Bemerkungen zum Tafelteil

Die im Tafelteil abgebildeten Funde beruhen auf einer subjektiven Auswahl. Es wurden charakteristische Fundkomplexe ausgesucht, bei denen sich die Datierungskriterien nachvollziehen lassen, die einen repräsentativen Querschnitt des für die einzelnen Zeitperioden vorliegenden Fundmaterials geben und welche die inhaltlichen Aussagen verständlich machen (siehe Textteil, entsprechende chronologische Kapitel).

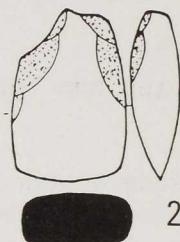

Die Fundkomplexe sind chronologisch geordnet. Innerhalb der gleichen Zeitstellung werden - wenn vorhanden - zunächst die Grabfunde, dann die Siedlungsfunde abgebildet.

Die hinter dem Fundort aufgeführte Nummer bezieht sich auf die Fundstellennummer im Katalog.

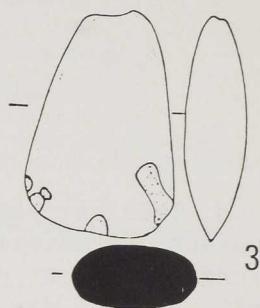

Die keramischen Funde sind im Maßstab M. 1:3, einige Bronzefunde im Maßstab M. 2:3 abgebildet.
