STORAGE

Amphorae

MOX.1 (P 756; E3 5905.9. Pl. 1a–b) Oval-mouthed amphoriskos, Type 1. Almost complete. Part of the body and one handle are missing. Piriform profile and two strap handles. H: 0.159 m, Base d. 0.068, Mouth d. 0.06. Wheel- and handmade. Local phyllite. It has a water-wiped surface. It presents a trickle pattern extending from the shoulder to the low wall. Medium to fine surface: Light Red (2.5YR 6/6). This type is similar to Type 2 from Quartier Mu.

Comparanda: Poursat and Knappett 2005, Pl.3 (no.38), p.41 (no.4); Walberg 1983, p.162 (no.72); Poursat and Knappett 2001, Pl. 1–3.

Date: For shape: MM IIA–MM IIB. For Decoration: MM I–MM III

MOX.2 (P 1853; E3 5930, Pl.1c) Oval-mouthed amphora, Type 2. About one-quarter extant. Thirty-five joining pieces preserving oval mouth and vertical rounded handles. Mouth d. 0.13>0.17m. Wheel-coil. Rilling marks on mouth interior, coil joins on shoulders, and high wall exterior. Coarse ware: Pink (7.5YR 8/4). Granodiorite.

Decoration: Dark band in the attachment between the neck and the shoulder. Linked disks with four wavy bands on the shoulder. Dark hatches on the rim.

Comparanda: Shape: Poursat and Knappett 2005, Pl.3 (no.38), for decoration Pl.3 (no.42); Poursat and Knappett 2006, Pl. 6–7; Banou 1998, Pl.9 (AC 37); Nowicki 2008, Pl.73 (KP 540)

Date: MM IIB

MOX.3 (P 1852; E3 5930, Pl.1d) Oval-mouthed amphora, Type 2. Almost complete. Part of the neck and one of the handles is missing. Pres. h. 0.40, base d. 0.13. The mouth is oval, the body is Piriform and the shoulders are globular. The base is flat. Wheel and hand-made. Medium to fine surface, orangish clay, Pink (5YR 8/3).

Comparanda: For shape: Poursat and Knappett 2005, Pl.1 (no.3a); Poursat and Knappett 2005, Pl.8 (No. 129, 130, 131, 133, 146, 165, 168, 173, 186,192); Banou 1998, Pl.9 (AC 37); Nowicki 2008, Pl.73 (KP 540); Poursat and Knappett 2006, Pl. 6–7

Decoration: Water-wiped surface, red splashes, and trickle pattern from the shoulder to the low wall exterior.

Date: MM IIA

MOX.4 (P 4473; E3 5930, Pl.1e) Oval-mouthed amphora, Type 2. About three-quarters extant. Twenty-nine joining pieces, plus three joining pieces preserving base, piriform body profile, and globular shoulder. Pres. h. 0.30, base d. 0.12. Wheel-coil. Rilling marks on base interior, coil joins on low, middle, and high wall exterior. Coarse ware. Pink phyllite inclusions. Light red (10R 6/6). East Cretan Import.

Decoration: White-on-red. Red metallic slip on the exterior, pairs of four parallel vertical white bands covering the vessel from the shoulder to base.

Comparanda: Malia, Quartier Mu (Poursat and Knappett 2005, PL. 42, 32); Banou 1998, Pl.9 (AC 37); Nowicki 2008, Pl.73 (KP 540); Poursat and Knappett 2006, Pl. 6–7

Date: MM IIB

MOX.5 (P 1856; E3 5930, Pl.1f–g) Oval-mouthed amphora, Type 3. About three-quarters extant. Sixty-eight joining pieces, plus nine non-joining pieces preserving globular profile with globular shoulders and two vertical rounded handles. Pres h. 0.47, base d. 0.21, rim d. 0.16. Wheel-coil. Rilling striations on the base interior, multiple coils from bottom to the top. Coarse ware: Phyllite and white metamorphic rocks, 2.5YR 7/6 Red.

Decoration: Red slip-on neck and lip interior and exterior.

Comparanda: : Malia, Sector Pi: Knappett, Pomadère et al, 2017, Pl. 43–44. Palaikastro: Knappett and Cunningham 2012, Pl. 4.3, 59.

Date: MM IIB

Jars

MOX.6 (P 826; E3 5905.10, Pl.2a–b) Carinated jar, Type 1. About three-quarters extant. Thirteen joining pieces preserving profile. The base is flat, the carination is low, and the body section is convex with a straight rim. H. 0.079, rim d. 0.075, base d. 0.065. Fine ware: Pink (7.5YR 7/4).

Decoration: Dark metallic slip on the exterior, onto the base, and rim interior. Band on rim interior in added white. Red band around rim exterior with a row of white dots and a narrow band in added white below. Six plants cover the side of the vase, alternating in red and white. Each of these plants preserves five groups of three branches. Not all the red branches end in white dots. The plant stems end to the base (Soles and Davaras 1996, 184).

Comparanda: For shape: Dawkins 1904–05, 271, Pl.5c, For Decoration: Walberg 1983, 59 and 185, motif 24 (vi)

Date: MM IB

MOX.7 (P 4345; E3 5905.10, Pl.2c–d) Jar, Type 2. About one-quarter extant. Two joining pieces preserve the base and body profile. The base is flat and the body section is straight to conical. Wheel-made. A short diagonal incision on the right side of the base interior, perhaps a potter's mark. Pres h. 0.05, base d. 0.19. Coarse ware. Granodiorite: Light Red (2.5YR 7/6).

Decoration: Dark slip on the exterior

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 112; Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392.

Date: MM IIB

MOX.8 (P 13253; E3 5930.2, Pl.2e–f) Jar, Type 3. About one-quarter extant. One piece preserving base and body profile. The profile is concave on the bottom section and turns convex to the rest of the vessel. Wheel and hand-made. Pres h. 0.032, base d. 0.07. Coarse ware. Granodiorite, 2.5 YR 5/8 red.

Decoration: White-on-dark parallel bands on the dark slipped surface

Comparanda: A certain example from Malia presents this concavity and belongs to Type 1a (Poursat and Knappett, Pl. 9, 167. Another example that preserves bands even of different colors comes from Monastiraki-Katalimata Nowicki 2008, Pl.73, KP 538.

Date: MM IIB

POURING

Jugs

MOX.9 (P 4383; E3 5905.10, Pl.3a) Jug with cutaway spout Type 1a. More than one-half extant. Thirty-three joining pieces preserving profile. Neck, spout, body, base preserved. The base is flat, with a piriform body section straight neck, and a vertical rounded handle. H 0.341, Base d. 0.85–0.125. Coarse ware. Mirabello fabric: Reddish yellow (5YR 7/6). Very dark bluish-gray (GLEY 1 3/1) on pinkish buff clay. Two thick diagonal parallel bands on the spout. Thick band on the spout interior and a thick dark band on the perimeter of the neck. Linked discs from the shoulder ending on a dark thick band above the base.

Comparanda: For Shape: Andreou 1978, Pl.16.3; Poursat and Knappett 2005, Pl.14.1a, PL.18 (376–383). For Decoration: Andreou 1978, Pl.16.11; Poursat and Knappett 2005, PL.3 (42).

Date: MM IB–MM IIB

MOX.10 (P 430; E3 5905.9, Pl.3b) Trefoil-mouthed juglet, Type 2. Intact. One piece preserving profile with trefoil spout and vertical rounded handle. The base is slightly upraised, the low wall is buggy and the upper wall to the spout is concave. H 0.072m, base d. 0.035, spout d. 0.031–0.039. Capacity: 50 ml. Wheel-made. Coarse ware. Phyllite tempered fabric: Reddish yellow (5YR 6/6). Undecorated.

Comparanda: For the shape: Walberg 1983, p.173, shape no. 131; Poursat and Knappett 2005 Pl.23, 581; Pendlebury and Money-Coutis 1939, Pl.17 (640)

Date: MM IIB

MOX.11 (P 507; E3 5905.11) Trefoil-mouthed juglet, Type 2. Almost complete. Nine joining pieces preserve upraised base, lower globular profile with trefoil mouth, and a trace of the vertical rounded handle. H. 0.06m, base d. 0.034, spout d. 0.03. Wheel-made. Parallel striations on the underside of the base. Coarse ware. Purple phyllite inclusions: Reddish yellow (5YR 6/6).

Comparanda: For the shape: Walberg 1983, p.173, shape no. 131; Poursat and Knappett 2005 Pl.23, 581, Pendlebury and Money-Coutis 1939, Pl.17 (640)

Date: MM IIB

MOX.12 (P 433; E3 5905.9) Trefoil-mouthed juglet, Type 2. Almost complete. One piece preserving profile with vertical rounded handle and trefoil-mouth. H. 0.072, base d. 0.039, rim d. 0.05. Wheel-thrown. Rilling marks on the exterior and parallel striations on the underside of the base. Coarse ware. Purple phyllite: Reddish Yellow (5YR 7/6).

Comparanda: For the shape: Walberg 1983, p.173, shape no. 131; Poursat and Knappett 2005 Pl.23, 581; Pendlebury and Money-Coutis 1939, Pl.17 (640)

Date: MM IIB

MOX.13 (P 13226; E3 5905.11, Pl.3d–e): Jug with globular profile, Type 3. About one-quarter extant. One piece preserving base and body profile. The base is flat, and the body section is globular. Spiral rilling striations on the interior and straight parallel striations on the underside of the base. Pres. H: 0.032. Base d. 0.075. Wheel-coil. Medium-fine ware with some Mirabello inclusions. Pink (7.5YR 8/3). Dark slip on the exterior: Dark bluish-gray (GLEY 2 4/1).

Comparanda: For shape: Poursat and Knappett 2005. PL.21 (463); Walberg 1973, Form. 19, pp. 171.

Date: MM IIB

MOX.14 (P 13277 E3 5905.11, Pl.3c) Open jug, Type 4. Four joining pieces preserving rim and body profile with vertical rounded handle. About one-quarter extant. The rim is everted and has been constructed with a coil join. The handle is attached below the rim and is also attached to the mid-wall exterior. Spiral rilling striations on the interior. Pres. h. 0.12, Rim d. 0.14m. Wheel- and hand-made. Coarse ware. Phyllite fabric tempered: Red (2.5YR 5/6).

Comparanda: For Shape: Walberg 1983, pp.174 (138), Bosanquet 1902–1903, Pl.7, pp. 293.

Date: MM IIB

MOX.15 (P 707; E3 5905.10, Pl.3f) Carinated, bridge-spouted jug, Type 5a. About one-half extant. Thirty joining pieces preserving rim and body profile with rounded handle. Short rim and high carination. Deep, regular grooves above the carination ending to an everted rim. Pres h. 0.135, rim d. 0.158. Wheel-coil. Rilling marks high on the wall exterior above the carination, coil-join on the high wall below the handle. Coarse ware: Light Red (2.5YR 6/6). Purple phyllite.

