

CONTENTS

| | |
|--|-----|
| Preface | IX |
| Acknowledgements | XI |
| <i>The Editors</i> | |
| 1. Introduction | 1 |
| 1.1 Setting the Scene | 1 |
| 1.2 Historical and Geographical Background | 2 |
| 1.3 Earlier Excavations | 8 |
| 1.4 History of the Current Project | 17 |
| 1.5 Main Research Questions | 18 |
| <i>S. N. Collcutt</i> | |
| 2. Lithostratigraphies and Sediments | 21 |
| 2.1 Introduction | 21 |
| 2.2 Earlier Excavations | 27 |
| 2.3 The Current Campaign | 51 |
| 2.4 Lithostratigraphies | 54 |
| 2.5 Deposition Rates | 59 |
| 2.6 Lithogenesis | 61 |
| 2.7 Discussion | 93 |
| <i>R. I. Macphail</i> | |
| 3. Sediment Micromorphology | 117 |
| 3.1 Introduction | 117 |
| 3.2 Methods | 117 |
| 3.3 Results and Interpretation | 117 |
| 3.4 Discussion and Conclusions | 140 |
| <i>R. A. Staff · P. Ditchfield · E. Rhodes · J.-L. Schwenninger · L. Clark-Balzan · S. Lee · R. N. E. Barton</i> | |
| 4. Chronology | 143 |
| 4.1 Introduction | 143 |
| 4.2 AMS Radiocarbon Dating | 144 |
| 4.3 Luminescence Dating | 151 |
| 4.4 Cryptotephra (Sector 8) | 152 |
| 4.5 Discussion | 153 |
| <i>Y. Carrión Marco</i> | |
| 5. Charcoal Analysis: Wood Exploitation and Fire | 155 |
| 5.1 Introduction | 155 |
| 5.2 Palaeoenvironment | 158 |
| 5.3 Palaeoeconomics and General Human Behaviour | 162 |

| | |
|--|-----|
| 5.4 Supporting Cemetery Evidence (Sector 10) | 166 |
| 5.5 Conclusions | 170 |
| <i>J. Morales</i> | |
| 6. Other Charred Plant Macro-Remains (Seeds, Fruits, etc.) | 171 |
| 6.1 Introduction | 171 |
| 6.2 Methodology | 172 |
| 6.3 Evidence of Non-Wood Macro-Plant Remains | 172 |
| 6.4 Discussion | 181 |
| 6.5 Conclusions | 187 |
| <i>S. Jones · S. Ward · A. G. Parker</i> | |
| 7. Phytoliths | 189 |
| 7.1 Introduction | 189 |
| 7.2 Previous Studies in North Africa | 190 |
| 7.3 Methods | 191 |
| 7.4 Results | 191 |
| 7.5 Discussion | 200 |
| 7.6 Conclusions | 205 |
| <i>V. K. Taylor · M. Bell</i> | |
| 8. Land Molluscs | 207 |
| 8.1 Introduction to Mediterranean Land Mollusc Middens | 207 |
| 8.2 Research Questions Raised by the Middens | 209 |
| 8.3 Investigations at Taforalt | 210 |
| 8.4 Sieving and Sorting Strategy | 211 |
| 8.5 Species Identification and Taxonomic Issues | 215 |
| 8.6 Dates for the Mollusc Column | 218 |
| 8.7 Results of Mollusc Analysis | 219 |
| 8.8 Burning, Taphonomy and Shell Modification | 226 |
| 8.9 Interpretation | 226 |
| 8.10 Modern Molluscan Study | 228 |
| 8.11 Palaeoenvironmental and Palaeoclimatic Implications | 231 |
| 8.12 Molluscs and Diet | 233 |
| 8.13 Mollusc Cooking | 234 |
| 8.14 Conclusions | 235 |
| 9. Large Mammalian Fauna | 239 |
| <i>E. Turner</i> | |
| 9.1 Large Mammalian Faunal Assemblages | 239 |
| <i>C. M. Wall-Scheffler</i> | |
| 9.2 Seasonality of Site Use and Age Structure of <i>Ammotragus Lervia</i> from Dental Cementum | 309 |

