a blinding flash«.

A Maxwell Air Force pilot flying at high altitude described the phenomenon as a bright light, like a star, which fell across the horizon.

In Phenix City it was reported that the meteor was a flying saucer and that a woman saw a man get out of it.

An explosives expert in Childersburg was burning a quantity of TNT and had withdrawn to a safe distance when the explosions occurred. Looking up he saw a black, mushrooming cloud of smoke.

Two men fishing in Paint Creek observed a cloud of smoke shaped like a narrow funnel with a corkscrew tail.

A Sylacauga farmer was in his barnyard when he heard the first two explosions and noticed they startled the cattle. Upon looking up he observed a third explosion in the sky.