Decoration: Dark metallic slip on the exterior and the handle and rim interior. Thick white arc on the upper exterior wall.

Comparanda: Malia: Poursat and Knappett 2005, PL.24, (646); Petras: Tsipopoulou and Hallager 2010, 51.

Date: MM IIB

MOX.16 (P 657; E3 5905.10, Pl.3g–h) Bridge-spouted jug, Type 5b. About one-half extant. Six joining pieces, another six joining pieces, one non-joining piece preserving rim, bridge-spout, globular body profile, and vertical rounded handle. Deep grooves on the neck. Small unintentional grooves on the low part of the handle. Pres h. 0.16, rim d. 0.17. Wheel-coil. Rilling marks high on exterior wall coil-joins on the middle and high exterior wall. Coarse ware: Light Red (2.5YR 7/6). Imported from Palaikastro (?).

Decoration: White-on-dark. White diagonal hatches on the handle. Four parallel bands circulate the spout starting from a white band on the perimeter of the spout. A thick band below the carination on which are attached three pairs of five white parallel bands, with the third thicker than the rest. A diagonal band connects these pairs. A Series of dots fill the gap between the bands. Thick white band below the rim and above the grooves. White thick band on the rim interior.

Comparanda: Malia: Poursat and Knappett 2005, PL.24, (646); Petras: Tsipopoulou and Hallager 2010, 51.

Date: MM IIB

MOX.17 (P 4276; E3 5905.9, Pl.3i) “Pear-shaped” jug with grooves, Type 6a. More than one-quarter extant. Four joining pieces preserve rim profile with a vertical rounded handle that is attached on the rim on one side and to the part of the jug that turns globular on the other side. Four distinctive deep symmetric grooves cover the neck of the vessel. Pres. h. 0.076. Wheel made. Medium-fine: Red (2.5YR 4/8) Purple phyllite inclusions.

Comparanda: For shape: Poursat and Knappett 2005, PL.22 (495); Monastiraki-Katalimata: Nowicki 2008, Pl. 72, (KP 535).

Pitchers

MOX.18 (P 13299; E3 5905.9, E3 5905.10, E3 5930.1, Pl.4a) Pitcher, Type 1. More than one-quarter extant. Sixteen joining pieces, plus five joining pieces preserving profile. The base is flat, and the body section is conical, the rim inverted with a pulled-rim spout. H. 0.0174, rim d. 0.13m, base d.

0.14m. Wheel-coil. Rilling marks on base interior, coil joins on low, mid, and high wall exterior. Coarse ware: Red (2.5YR 6/6). Purple phyllite and silver mica.

Comparanda: Malia, Quartier Θ: VanEffentere 1976, PL. XII, G; Quartier Mu: Poursat and Knappett 2005, PL. 15, 272–316; Poursat 1997, PL. 24, a

Date: MM IIB

MOX.19 (P 600; E3 5905.11, Pl.4c–d) Pitcher, Type 1. Complete. Thirteen joining pieces preserving piriform profile, semicircular spout on the inverted rim, and vertical rounded handle. Shallow rilling marks on the interior. H. 0.20, rim d. 0.125, base d. 0.093. Wheel- and handmade. Coarse ware: Light Red (2.5YR 6/6) Purple phyllite.

Comparanda: Malia Quartier Θ: VanEffentere 1976, PL. XII, G; Quartier Mu: Poursat and Knappett 2005, PL. 15, 272–316; Poursat 1997, PL. 24, a

Date: MM IIB

MOX.20 (P 13298; E3 5905.11, Pl.4b) Pitcher, Type 1. About three-quarters extant. Several sets of joining pieces: twenty joining pieces, a pair of two joining pieces each, plus four joining pieces, plus one non-joining piece preserving flat base, concave low body and conical high, globular shoulder, and inverted rim. Pres h. 0.179, rim d. 0.13, base d. 0.058. Coarse ware: Red (2.5YR 5/8). Purple phyllite inclusions.

Comparanda: Malia Quartier Θ: VanEffentere 1976, PL. XII, G; Quartier Mu: Poursat and Knappett 2005, PL. 15, 272–316; Poursat 1997, PL. 24, a

Date: MM IIB

Miscellaneous Closed Vessel

MOX.21 (P 13270; E3 5905.11, Pl.4e): Miscellaneous closed vessel (probably pitcher) with potter's mark. Less than one-quarter extant. One piece preserving inverted rim, part of the body, and vertical rounded handle. Pres h. 0.07m. Coarse ware: Red (2.5YR 5/8) Purple phyllite with silver mica.

Potter's mark: Two diagonal incisions on the top of the handle

Date: MM IIB

DRINKING

Carinated Cups

MOX.22 (P 686; E3 5905.10, Pl.5a) Trefoil-mouthed ribbed carinated cup or carinated cup with crinkled rim, Type 1a. About three-quarters extant. Fifteen joining pieces preserving profile with high-swung handle. The rim is crinkled or trefoil; it presents three pulled rim-out 'spouts'. The carination is located mid-way up the wall, and it preserves shallow regular but distinctive grooves. Convex lower body, concave above carination. Wheel-made. H. 0.04, base d. 0.032. Fine ware: Pink (7.5YR 7/4).

Decoration: Dark slip on the exterior and the rim interior (Reddish black: 10R 2.5/1).

Comparanda: Zakros: Platon 1971, Table.343, α.

Date: MM IIB

MOX.23 (P 13248; E3 5905.11, Pl.5b) Ribbed carinated cup, Type 2a. More than one-quarter extant. One piece preserving base and body profile. The base is flat, concave profile above the carination and probably convex profile on the grooved surface. It preserves four deep symmetric regular grooves above the middle carination. Pres h. 0.04, Base d. 0.06. Wheel-made. Rilling marks on the interior and parallel striations on the underside of the base. Fine ware: Light red (2.5YR 6/6).

Decoration: Dark metallic slip on the interior and the exterior.

Comparanda: Malia: Poursat and Knappett 2005, Pl.27, no.769; Andreou 1979, Pl.19, 15. Monastiraki-Katalimata: Nowicki 2008, Pl. 70, no. KP 498; 2001, Pl. 15, 13. Pseira: Floyd 2009, Pl.4, AF 92. Vasiliki: Andreou 1978, Pl. 15,4. Gournia: Betancourt and Silverman 1991, PL. 7, 412; Boyd-Hawes et al. 1908, PL.2, 10.

Date: MM IIB.

MOX.24 (P 13211; E3 5930.2) Ribbed carinated cup, Type 2a. About one-quarter extant. One piece preserving base and body profile. Pres h. 0.028, base d. 0.04. Wheel-made. Rilling marks on base and wall interior, parallel striations on the underside of the base. Fine ware orange: Reddish yellow (5YR 6/6).

Decoration: Dark metallic slip on the interior and the exterior.

Comparanda: Malia: Poursat and Knappett 2005, Pl.27, no.769; Andreou 1979, Pl.19, 15. Monastiraki-Katalimata: Nowicki 2008, Pl. 70, no. KP 498; 2001, Pl. 15, 13. Pseira: Floyd 2009, Pl.4, AF 92. Vasiliki: Andreou 1978, Pl. 15,4. Gournia: Betancourt and Silverman 1991, PL. 7, 412; Boyd-Hawes et al. 1908, PL.2, 10.

Date: MM IIB

MOX.25 (P 13215; E3 5905.10, Pl.5c) Ribbed carinated cup, Type 2a. One piece preserving base and body profile. The base is flat, and the body section is concave. The carination and the grooves are not preserved. Wheel-made. Parallel striations on the underside of the base. Pres h. 0.014, base d. 0.05. Fine ware: Reddish yellow (2.5YR 6/6). Interior slipped with Reddish-brown (2.5YR 4/4) and Pseudo-Vasiliki on the concave part of the body.

Comparanda: Malia: Poursat and Knappett 2005, Pl.27, no.769; Andreou 1979, Pl.19, 15. Monastiraki-Katalimata: Nowicki 2008, Pl. 70, no. KP 498; 2001, Pl. 15, 13. Pseira: Floyd 2009, Pl.4, AF 92. Vasiliki: Andreou 1978, Pl. 15,4. Gournia: Betancourt and Silverman 1991, PL. 7, 412; Boyd-Hawes et al. 1908, PL.2, 10.

Date: MM IIB

MOX.26 (P 13213; E3 5930.2) Ribbed carinated cup, Type 2a. About one-quarter extant. One piece preserving rim and body profile. Concave profile above the carination, flaring rim. Certainly, the profile below carination is convex. About twelve deep, regular, symmetric grooves around the concave part of the carination. Wheel-made. Pres h. 0.038, rim d. 0.11. Fine ware: Pink (7.5YR 8/4). Brownish metallic slip on interior and exterior, white arc on the rim exterior

Comparanda: For shape: Malia: Poursat and Knappett 2005, Pl.27, no.769; Andreou 1979, Pl.19, 15. Monastiraki-Katalimata: Nowicki 2008, Pl. 70, no. KP 498; 2001, Pl. 15, 13. Pseira: Floyd 2009, Pl.4, AF 92. Vasiliki: Andreou 1978, Pl. 15,4. Gournia: Betancourt and Silverman 1991, PL. 7, 412; Boyd-Hawes et al. 1908, PL.2, 10.

Date: MM IIB

MOX.27 (P 1867; E3 5930.2, Pl.5d): Ribbed carinated cup, Type 2a. About one-half extant. Four joining pieces preserving base and body profile. The base is flat, with a concave profile above the carination, and a convex profile on the grooved surface. It preserves ten deep regular symmetric grooves on the exterior. Wheel-made. Straight, parallel striations on the underside of the base. Pres h. 0.042, base d. 0.04. Fine ware: Light red (2.5YR 7/6).

Decoration: Red metallic slip on the interior (2.5YR 5/6), Pseudo-Vasiliki on the convex part of the body, and carination. White (5Y 8/1) bands on parts of the grooves.

Comparanda: Malia: Poursat and Knappett 2005, Pl.27, no.769; Andreou 1979, Pl.19, 15. Monastiraki-Katalimata: Nowicki 2008, Pl. 70, no. KP 498; 2001, Pl. 15, 13. Pseira: Floyd 2009, Pl.4, AF 92. Vasiliki: Andreou 1978, Pl. 15,4. Gournia: Betancourt and Silverman 1991, PL. 7, 412; Boyd-Hawes et al. 1908, PL.2, 10.