| | |
|--|-----|
| <i>J. H. Cooper</i> | |
| 10. The Late Pleistocene Avian Assemblages from Sectors 8 and 10 | 313 |
| 10.1 Introduction | 313 |
| 10.2 Materials and Methods | 313 |
| 10.3 Results | 314 |
| 10.4 Modifications | 318 |
| 10.5 Discussion | 319 |
| 10.6 Conclusions | 329 |
| 11. Other Faunal Remains | 331 |
| <i>The Editors</i> | |
| 11.1 Micromammals | 331 |
| <i>C. Glead-Owen with R. N. E. Barton</i> | |
| 11.2 Amphibians and Reptiles | 332 |
| 12. Later Stone Age Lithic Artefacts | 335 |
| <i>J. Hogue · A. Bouzouggar</i> | |
| 12.1 Raw Materials | 335 |
| <i>J. Hogue with R. N. E. Barton</i> | |
| 12.2 Methodology | 337 |
| 12.3 Definition of Assemblage Groups in the Iberomaurusian Sequence | 340 |
| 12.4 Description of Lithic Assemblages | 341 |
| 12.5 Discussion | 378 |
| 13. Organic Artefacts | 395 |
| <i>A. Desmond</i> | |
| 13.1 Bone Industry | 395 |
| <i>A. Freyne</i> | |
| 13.2 Shell Ornaments | 420 |
| 14. Inorganic Material | 429 |
| <i>R. N. E. Barton · S. N. Collcutt</i> | |
| 14.1 Larger Clay Objects | 429 |
| <i>R. N. E. Barton · S. N. Collcutt · L. T. Humphrey · A. Freyne</i> | |
| 14.2 Grindstones and Pestles | 431 |
| <i>S. N. Collcutt</i> | |
| 14.3 Ochre, Minerals and Other Curiosities | 438 |
| <i>L. T. Humphrey · A. Freyne · P. J. Berridge · P. Berridge</i> | |
| 15. Human Burial Evidence | 443 |
| 15.1 Background | 443 |
| 15.2 New Excavations: Sector 10 | 446 |
| 15.3 Burial Description | 447 |
| 15.4 Unassigned Bones | 466 |
| 15.5 Burial Sequence | 467 |

| | |
|--|-----|
| 15.6 Discussion | 471 |
| 15.7 Closing Comments | 480 |
| <i>I. De Groote · L. T. Humphrey</i> | |
| 16. The Human Skeletal Remains: a Physical Anthropological Assessment | 483 |
| 16.1 Introduction | 483 |
| 16.2 Stature Estimation | 483 |
| 16.3 Mobility | 484 |
| 16.4 Dental Anthropology | 485 |
| 16.5 Discussion and Conclusion | 489 |
| <i>J. A. Lee-Thorp · A. Vaughan · P. Ditchfield · L. T. Humphrey</i> | |
| 17. Isotope Ecology of the Sector 10 Burials | 491 |
| 17.1 Introduction | 491 |
| 17.2 Stable Isotopes in Human Ecology | 491 |
| 17.3 Materials and Methods | 492 |
| 17.4 Results and Discussion | 493 |
| 17.5 Summary | 495 |
| <i>The Editors and Team</i> | |
| 18. Synthesis and Interpretation | 497 |
| 18.1 Introduction: the Theoretical Background | 497 |
| 18.2 Opportunities and Limitations of the Taforalt Evidence | 500 |
| 18.3 Climatic and Environmental Context | 503 |
| 18.4 Nature of Occupation and Distribution of Activities | 512 |
| 18.5 Subsistence | 520 |
| 18.6 Behavioural Characteristics and Changes in the LSA Iberomaurusian at Taforalt | 522 |
| 18.7 Before and after Taforalt | 545 |
| 18.8 Final Thoughts and Future Directions | 546 |
| Appendices | |
| Appendix 2 Lithostratigraphic Details | 549 |
| Appendix 6 Charred Seeds/Fruits (etc.) Details | 579 |
| Appendix 7 Phytolith Details | 583 |
| Bibliography | 595 |
| Index | 621 |
| List of Contributors | 627 |