Date: MM IIB

MOX.28 (P 688; E3 5905.10) Ribbed carinated cup, Type 2a. About one-quarter extant. One sherd preserving rim and body profile. Concave body profile above carination and convex profile below. About ten deep regular grooves around the concave part of the carination. H. 0.067, Rim d. 0.13, base d. 0.053. Fine ware: Pink (7.5YR 8/4). Dark slip on interior and exterior.

Comparanda: Malia: Poursat and Knappett 2005, Pl.27, no.769; Andreou 1979, Pl.19, 15. Monastiraki-Katalimata: Nowicki 2008, Pl. 70, no. KP 498; 2001, Pl. 15, 13. Pseira: Floyd 2009, Pl.4, AF 92. Vasiliki: Andreou 1978, Pl. 15,4. Gournia: Betancourt and Silverman 1991, PL. 7, 412; Boyd-Hawes et al. 1908, PL.2, 10.

Date: MM IIB

MOX.29 (P 1418; E3 5930, Pl.5e–f) Tripod carinated cup, Type 3a. About three-quarters extant. Eleven joining pieces preserve profile with a vertical rounded handle that extends higher than the rim. H. 0.06, rim d. 0.08, base d. 0.05. Wheel-thrown. Rilling marks on interior and exterior, parallel striations on the underside of the base. Fine ware orange clay, 5YR 5/8 red.

Decoration: White-on-dark. White vertical parallel bands run from the rim to the low exterior wall.

Date: MM IIB

Conical Tumblers

MOX.30 (P 4384; E3 5905.12, Pl.6a) Conical tumbler, Type 1a. More than one-quarter extant. Three joining pieces, plus two joining pieces preserving base rim and body profile. The base is flat, distinctive, and thicker than the body. The body section is straight and turns to conical. The rim is everted, part of a flaring rim preserved. Wheel-made. Rilling striations on the interior, exterior. Parallel striations on the underside of the base. H. 0.03, Rim d. 0.11, Base d. 0.04. Coarse ware: Light red (2.5YR 6/6). Silver mica.

Decoration: Three white stripes on rim interior.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64 KP 425, KP 426.

Date: MM IIB

MOX.31 (P 13233; E3 5905.11) Conical tumbler, Type 1a. About one-quarter extant. Two joining pieces preserve the base and conical body profile. The base is thicker than the body and small concavity appears in the low wall exterior. Pres h. 0.03, base d. 0.04. Wheel-made. Rilling marks on the interior and parallel striations on the underside of the base. Semi-fine ware orange: Light Red (2.5YR 6/8).

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64, KP 425, KP 426.

Date: MM IIB

MOX.32 (P 4474; E3 5930.3, Pl.6b) Conical tumbler, Type 1a. More than three-quarters extant. Twenty-three joining pieces preserving profile. The base is flat, distinctive, and thicker than the body. The body section is straight on the low wall, turns conical on the mid-wall, ending to a flaring rim. H. 0.068, rim d. 0.091, base d. 0.045. Wheel-made. Shallow rilling marks on interior and exterior, straight parallel striations on the underside of the base. Coarse ware: Red (2.5YR 5/6) Purple phyllite.
Potter's mark: Two equally sized diagonal parallel incisions, on the low exterior wall.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64, KP 425, KP 426.

Date: MM IIB

MOX.33 (P 1866; E3 5930.1, E3 5930.2, E3 5930.4, Pl.6c) Conical tumbler, Type 1a. About three-quarters extant. Six joining pieces preserving profile. The base is flat, distinctive, and thicker than the body. The body section is straight on the low wall, turns conical on the mid-wall, ending to a flaring rim. Wheel-made. Shallow rilling marks on interior and exterior, straight parallel striations on the underside of the base. H: 0.066, Rim d. 0.065, Base d. 0.04. Coarse ware: Red (10R 4/6). Purple phyllite.

Potter's mark: Two diagonal, almost parallel pre-firing incisions.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64, KP 425, KP 426.

Date: MM IIB

MOX.34 (P 4414; E3 5905.11, Pl.6d) Conical Tumbler, Type 1a. About one-half extant. Thirteen joining pieces preserving profile. The base is flat, distinctive, and thicker than the body. The body section is straight on the low wall, turns conical on the mid-wall, ending to a flaring rim. Wheel-made. Shallow rilling marks on interior and exterior, parallel striations on the underside of the base. H.0.072, Rim d. 0.06, base d. 0.038. Coarse ware: Light red (2.5YR 6/8). Silver mica.

Potter's mark: Two diagonal parallel with pre-firing incisions of equal length, on the lower exterior wall.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64, KP 425, KP 426.

Date: MM IIB

MOX.35 (P 4417; E3 5905.10, Pl.6e) Conical tumbler, Type 1a. About one-half extant. Eight joining pieces preserving profile. The base is flat, distinctive, and thicker than the body. The body section is straight at the lower wall, turns conical on the mid-wall, rising to a flaring rim. H. 0.075, Rim d. 0.09, Base d. 0.038. Wheel-made. Shallow rilling marks on interior and exterior, straight parallel striations on the underside of the base. Coarse ware: Red (2.5YR 5/8). Silver mica.

Potter's mark: Two pre-firing, deep, parallel diagonal incisions.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64, KP 425, KP 426.

Date: MM IIB

MOX.36 (P 1872; E3 5930.4, Pl.6f): Conical tumbler, Type 1a. About one-half extant. Eight joining pieces preserving profile. The base is flat, distinctive, and thicker than the body. The body section is

straight on the low wall, turns conical on the mid-wall, ending to a flaring rim. Wheel made. Shallow rilling marks on interior and exterior, straight parallel striations on the underside of the base. H: 0.064m, Rim d. 0.10m, base d. 0.048m. Coarse ware: Light red (2.5YR 6/6). Purple phyllite.

Potter's mark: Two short pre-firing horizontal parallel incisions.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64, KP 425, KP 426.

Date: MM IIB

MOX.37 (P 13218; E3 5905.11, Pl.6g) Conical tumbler, Type 1a. One piece preserving base and body profile. The base is flat and slightly thicker than the body. The preserved body section is straight at the lower wall. Wheel-made. Rilling striations on the base interior and parallel striations on the underside of the base. Pres h. 0.031, Base d. 0.04. Coarse ware: Red (2.5YR 5/6). Silver mica.

Potter's mark: Two diagonal parallel incisions above the base on the lower exterior wall.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64, KP 425, KP 426.

Date: MM IIB

MOX.38 (P 4412; E3 5905.11, Pl.6h) Conical tumbler, Type 1a. About three-quarters extant. Five joining pieces preserving profile. The base is flat, distinctive, and thicker than the body. The body section is straight on the low wall, turns conical on the mid-wall, rising to a flaring rim. Wheel-made. Shallow rilling marks on interior and exterior, straight parallel striations on the underside of the base. H. 0.074m, Rim d. 0.11m, Base d. 0.042. Coarse ware: Light red (2.5YR 6/6). Purple phyllite.

Potters' mark: Two deep, vertical, parallel pre-firing incisions, slightly offset in distance from the base.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64, KP 425, KP 426.

Date: MM IIB

MOX.39 (P 1870; E3 5930.2) Conical tumbler, Type 1b. More than one-half extant. Seven joining pieces preserving base and body profile. The base is flat and the body section is straight and slightly conical. Wheel made. Striations on interior and exterior. Parallel striations on the underside of the base. H: 0.043, Rim d. 0.12, Base d. 0.034. Fine ware: Very pale brown (10YR).

Comparanda: Malia, Quartier Θ: VanEffenterre 1976: PL. XII, A. Quartier Mu: Poursat and Knappett 2005, PL. 30. Monastiraki-Katalimata: Nowicki 2008, KP 515. Andreou 1979, Pl. 14, 3.

Date: MM IIB

MOX.40 (P 1560; E3 5930.5. Pl.7a) Conical tumbler, Type 1b. About three-quarters extant. Five joining pieces preserving profile. The base is flat and slightly distinctive and thicker than the body. The body section is straight on the lower wall, turns conical on the mid-wall, ending to a flaring rim. Wheel-made. Rilling marks on the interior and parallel striations on the underside of the base. H. 0.058, Rim d. 0.09, Base d. 0.039. Capacity: 100ml. Fine ware: Reddish yellow (7.5YR 7/6).

Decoration:

Comparanda: Malia Quartier Θ: VanEffenterre 1976: PL. XII, A. Quartier Mu: Poursat and Knappett 2005, PL. 30. Monastiraki-Katalimata: Nowicki 2008, Pl.68, KP 478; 2001, Pl. 5, 15. Date: MM IIB

MOX.49 (P 1871; E3 5930.4, Pl.8c–d) Small conical tumbler, Type 1b, or ‘ouzo cup.’ Almost complete. Fifteen joining pieces preserving profile. The base is flat, the body section is straight at the

lower wall, turns conical ending to a flaring rim. Wheel-made. Rilling striations on interior and exterior. H. 0.05, Rim d. 0.065, Base d. 0.023. Capacity: 50ml. Fine ware: Reddish yellow (5YR 7/6). **Decoration:** Dark slip on interior and exterior and the underside of the base (Bluish gray: GLEY 2 4/1 10B).

Comparanda: Malia, Quartier Θ: VanEffenterre 1976: PL. XII, A. Quartier Mu: Poursat and Knappett 2005, PL. 30, 1053. Monastiraki-Katalimata: Nowicki 2008, Pl.68, KP 478; 2001, Pl. 5, 15.

Date: MM IIB

MOX.50 (P 1449; E3 5930.2) Small conical tumbler, Type 1b, or ‘ouzo cup.’ Complete. Six joining pieces preserving profile. The base is flat, and the body section is straight in the low wall and turns conical ending to a flaring rim. Wheel-made. H: 0.046, Rim d. 0.07, base d. 0.025. Capacity: 55ml. Fine ware: Pink (7.5YR 8/4).

Decoration: Dark slip on interior and exterior and the periphery on the underside of the base (Bluish gray: GLEY 2 4/1).

Comparanda: Malia, Quartier Θ: VanEffenterre 1976: PL. XII, A. Quartier Mu: Poursat and Knappett 2005, PL. 30, 1053. Monastiraki-Katalimata: Nowicki 2008, Pl.68, KP 478; 2001, Pl. 5, 15.

Date: MM IIB

MOX.51 (P 647; E3 5905.10, Pl.8e-f): Conical tumbler, Type 1c. Almost complete. Fourteen joining pieces preserving profile. The base is flat, and the body section is straight, rising to an everted rim. Wheel-made. Deep distinctive marks on interior and exterior and straight parallel striations on the underside of the base. Rim d. 0.13, base d. 0.05, Capacity: 180ml. Coarse ware: Reddish yellow (5YR 6/6). Purple phyllite and silver mica.

Decoration: White-on-dark interior. Three pairs of two parallel white festoons on the rim’s interior.

Date: MM IIB

Flaring Tumblers

MOX.52 (P 4419; E3 5905.11, Pl.8g) Flaring tumbler, Type 2. About three-quarters extant. Fifteen joining pieces, plus three non-joining preserving profile. Base extends in a larger periphery than the body. The body section is straight to conical ending to an everted flaring rim. Wheel made. Rilling striations on the interior. Parallel striations on the underside of the base. H. 0.064, Rim d. 0.11, Base d. 0.045. Fine ware: Reddish Yellow (5YR 7/6).

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 106.

Date: MM IIB

One-Handled Conical Cups

MOX.53 (P 4390; E3 5905.11, Pl.9a) One-handled conical cup, Type 1a. About three-quarters extant. Seven joining pieces preserving profile with vertical rounded handle. H. 0.055, rim d. ~0.073, base d. 0.03. Wheel-made. Rilling marks on the interior and the exterior and parallel striations on the underside of the base. Fine ware orange: Light Red (2.5YR 6/8).

Decoration: Thick white stripe on the interior

Comparanda: Monastiraki-Katalimata:

Nowicki 2008, Pl.65, KP 440, KP 439, KP 442; Pl. 66, 449; Pl. 67, KP 455; 2001, PL. 1, 1a and 1c, Pl.3, 2. Malia: Poursat and Knappett 2005, 970; Andreou 1978, Pl. 18, 8. Pseira: Betancourt 1999, PL.8, BE 3. Vrokastro: Hayden, 2003, Pl. 2, 12; Hall 1914, Pl. 57a; Hall 1914, Pl. 57a. Gournia: Boyd-Hawes, et al. 1908, PL.5, 3.

Date: MM IIB

MOX.54 (P 1496; E3 5931.1, Pl.9b–c) One-handled conical cup, Type 1b. About three-quarters extant. One piece preserving profile. Twenty-three joining pieces preserving profile with a trace of the vertical rounded handle. The base is flat, distinctive, and thicker than the body. The body section is straight at the lower wall, turns conical on the mid-wall, ending to a flaring rim. Wheel made. Deep rilling marks on the interior and exterior. Parallel striations on the underside of the base. H. 0.06, Rim d. 0.098, Base d. 0.04. Coarse ware: Light red (2.5YR 6/6). Purple phyllite.

Decoration: Pairs of three white (Pinkish white: 7.5YR 8/2) strokes hanging down; pendant arcs, festoons, stripes on rim interior.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.29, 965, 979. Gournia: Boyd-Hawes et al. 1908, PL.5, 4.

Date: MM IIB

MOX.55 (P 13266; E3 5905.11) One-handle conical cup, Type 1b. About one-quarter extant. One piece preserving everted rim and handle profile. Wheel-made. Rilling striations on the interior. Pres h. 0.042, Rim d. 0.11. Coarse ware: Red (2.5YR 4/6). Purple phyllite.

Decoration: Three white hatches on the handle.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.29, 965, 979. Gournia: Boyd-Hawes et al. 1908, PL.5, 4.

Date: MM IIB

MOX.56 (P 4410; E3 5905.10, Pl.9d) One-handled conical cup, Type 1b. Almost complete. Fifteen joining pieces preserving profile with vertical rounded handle. The base has a larger diameter than the body, but it is not thicker. The body section is straight to conical, ending to an everted flaring rim. Wheel-made. Rilling striations on the interior. Parallel striations on the underside of the base. H. 0.07, Rim d. 0.10, Base d. 0.046. Capacity: 200 ml. Coarse ware: Red (2.5YR 5/8). Phyllite and silver mica.

Decoration: Red (2.5YR 4/8) slip on the interior.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.29, 965, 979. Gournia: Boyd-Hawes et al. 1908, PL.5, 4.

Date: MM IIB

MOX.57 (P 4405; E3 5905.11, Pl.9e): One-handled conical cup, Type 1b. About one-half extant. Nine joining pieces preserving profile with vertical rounded handle. The base is flat, distinctive, and thicker than the body. The body section is straight on the lower wall, turns conical on the mid-wall exterior, ending to a flaring rim. Wheel-made. Rilling marks on the interior, parallel striations on the underside of the base. H. 0.07m, rim d. 0.08m, base d. 0.038m. Coarse Ware: Red (2.5YR 5/6). Purple phyllite.

Decoration: Three white (yellowish) parallel bands on red buff clay (perhaps festoons). Yellowish-white (Reddish yellow: 7.5 YR 7/6) parallel hatches on the handle.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.29, 965, 979. Gournia: Boyd-Hawes et al. 1908, PL.5, 4.

Date: MM IIB

MOX.58 (P 4398; E3 5905.11, Pl.9f) One-handled conical cup, Type 1b. About one-quarter extant. Four joining pieces preserving rim and body profile with vertical rounded handle. Wheel-made. Pres h. 0.054, rim d. 0.12. Coarse ware: Light red (2.5YR 6/8). Purple phyllite.

Decoration: Dark band on rim exterior. White-on-dark interior. Horizontal white band on the rim, followed by two parallel diagonal bands and a pendant arc.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.29, 965, 979. Gournia: Boyd-Hawes et al. 1908, PL.5, 4.

Date: MM IIB

MOX.59 (P 13252; E3 5905.10, Pl.9g) One-handed conical cup of miscellaneous sub-type. About one-quarter extant. One piece preserving handle profile. The handle is rounded and vertical. Coarse ware: Red (2.5YR 5/6). Silver mica.

Potter's mark: Two diagonal parallel incisions on the top of the handle.

Date: MM IIB

Semi-Globular Cups

MOX.60 (P 5514; E3 5930) Semi-globular cup, Type 1a(?). Less than one-quarter extant. One piece preserving rim and body profile. Wheel-thrown. Rilling marks on the interior. Fine ware orange: Light red (2.5YR 7/6). Knossian Import.

Decoration: Dark slip on the interior, red-on-white exterior. Five red parallel semicircular bands on a white-slipped exterior.

Comparanda: Petras: Haggis 2007, Pl. 10, h. Palaikastro: Knappett and Collar 2007; h, j, k; Andreou 1979, Pl.17, 6. Pseira: Betancourt 1999, Pl. 7, BE 2.

Date: MM IB–MM IIB

Angular Cups

MOX.61 (P 13224; E3 5905.11, Pl.10a) Angular cup, Type 1. About one-quarter extant. One piece preserving base and body profile. The base is flat and presents very low carination in the connection between the body and the base. The body section is straight. Wheel made. Rilling striations on the interior. Parallel striations on the underside of the base. Pres h. 0.024, Base d. 0.06. Medium-fine ware: Pink (7.5YR 7/4). Silver mica inclusions

Decoration: Dark slip on interior and exterior (Very dark bluish-gray: Gley 2 3/1 5PB).

Comparanda: Petras: Haggis 2007, Pl.6d. Pseira: Betancourt 1999, Pl. 7, BE 1. Palaikastro: Knappett and Collar 2007, Pl.18, 93.

Date: MM IB–MM IIA

Miscellaneous Cups

MOX.62 (P 4254; E3 5930) Miscellaneous cup. Less than one-quarter extant. One piece preserving base and body profile. Wheel-made. Rilling striations on the interior.

Decoration: White-on-dark. White thick X decoration on the interior.

Date: MM IIB

MOX.63 (P 4324; E3 5930, Pl.10b) Miscellaneous cup. About one-quarter extant. One piece preserving rim and body profile. The rim is everted, and the body section is straight. Wheel made. Rilling marks on the interior and exterior. Pres h. 0.036, rim d. 0.09. Fine ware: Red (2.5 YR 5/6).

Decoration: Dark spatter over yellowish buff clay on interior and exterior (Bluish black: Gley 2 2.5/1 5PB).

Comparanda: For decoration Petras: Haggis, Pl.13.

Date: MM IB–MM IIB

SERVING

Deep Bowls

MOX.64 (P 1875; E3 5930.2, Pl.10c): Deep bowl, Type 1a. Less than one-quarter extant. One piece preserving rim and body profile. The rim is inverted, and the body section is convex. A horizontal loop handle is attached to the high exterior wall, extending to the same height as the rim. Wheel-made. Shallow rilling marks on the interior. Pres h. 0.06, rim d. 0.13. Coarse ware: Red (2.5YR 5/6).

Purple phyllite

Date: MM IIB

MOX.65 (P 4431; E3 5930.3): Deep bowl, Type 1b. Less than one-quarter extant. One piece preserving rim and body profile. The body section is rounded, ending to an inverted rim. A pinch in the middle wall was used as a mending hole. Coil-made. Pres h. 0.055, rim d. 0.15. Coarse ware: Red (2.5YR 4/6). Purple phyllite.

Comparanda: Knossos: MacDonald and Knappett 2007, Pl. 3.33, 540

Date: MM IA–MM IIB

Flared-Rim Bowls

MOX.66 (P 13267; E3 5905.11, Pl.10d) Flared-rim bowl, Type 2a. About one-quarter extant. Three joining pieces preserve the base and body profile. The base is flat and the body conical. Wheel made. Rilling striations on base and body interior. Pres h. 0.03, Base d. 0.06. Coarse ware: Light red (2.5YR 6/8) Silver mica.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl.4.4, 71, pp. 119. Malia: Poursat and Knappett 2005, *Soucoupes*, pl. 53, 1105a–1113; Knossos: MacDonald and Knappett 2007, Pl. 3.7, 221–223

Date: MM IIA–MM IIB

MOX.67 (P 4312; E3 5905.12, Pl.10e) Flared-rim bowl, Type 2b. About one-quarter extant. Four joining pieces preserve rim and body profile. The body is at an obtuse angle, ending to a flaring rim. Wheel made. Rilling striations on interior and exterior. Pres h. 0.036m, Rim d. 0.19m. Coarse ware. Purple phyllite (2.5YR 5/8 Red).

Potter's mark: Two diagonal, almost horizontal, parallel pre-firing incisions. Lower slightly longer than upper.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIA–MM IIB

MOX.68 (P 1419; E3 5930.2, Pl.10f): Flared-rim bowl, Type 2b. One-quarter extant. Three joining pieces preserving profile. The base is flat, body section opens to an obtuse angle, ending to a flat flaring rim. Wheel made. Shallow rilling marks on interior, Rilling striations on the base interior. H. 0.065m, Rim d. 0.17m, Base d.~0.075m. Coarse ware: Light red (2.5YR 7/6). Purple phyllite.

Decoration: Red slip on the interior

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIA–MM IIB

MOX.69 (P 13283; E3 5905.11, Pl.10g) Flared-rim bowl, Type 2b. About one-quarters extant. Three joining pieces preserve base and body profile The base is flat, body section opens to an obtuse angle. Wheel/hand-made. Rilling striations on the interior, possible coil join on the lower exterior wall. Pres h. 0.07, Base d.~0.12. Coarse Ware: Red (2.5YR 5/8). Silver mica.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIB

MOX.70 (P 13251; E3 5905.11, Pl.10h) Tripod flared-rim Bowl, Type 3. About one-quarter extant. Three joining pieces preserve the base and body profile. The base is flat, and the body turns immediately in flaring section. The base and part of the ovoid leg are preserved. Wheel/hand-made. Rilling striations on body and base interior. Two possible coil joins. One in the join of the body with the base and the other between the leg and the base. Pres h. 0.014m, Base d. 0.08m. Coarse ware, CF 8 (2.5YR 6/6 light red).

Comparanda: Monastiraki-Katalimata: Nowicki 2001, Pl. 10, 26. Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 118.

Date: MM IIB

MOX.71 (P 4336; E3 5905.11, Pl.10i): Tripod flared-rim bowl, Type 3. About one-quarter extant. Three non-joining pieces preserving base and legs profile. The base is flat and the body flares immediately open to an obtuse angle. The first leg is ovoid in section and the second is globular curvy at the bottom end. Pres h. 0.031; leg 1: H. 0.101, th. 0.026>0.012m; Leg 2: h. 0.105, th. 0.066> 0.051. Coarse ware: Light red (2.5YR 6/8). CF 8.

Decoration: Impressed decoration on the base interior.

Comparanda: Monastiraki-Katalimata: Nowicki 2001, Pl. 10, 26. Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 118

Date: MM IIB

COOKING

Dishes

MOX.72 (P 1873; P 5930.2) Cooking dish, Type 1a. About one-quarter extant. Three joining pieces preserve body and wall profile that seems to rise to an inverted rim. Pres h. 0.018. Handmade. Smooth interior and exterior; rough exterior. Coil-join between different parts of the body. Spiral striations on the base interior. Coarse ware: Yellowish red. (5YR 4/6). Granodiorite.

Date: MM IIB

MOX.73 (P 4467; E3 5905.9, Pl.11a) Cooking dish, Type 1a. Less than one-quarter extant. One piece preserving body and rim profile. The body is conical, rising to an inverted rim. Rough exterior, smoother body, and rim interior. H: 0.014, rim d. 0.17. Handmade. Coil-join between the rim and the base. Coarse ware: Red (2.5YR 5/6). Granodiorite.

Date: MM IIB

MOX.74 (P 4331; E3 5905.11) Cooking dish, Type 1a. Less than one-quarter extant. One piece preserving rim and body profile with straight to conical wall exterior ending to an inverted rounded rim. Rough exterior, smoother body, and rim interior. H. 0.014, Base rim d. 0.19. Handmade. Coil-join between rim and body. Coarse ware: Dark reddish gray (5YR 4/2). Granodiorite.

Date: MM IIB

MOX.75 (P 4252; E3 5905.11, Pl.11b) Cooking dish, Type 2a. Less than one-quarter extant. One piece preserving rim and flaring body profile, rising to the flaring rim. Smooth body and rim interior. Coarse Ware: Red (2.5YR 4/6). Purple phyllite and white metamorphic rocks.

Date: MM IIB

MOX.76 (P 4269; E3 5905.9, Pl.11c) Cooking dish, Type 2a. Less than one-quarter extant. Two joining pieces preserve rim and body profile. The body is conical with an inverted flaring rim. It is also divided into two parts with the low part being rough, and the higher being smooth. Smooth interior surface. Pres h. 0.016, Rim d. 0.035. Handmade. Coil-join between the rim and the body. Coarse ware: Red (2.5YR 5/8). Silver mica.

Date: MM IIB

Trays

MOX.77 (P 4344; E3 5905.11, Pl.11d): Cooking tray, Type 1a. Less than one-quarter extant. One piece preserving profile. The base is flat, slightly offset, and the body section is straight with a rounded rim. Rough underside the base, smooth body, and rim interior and exterior. H. 0.22. Handmade. Possible coil-join between body and the base. Coarse ware: Light red (2.5YR 6/6). Purple phyllite

Comparanda: Petras (Alberti 2016, Pl.19, CW 122, CW 123), Palaikastro Block M (Knappett and Cunningham, Pl.4.4, 65), Haggis 2012, Pl.26, B371, Monastiraki-Katalimata (Nowicki 2008, Pl.68, KP 469)

Date: MM-LM

MOX.78 (P 1868; E3 5930.4) Cooking tray, Type 1a. Less than one-quarter extant. One piece preserving profile. The base is flat, and the rim extends higher than the base. Rough underside the base, smooth body, and rim interior and exterior. H. 0.032, Rim d. ~0.35. Possible coil-join between the base and the body. Handmade. Coarse ware: Red (2.5YR 5/6). Silver mica.

Comparanda: Petras (Alberti 2016, Pl.19, CW 122, CW 123), Haggis 2012, Pl.26, B371, Monastiraki-Katalimata (Nowicki 2008, Pl.68, KP 469)

Date: MM–LM

MOX.79 (P 4316; E3 5905.12, Pl.11e) Cooking tray, Type 1a. Less than one-quarter extant. Two joining pieces preserving profile. The base is flat, and the rim extends higher than the base. Rough underside the base, smooth body and rim interior and exterior. H. 0.36, Rim d. ~0.27. Handmade. Possible coil-join between the base and the body. Coarse ware: Red (2.5YR 5/8). Purple phyllite.

Comparanda: Petras (Alberti 2016, Pl.19, CW 122, CW 123), Palaikastro Block M (Knappett and Cunningham, Pl.4.4, 65), Haggis 2012, Pl.26, B371, Nowicki (Monastiraki-Katalimata 2008, Pl.68, 469)

Date: MM–LM

MOX.80 (P 4469; E3 5905.11, Pl.11f) Cooking tray, Type 1b. Less than one-quarter extant. One piece preserving profile. The base is flat, and the body section is constructed in two parts. A deep ridge splits the body into two parts. Rough underside the base, smooth body, and rim interior and exterior. H. 0.035, Rim d. 0.025. Handmade. Two coil-joints one between the two parts of the body and the other between the body and the base. Coarse ware: Red (2.5 YR 5/8). Purple phyllite

Comparanda: Petras (Alberti 2016, Pl.20, CW 157)

Date: MM IB–IIB

Pots

MOX.81 (P 1854; E3 5930.1, Pl.11g) Cooking pot, Type 1. Almost complete. Seventy-three joining pieces preserving full, semiglobular, open profile. Everted, slightly round rim with one vertical rounded handle on each side. Ovoid leg profile transitions to flat at feet. Wheel-made base and coil-joints finished with RKE from lower wall to the rim. Intense burning on interior and exterior. Coarse ware: Red (2.5YR 4/8). Granodiorite.

Comparanda: Kommos (Betancourt 1990, Pl. 19, 247), Monastiraki-Katalimata (Nowicki 2008, Pl.68), Malia, Quartier Mu (Poursat and Knappett 2005, PL.17, 361)

Date: MM IIA–MM IIB

UTILITARIAN

Basins

MOX.82 (P 4434; E3 5930, Pl.11h) Basin, Type 1a. Less than one-quarter extant. One piece preserving body. Coarse ware: Red (2.5YR 4/8). Purple phyllite. **Decoration:** Deep incisions on the interior

Comparanda: Pseira: Betancourt et al. 2009, Pl. 1, AF 5, Monastiraki-Katalimata (Nowicki, Pl.74, KP 46)

Date: MMIIA–MM IIB

STORAGE

Jars

MOX.83 (P 13163; E4 4334.1, Pl.12a) Pithoid jar, Type 4a. Less than one-quarter extant. One piece preserves the rim, neck, and part of the shoulder profile. The rim is wide, rounded, and everted. Pres. h. 0.074, rim d. 0.019. Coil-made. Coarse ware: Reddish yellow (5YR 7/6) Granodiorite.

Decoration: Dark slip on the exterior.

Comparanda: Vrokastro: Hayden, 2003, Pl.1, 4.

Date: MM IIB

POURING

Jugs

MOX.84 (P 6699; E4 4334.1, Pl.12b–c): Jug with cutaway spout, Type 1a. Nine joining pieces preserving conical profile with cut-away (beak) spout and vertical rounded handle. The neck is cylindrical and the shoulder is globular. H. 0.23, base d. 0.08, spout d. 0.025. Wheel-coil. Rilling striations on the base interior. Visible coil joins on the low, middle, and upper exterior wall. Coil joins finished with RKE on the whole surface of the neck. Coarse ware: Light red (2.5YR 7/6). Purple phyllite

Comparanda: For shape: Monastiraki-Katalimata: Nowicki 2008, Pl.72, KP 533. Malia, Quartier Mu: Poursat and Knappett 2005, PL.18, 392.

Date: MM IIB

MOX.85 (P 7633; E4 4334.1, Pl.12d) Bridge-spouted jug/jar, Type 5c. About one-half extant. Twenty joining pieces plus seventeen non-joining preserving profile with bridge-spout. The base is flat, the body section is hemispherical, and the rim is everted and flat. H. 0.175, rim d. 0.152, base d. 0.08. Wheel-coil. Rilling striations on the base interior, coil joins on middle and high wall exterior, parallel striations on the underside of the base. Coarse ware: Light red (2.5YR 6/8). Granodiorite.

Decoration: White-on-dark. Thick parallel white bands covering from low to high wall exterior. Pairs of white parallel hatches cover the flat surface of the rim.

Comparanda: Malia Quartier Mu: Poursat and Knappett 2005, PL.25, 649.

Date: MM IIB

MOX.86 (P 6301; E4 4334.1, Pl.12e) Pear-shaped or globular jug, Type 6b. Two pieces, plus three joining pieces, preserving profile with vertical rounded handle. The base is flat the wall profile is semi-globular, the neck is tall and straight; flaring rim with pulled-rim spout. H. 0.195, rim d. 0.09, base d. 0.18, max d. 0.18. Wheel-coil. Rilling striations on the base interior, coil-joints on the high exterior wall. Coarse ware: Light red (10R 6/6). Phyllite and silver mica.

Decoration: White-on-red. Red slip on the exterior. Series of white bands from low to high wall exterior.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.21, 470, 463.

Date: MM IIB

MOX.87 (P 6305; E4 4334.1. Pl.12f): Trefoil-mouthed, hemispherical jug, Type 7a. Fifteen joining pieces preserving hemispherical profile with two horizontal handles and trefoil-spout. H. 0.12, d. 0.092, base d. 0.079. Wheel-coil. Rilling marks on the interior, coil joints on wall interior, finished with RKE. Coarse ware: Reddish yellow (5YR 6/6). Purple phyllite.

Date: MM IIB

MOX.88 (P 13161; E4 4334.1) Jug. About one-quarter extant. One piece preserving base and body profile. The base is slightly offset the body concave at the low wall exterior and probably turns globular. Pres h. 0.02m, base d. 0.05m. Wheel-made. Rilling marks on the interior and parallel striations on the underside of the base. Coarse ware. Silver mica, 2.5YR 5/6 Red.

Date:

Pitchers

MOX.89 (P 6311; E4 4334.1, Pl.12g) Pitcher, Type 1a. More than three-quarters extant. Two joining pieces preserve conical profile that does not preserve spout, which should be pulled. H. 0.186, rim d. 0.12, base d. 0.07. Wheel-coil. Rilling striations on the interior. Multiple coil-joints from low to high exterior wall. Coarse ware: Red (2.5YR 5/6). Phyllite.

Comparanda: Malia, Quartier Θ : VanEffentere 1976, PL. XII, G. Quartier Mu: Poursat and Knappett 2005, PL. 15, 272–316; Poursat 1997, PL. 24, a.

Date: MM IIB

MOX.90 (P 6702; E4 4334.1, Pl.12h) Pitcher, Type 1a. Less than one-half extant. Three joining pieces preserve a flat base, conical body profile, inverted rim, and a trace of the vertical rounded handle. H. 0.155, rim d. 0.15, base d. 0.065, spout d. 0.02. Wheel-coil. Shallow rilling marks on the interior, multiple coil-joints in the low, middle, and high exterior wall. Nail marks and fingerprints above the base. Coarse ware: Red (2.5YR 5/8). Purple phyllite.

Comparanda: Malia, Quartier Θ : VanEffentere 1976, PL. XII, G. Quartier Mu: Poursat and Knappett 2005, PL. 15, 272–316; Poursat 1997, PL. 24, a

Date: MM IIB

MOX.91 (P 6696; E4 4334.1; Pl.12i) Pitcher, Type 2. About one-quarter extant. One piece preserving rim and body profile with horizontal handle. Inverted rim; the handle is rounded and attached below the rim, on the high exterior wall. Pres h. 0.24, rim d. 0.28. Coil-made. Coil-join on

the high exterior wall, between the rim and the body. Coarse ware: Red (10YR 5/8). Purple phyllite with silver mica.

Comparanda: Malia Quartier Mu: Poursat and Knappett 2005, PL. 15, 324: Sector Pi Knappett and Pomadère et al. 2017, Pl.46. Zakros: Platon and Tsiboukaki 2017, Pl.6,n.

Date: MM IIA–MM IIB

Miscellaneous Closed Vessels

MOX.92 (P 13152; E4 4335.1, Pl.12j) Miscellaneous closed vessel with potter's mark. One piece preserving part of the vertical, rounded handle. Coarse ware: Light red (2.5YR 6/8). Purple phyllite.

Potter's mark: Two symmetric diagonal incisions in one part of the handle.

DRINKING

Carinated Cups

MOX.93 (P 13162; E4 4334.1, Pl.13a) Ribbed carinated cup, Type 2a. Less than one-quarter extant. The base is flat, convex body profile, and concaves above the carination. Thin regular grooves above carination. Pres h. 0.032, base d. 0.05. Wheel-made. Rilling marks on the interior.

Decoration: Reddish-brown slip on the interior and the exterior and the underside of the base.

Comparanda: Malia: Poursat and Knappett 2005, Pl.27, no.769; Andreou 1979, Pl.19, 15. Monastiraki-Katalimata: Nowicki 2008, Pl. 70, no. KP 498; 2001, Pl. 15, 13. Pseira: Floyd 2009, Pl.4, AF 92. Conical Tumblers

MOX.100 (P 6700; E4 4334.1, Pl.13g) Conical tumbler, Type 1a. About one-half extant. One piece preserving base and body profile. The base is slightly thicker than the body. Pres h. 0.048, base d. 0.038. Wheel-thrown. Rilling marks on the interior and parallel striations on the underside of the base. Fine ware orange: Reddish yellow (5YR 7/6).

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64, KP 425, KP 426.

Date: MM IIB

MOX.101 (P 6309; E4 4334.1, Pl.13h) Conical tumbler, Type 1a. About one-half extant. Two joining pieces preserve the base and body profile. The base is slightly thicker than the body. Small concavity in the lower exterior wall that turns conical. Pres h. 0.044, base d. 0.036. Semi-fine ware: Light red (2.5YR 7/6). Small purple phyllitic inclusions.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64, KP 425, KP 426.

Date: MM IIB

MOX.102 (P 13141; E4 4334.3) Conical tumbler, Type 1a. Less than one-quarter extant. One piece preserving base and body profile. The base is flat and thicker than the body. Pres h. 0.022m, base d. 0.038m. Wheel-made. Rilling striations on the interior, parallel striations on the underside of the base. Coarse ware. Purple phyllite, 2.5YR 5/6 Red.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64, KP 425, KP 426.

Date: MM IIB

MOX.103 (P 6415; E4 4335.3, Pl.13i) Conical tumbler, Type 1b. About three-quarters extant. One piece preserving base and body profile. The base is flat, and the body is conical in section. Pres h. 0.056, base d. 0.038. Wheel-thrown. Shallow rilling marks on the interior and parallel striations on the underside of the base. Fine ware orange: Light Red (2.5YR 7/6)

Comparanda: Malia, Quartier Θ: VanEffenterre 1976: PL. XII, A. Quartier Mu: Poursat and Knappett 2005, PL. 30. Monastiraki-Katalimata: Nowicki 2008, Pl.68, KP 478; 2001, Pl. 5, 15, 16. Petras: Tsipopoulou 2017a, Pl.8, a–g; Tsipopoulou 2010, 50, P4. Trapeza: Pendlebury and Money-Coutts, 1939, Pl.14, 531, 532.

Date: MM IIB

MOX.104 (P 7629; E4 4335.7, E4 4335.7, Pl.13j) Conical tumbler, Type 1b About one-half extant. Four joining pieces preserving profile. The base is flat and there is a small concavity on the low body, which turns conical ending to an everted rim. H. 0.064, rim d. 0.10, base d. 0.048. Wheel-made. Shallow rilling marks on the interior and exterior, concentric striations on the underside of the base. Coarse ware: Reddish yellow (5YR 6/6). Purple phyllite.

Comparanda: Malia, Quartier Θ: VanEffenterre 1976: PL. XII, A. Quartier Mu: Poursat and Knappett 2005, PL. 30. Monastiraki-Katalimata: Nowicki 2008, Pl.68, KP 478; 2001, Pl. 5, 15, 16. Petras: Tsipopoulou 2017a, Pl.8, a–g; Tsipopoulou 2010, 50, P4. Trapeza: Pendlebury and Money-

Coutts, 1939, Pl.14, 531, 532.

Date: MM IIB

Flaring Tumblers

MOX.105 (P 6397; E4 4334.1) Flaring tumbler, Type 2. More than one-half extant. Eight joining pieces preserving profile, with tapered rim and straight, slightly conical body profile. The lower part of the base is offset and extends in a slightly larger periphery than the body section. H. 0.068m, rim d. 0.09m, base d. 0.037m. Wheel-made. Shallow rilling marks on the interior, exterior and parallel striations on the underside of the base. Fine ware tan: Pink (7.5YR 7/4).

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 106.

Date: MM IIB

One-Handled Conical Cups

MOX.106 (P 6277; E4 4334.1, Pl.14a) One-handled conical cup, Type 1a. About one-quarter extant. One piece preserving rim and body profile with vertical rounded handle. Pres h. 0.048, rim d. 0.13. Wheel-made. Shallow rilling marks on the interior. Semi-fine ware: Red (2.5YR 5/8) Small purple phyllite inclusions.

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl.65, KP 440, KP 439, KP 442; Pl. 66, 449; Pl. 67, KP 455; 2001, PL. 1, 1a and 1c, Pl.3, 2. Malia: Poursat and Knappett 2005, 970; Andreou 1978, Pl. 18, 8. Pseira: Betancourt 1999, PL.8, BE 3. Vrokastro: Hayden, 2003, Pl. 2, 12; Hall 1914, Pl. 57a. Gournia: Boyd-Hawes, et al. 1908, PL. 5, 3.

Date: MM IIB

MOX.107 (P 6698; E4 4334.1, Pl.14b) One-handled conical cup, Type 1b. Almost complete. Four joining pieces preserving profile with a vertical rounded handle attached at an everted rim and high wall exterior. H. 0.066, rim d. 0.092, base d. 0.035. Wheel-thrown. Rilling marks on the interior, parallel striations on the underside of the base. Semi-fine ware orange: Light red (2.5YR 7/8). Purple phyllite.

Decoration: Red slip on the interior and pairs of three festoons on the rim and high wall interior.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.29, 965, 979. Gournia: Boyd-Hawes et al. 1908, PL.5, 4.

Date: MM IIB

Semi-Globular Cups

MOX.108 (P 13159; E4 4334.1) Semi-globular cup with potters' mark(?), Type 1a. Less than one-quarter extant. One piece preserving base and body profile. Pres h. 0.008m, base d. 0.05m. Wheel-made. Rilling striations on the base interior, parallel striations on the underside of the base. Fine ware orange clay, 5YR 7/6 Reddish Yellow. Potters' mark(?): two small diagonal incisions.

Decoration: Dark slip on interior and exterior.

Comparanda: Petras: Haggis 2007, Pl. 10, h. Palaikastro: Knappett and Collar 2007; h, j, k; Andreou 1979, Pl.17, 6. Pseira: Betancourt 1999, Pl. 7, BE.

Date: MM IIB

MOX.109 (P 13155; E4 4334.1, Pl.14c) Semi-globular cup, Type 1a. About one-quarter extant. One piece preserving base and body profile. The base is flat and the body is rounded to semi-globular. Pres h. 0.012m, base d. 0.03m. Wheel-thrown. Shallow rilling marks on the interior and exterior, parallel striations on the underside of the base. Fine ware orange clay, 2.5YR 6/8 Light Red.

Comparanda: Petras: Haggis 2007, Pl. 10, h. Palaikastro: Knappett and Collar 2007; h, j, k; Andreou 1979, Pl.17, 6. Pseira: Betancourt 1999, Pl. 7, BE 2.

Date: MMIB–MM IIB

SERVING

Deep Bowls

MOX.110 (P 7624; E4 4335.1, Pl.14d) Deep bowl, Type 1b. Less than one-quarter extant. One piece preserving rim and body profile. The body is slightly conical with a straight rim. Pres h. 0.038, rim d. 0.13. Wheel-made. Shallow rilling marks on the interior. Coarse ware. Phyllite and silver mica.

Decoration: white slip on the interior.

Comparanda: Knossos: MacDonald and Knappett 2007, Pl. 3.33, 540.

Date: MM IIA–MM IIB

Flared-Rim Bowls

MOX.111 (P 13141; E4 4335.3, Pl.14e) Flared-rim bowl, Type 2a. Less than one-quarter extant. One piece preserving base and body profile. The base is thicker than the body. Concavity between the base and low wall exterior. Wheel-made. Rilling marks on the interior, parallel striations on the underside of the base. Semi-fine ware: Red (2.5YR 5/6). Small purple phyllite inclusions.

Decoration: Red slip on the interior and the exterior.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl.4.4, 71, pp. 119. Malia: Poursat and Knappett 2005, *Soucoupes*, pl. 53, 1105a–1113; Knossos: MacDonald and Knappett 2007, Pl. 3.7, 221–223

Date: MM IIA–MM IIB

MOX.112 (P 13164; E4 4334.1, Pl.14f) Flared-rim bowl, Type 2a. Less than one-quarter extant. The base is flat and slightly thicker than the body section that turns conical. Deep ridge on low wall exterior, indicates coil join. Pres h. 0.032, base d. 0.09. Coarse ware: Light Red (10R 6/6). Purple phyllite.

Decoration: Red slip on the exterior.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl.4.4, 71, pp. 119. Malia: Poursat and Knappett 2005, *Soucoupes*, pl. 53, 1105a–1113; Knossos: MacDonald and Knappett 2007, Pl. 3.7,

221–223

Date: MM IIA–MM IIB

MOX.113 (P 13146; E4 4335.3, Pl.14g) Flared-rim bowl, Type 2b. Less than one-quarter extant. One piece preserving base and flaring body profile. Pres h. 0.022, base d. 0.05. Wheel-made. Rilling striations on the interior and parallel striations on the underside of the base. Coarse ware: Red (2.5YR 5/8). Purple phyllite.

Decoration: Dark spatter on the interior.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIB

MOX.114 (P 13148; E4 4335.1) Tripod flared-rim bowl, Type 3. About one-quarter extant. Two joining pieces preserve the base and body profile with traces of leg on the underside of the base. Wheel-made. Rilling striations on the interior. Pres h. 0.026, base d. 0.06. Coarse ware: Red (2.5YR 5/6). Phyllite and silver mica.

Decoration: Dark slip on the interior

Comparanda: Monastiraki-Katalimata: Nowicki 2001, Pl. 10, 26. Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 118.

MOX.115 (P 6410; E4 4335.3, Pl.14h) Tripod flared-rim bowl, Type 3. About one-half extant. Fourteen joining pieces preserving conical to flaring profile with traces of three ovoid legs. Pres. h. 0.051, Base d. 0.085. Wheel-coil. Rilling striations on the interior. Coil-joins on exterior wall. Coarse ware: Red (10R 4/6).

Decoration: Dark slip on the white burnished interior.

Comparanda Monastiraki-Katalimata: Nowicki 2001, Pl. 10, 26. Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 118.

Date: MM IIB

MOX.116 (P 7623; E4 4335.4, Pl.14i) Tripod flared-rim bowl, Type 3. Less than one-quarter extant. One piece preserves the base and body profile with a trace of the globular leg. Distinctive coil on the interior decorated with pinched holes. Coil-made. Coarse ware: Red (10R 5/8). Purple phyllite and silver mica.

Comparanda: Monastiraki-Katalimata: Nowicki 2001, Pl. 10, 26. Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 118.

Date: MM IIB

COOKING

Cooking Bowls

MOX.117 (P 6285; E4 4334.1, Pl.15a) Tripod cooking bowl, Type 4. Intact. One piece preserving profile with vertical rounded handle. The shape is conical ended in a slightly everted rim with a pulled-out spout. Three short knob legs below the base. Intensive burning on the interior and wall exterior. H. 0.080>0.075, rim d. 0.10, base d. 0.06. Wheel-coil. Rilling striations on the base interior,

coil-joins on the mid-and high exterior wall. Coarse ware: Yellowish red (5YR 4/6). Purple phyllite and silver mica.

Comparanda: Malia: Poursat and Knappett 2005, PL. 47, 362.

Date: MM IIB

Cooking Dishes

MOX.118 (P 10097; E4 4334.1, Pl.15b) Cooking dish, Type 1a. Less than one-quarter extant. One piece preserving inverted rim and conical body profile. Coil-built. Coarse ware: Red (10R 5/6). Purple phyllite.

Comparanda: Kommos: Betancourt 1990, Pl.18, 211

Date: MM–LM?

MOX.119 (P 7625; E4 4335.4, Pl.15c) Cooking dish, Type 2. Less than one-quarter extant. One piece preserving flaring rim and conical body profile. Smooth interior, rough exterior. Pres h. 0.08, rim d.~0.31. Coil-built. Coil-join between the rim and the body. Coarse ware: Brown (7.5YR 5/3). Granodiorite.

Decoration: Dark band on the rim and high wall interior

Comparanda: Petras (Alberti 2016, Pl.22, CW 181), Kastro (Mook 1999, PL.CX, 2)

Date: MM–LM?

Cooking Pots

MOX.120 (P 13139; E4 4335.3, Pl.15c) Cooking pot, Type 2. Less than one-quarter extant. One piece preserving globular body profile. Pres h. 0.08. Coil-made. Coarse ware: Red (2.5YR 5/8). Purple phyllite.

Comparanda: Monastiraki-Katalimata (Nowicki 2008, Pl.69, KP 489)

Date: MM IIB

III. Floor or Votive Deposit Underneath C.7 (E4 42/5245–6)

STORAGE

Pithoi

MOX.121 (P 5956; E4 42/5245.1, Pl.16.a) Pithos, Type 1. About three-quarters extant. Seventy joining pieces, and several sets of non-joining pieces; two joining pieces, two joining pieces, eleven non-joining pieces preserving conical to piriform profile. Three vertical rounded handles above the base on the low exterior wall on different sides. Two vertical rounded handles above the lower ones

on the mid exterior wall. One vertical rounded handle is high on the exterior wall. Two parallel ridges on the lower exterior wall above the base. Pres. h. ~0.64, base d. 0.21. Wheel-coil built. Rilling striations on interior base. At least six coil-joints from lower to upper exterior wall. Coarse ware: Pink (7.5YR 8/4). Granodiorite.

Decoration: Dark-on-white buff clay. The thick dark band on the rim interior and a trickle pattern dripping from the shoulder down to the base.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.7, 112; Christakis 2005, Pl.14, 54.

Date: MM IIB

POURING

Jugs

MOX.122 (P 5875; E4 42/5245.1) Jug with cutaway spout, Type 1a. Less than one-quarter extant. One piece preserving neck profile with vertical rounded handle. Pres h. 0.065, rim d. 0.05. Coil-built. Coil-joint between the rim and the neck. Coarse ware: Light red (2.5YR 7/6) Granodiorite.

Decoration: Red slip-on neck exterior.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.3, 56; Relaki 2016, Pl.23, EMP 129–PM 121. Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392. Monastiraki-Katalimata: Nowicki 2008, KP 494. Gournia: Boyd-Hawes 1908, 22, 29.

Date: MM IB–MM IIB

MOX.123 (P 5980; E4 42/5246.1, Pl.16b) Chamaizi juglet, Type 9. Intact. One piece preserving profile. Flat base, globular low profile with straight neck and small decorative vertical rounded handle. Wheel-thrown, rilling marks on the exterior. Coarse ware: Reddish yellow (5YR 7/6). Purple phyllite and silver mica.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL. 39, 1128, 1130; Demargne, 1945, 8602; Van Effenterre 1976, PL. X. Palaikastro: Bosanquet and Dawkins 1902-1903, Pl.22, 1. Vrokastro: Hall 1914, Pl.67.

Date: MM IIB

DRINKING

Conical Tumblers

MOX.124 (P 5900; E4 42/5246.1, Pl.16c) Conical tumbler, Type 1a. More than one-half extant. Five joining pieces preserving profile. Small concavity above the base and conical body section, rising to flaring everted rim. H. 0.064, rim d. 0.10, base d. 0.034. Wheel-made. Parallel striations on the underside of the base. Semi-fine ware: Red (2.5YR 5/6). Silver mica inclusions.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64 KP 425, KP 426.

Date: MM IIB

MOX.125 (P 5895; E4 42/5246.1; Pl.16d) Conical tumbler, Type 1a. About three-quarters extant. Four joining pieces preserving profile. The base is thicker than the body section, creating a small concavity on the low wall exterior, making a conical profile. H.0.067, rim d. 0.09, base d. 0.034. Wheel-made. Rilling striations on the interior and the exterior, parallel striations on the underside of the base. Fine ware: Pink (7.5YR 7/4). Very fine rectilinear chunks of purple phyllite and silver mica.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64 KP 425, KP 426.

Date: MM IIB

MOX.126 (P 6388; E4 42/5244.2, Pl.16e) Conical tumbler, Type 1a. More than one-half extant. Three joining pieces preserving profile. The base is thicker than the body that has a conical section. H. 0.071, rim d. 0.10, base d. 0.03. Wheel-made. Rilling marks on the interior and the exterior. Parallel striations on the underside of the base. Semi-fine ware: Light red (2.5YR 7/6). Silver mica inclusions.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64 KP 425, KP 426.

Date: MM IIB

MOX.127 (P 8548; E4 42/5246.3, Pl.16f) Conical tumbler with potter's mark, Type 1a. About one-half extant. Six joining pieces preserving profile. The base is thicker than the body and a small ridge also distinguishes the base from the body. The body is conical ending to a tapered rim. H. 0.062, rim d. 0.10, base d. 0.042. Wheel-thrown. Shallow rilling marks on the interior. Parallel striations on the underside of the base. Coarse ware: Red (10R 5/6). Phyllite and silver mica.

Potter's mark: Two diagonal pre-firing incisions above the base on the low exterior wall.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64 KP 425, KP 426.

Date: MM IIB

MOX.128 (P 6385; E4 42/5244.2, Pl.16g) Conical tumbler with potter's mark, Type 1a. About three-quarters extant. Twelve joining pieces preserving conical profile with a tapered rim. The base is thicker than the body section. H. 0.065, rim d. 0.09, base d. 0.033. Semi-fine orange: Red (10R 5/6). Purple phyllite.

Potter's mark: Two almost symmetric diagonal incisions on the lower exterior wall.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64 KP 425, KP 426.

Date: MM IIB

MOX.129 (P 5894; E4 42/5246.1, Pl.16h) Conical tumbler, Type 1b. Three-quarters extant. Three joining pieces preserving profile. Flat base, small concavity above the base creating conical body profile ending to an everted tapered rim. H. 0.06, rim d. 0.086, base d. 0.037. Wheel-made. Rilling striations on the interior and the exterior and parallel striations on the underside of the base. Semi-fine ware orange: Light red (2.5YR 6/6). Small chunks of purple phyllite and silver mica.

Comparanda: Malia, Quartier Θ: VanEffenterre 1976: PL. XII, A. Quartier Mu: Poursat and Knappett 2005, PL. 30. Monastiraki-Katalimata: Nowicki 2008, Pl.68, KP 478; 2001, Pl. 5, 15. Petras: Tsipopoulou 2017a, Pl.8, a-g; Tsipopoulou 2010, 50, P4. Trapeza: Pendlebury and Money-Coutts, 1939, Pl.14, 531, 532.

Date: MM IIB

MOX.130 (P 6330; E4 42/5244.1) Conical tumbler, Type 1b. More than one-quarter extant. One piece preserving profile. The base is flat, and the body section is slightly conical, ending to a tapered rim. H. 0.059, rim d. 0.08, base d. 0.04. Wheel-thrown. Shallow rilling marks on the interior, parallel striations on the underside of the base. Semi-fine ware: Red (10R 5/8). Small purple phyllite and silver mica inclusions.

Comparanda: Malia, Quartier Θ: VanEffenterre 1976: PL. XII, A. Quartier Mu: Poursat and Knappett 2005, PL. 30. Monastiraki-Katalimata: Nowicki 2008, Pl.68, KP 478; 2001, Pl. 5, 15. Petras: Tsipopoulou 2017a, Pl.8, a–g; Tsipopoulou 2010, 50, P4. Trapeza: Pendlebury and Money-Coutts, 1939, Pl.14, 531, 532.

Date: MM IIB

MOX.131 (P 6393; E4 42/5246.1, E4 42/5246.3) Conical tumbler, Type 1b. About three-quarters extant. Twelve joining pieces preserving profile. Small concavity above the base, flaring body profile. H. 0.063, rim d. 0.10, base d. 0.035. Wheel-made. Rilling marks on the interior and the exterior and parallel striations on the underside of the base. Fine ware orange: Reddish yellow (5YR 7/6).

Comparanda: Malia, Quartier Θ: VanEffenterre 1976: PL. XII, A. Quartier Mu: Poursat and Knappett 2005, PL. 30. Monastiraki-Katalimata: Nowicki 2008, Pl.68, KP 478; 2001, Pl. 5, 15. Petras: Tsipopoulou 2017a, Pl.8, a–g; Tsipopoulou 2010, 50, P4. Trapeza: Pendlebury and Money-Coutts, 1939, Pl.14, 531, 532.

Date: MM IIB

Flaring Tumblers

MOX.132 (P 5896; E4 42/5245.1, Pl.16i) Flaring tumbler, Type 2. About three-quarters extant. Two joining pieces preserving profile. The base is flat, the body section is straight to the low wall, turns conical, ending with a flaring tapered rim. H. 0.07, rim d. 0.10, base d. 0.035. Wheel-thrown. Shallow rilling marks on the interior, parallel striations on the underside of the base. Fine ware tan: Pink (5YR 5/4).

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 106.

Date: MM IIB

MOX.133 (P 5854; E4 42/5246.1, Pl.16j) Flaring tumbler, Type 2. About three-quarters extant. Nine joining pieces preserve profile. The base is flat, the body section is straight to the low wall, turns conical, ending with a flaring tapered rim. H. 0.07, rim d. 0.09, base d. 0.035. Wheel-thrown. Shallow rilling marks on the interior, spiral concentric striations on the underside of the base. Semi fine ware orange: Reddish yellow (5YR 7/6). Small purple phyllite and silver mica inclusions.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 106.

Date:MM IIB

MOX.134 (P 6391; E4 42/5246.1, Pl.16k) Flaring tumbler, Type 2. About three-quarters extant. Three joining pieces preserving conical profile ending to flaring tapered rim. The base is slightly thicker than the body section. H. 0.057, rim d. 0.085, base d. 0.035. Wheel-thrown. Rilling striations on the interior and parallel striations on the underside of the base. Semi-fine orange/red: Light Red (10R 6/6). Purple phyllite.

Decoration: Dark slip on the interior and the exterior and the underside of the base

Comparanda: Palaikastro, (Knappett and Cunningham 2012, Pl. 4.13, 106)

Date: MM IIB

MOX.135 (P 6394; E4 42/5246.3, Pl.16l) Flaring tumbler, Type 2. About three-quarters extant. Five joining pieces preserve profile with a concave low wall that turns to conical ending to flaring tapered rim. H. 0.64m, rim d. 0.09m, base d. 0.043m. Wheel-thrown. Rilling marks on the interior and the exterior and parallel striations on the underside of the base. Medium-fine ware orange: Reddish yellow (5YR 7/6). Purple phyllite and silver mica.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 106.

Date: MM IIB

MOX.136 (P 5852; E4 42/5245.1, Pl.16m) Flaring tumbler, Type 2. More than three-quarters extant. Sixteen joining pieces preserving profile. The base is flat, the low wall straight, and the body section is conical ending to a tapered rim. H. 0.063, rim d. 0.092, base d. 0.039. Wheel-thrown. Rilling marks on the interior and parallel striations on the underside of the base. Medium-fine ware: Red (2.5YR 6/8). Small purple phyllite and silver mica.

Decoration: White wash on the interior and the exterior.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 106.

Date: MM IIB

MOX.137 (P 5893; E4 42/5246.3, Pl.16n) Flaring tumbler, Type 2. Almost complete. Nine joining pieces preserving profile with flat base straight low wall and conical upper wall ending to flaring tapered rim. H.0.07, rim d. 0.092, base d. 0.038. Wheel-thrown. Shallow rilling marks on the interior and exterior. Parallel striations on the underside of the base. Fine ware orange: Red (2.5YR 5/8).

Decoration: White slip on the interior and the exterior

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 106.

Date: MM IIB

One-Handled Conical Cups

MOX.138 (P 5828; E4 42/5244.1, Pl.16o) One-handed conical cup, Type 1a. Almost complete. Thirteen joining pieces preserving profile with vertical rounded handle. H. 0.067, rim d. 0.094, base d. 0.044. Wheel-thrown. Shallow rilling marks on the interior, parallel striations on the underside of the base. Semi-fine ware orange: Light red (2.5YR 6/8). Small phyllite inclusions.

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl.65, KP 440, KP 439, KP 442; Pl. 66, 449; Pl. 67, KP 455; 2001, PL. 1, 1a and 1c, Pl.3, 2. Malia: Poursat and Knappett 2005, 970; Andreou 1978, Pl. 18, 8. Pseira: Betancourt 1999, PL.8, BE 3. Vrokastro: Hayden, 2003, Pl. 2, 12. Gournia:

Boyd-Hawes, et al. 1908, PL. 5, 3.

Date: MM IIB

MOX.139 (P 6387; E4 42/5244.2) One-handed conical cup, Type 1a. About one-quarter extant. Nine joining pieces preserving base and body profile with vertical rounded handle. A distinctive ridge above the base separates it from the low wall exterior. Pres h. 0.064, base d. 0.05. Wheel-thrown. Shallow rilling marks on the interior and the exterior. Concentric rilling striations on the underside of the base. Medium-fine ware orange/red: Red (10R 5/8). Large phyllite inclusions, small silver mica

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl.65, KP 440, KP 439, KP 442; Pl. 66, 449; Pl. 67, KP 455; 2001, PL. 1, 1a and 1c, Pl.3, 2. Malia: Poursat and Knappett 2005, 970; Andreou 1978, Pl. 18, 8. Pseira: Betancourt 1999, PL.8, BE 3. Vrokastro: Hayden, 2003, Pl. 2, 12. Gournia: Boyd-Hawes, et al. 1908, PL. 5, 3.

Date: MM IIB

MOX.140 (P 6395; E4 42/5246.1, E4 42/5246.3, E4 42/5244.2, Pl.17a) One-handled conical cup, Type 1a. About three-quarters extant. Ten joining pieces preserve flat base, conical profile, tapered rim, and vertical rounded handle. H.0.06, rim d. 0.094, base d. 0.043. Wheel-thrown. Shallow rilling marks on the interior and parallel striations on the underside of the base. Semi-fine ware orange/red: Light red (10R 6/8). Purple phyllite and white metamorphic rocks

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl.65, KP 440, KP 439, KP 442; Pl. 66, 449; Pl. 67, KP 455; 2001, PL. 1, 1a and 1c, Pl.3, 2. Malia: Poursat and Knappett 2005, 970; Andreou 1978, Pl. 18, 8. Pseira: Betancourt 1999, PL.8, BE 3. Vrokastro: Hayden, 2003, Pl. 2, 12. Gournia: Boyd-Hawes, et al. 1908, PL. 5, 3.

Date: MM IIB

MOX.141 (P 5848; E4 42/5244.1, E4 42/5245.1, E4 42/5246, Pl.17b) One-handled conical cup, Type 1b. Thirteen joining pieces preserving profile with vertical rounded handle. The base is thicker than the body and the wall is straight at its lower part and turns conical ending to flaring tapered rim. Water-wiped interior and exterior. H. 0.07, rim d. 0.09. base d. 0.041. Wheel-thrown. Shallow rilling marks on the interior and the exterior and parallel striations on the underside of the base. Semi-fine ware reddish-orange clay.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.29, 965, 979. Gournia: Boyd-Hawes et al. 1908, PL.5, 4.

Date: MM IIB

MOX.142 (P 5844; E4 42/5241.2, Pl.17c) One-handled conical cup, Type 1b. Complete. Five joining pieces preserve profile with a vertical rounded handle, which is short, starting from the rim ending on the high-wall exterior. The body profile is conical ending to flaring to a tapered rim. H. 0.065, rim d. 0.09, base d. 0.04. Wheel-thrown. Rilling marks on the interior and the exterior and concentric striations on the underside of the base. Medium-fine ware orange/red: Red (7.5YR 5/8).

Decoration: Three pairs of white parallel festoons on the upper interior wall below the rim. White parallel bands on the handle.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.29, 965, 979. Gournia: Boyd-Hawes et al. 1908, PL.5, 4.

Date: MM IIB

Straight-Sided Cups

MOX.143 (P 5835; E4 42/5245.1, Pl.17d) Straight-sided cup, Type 1a. More than one-quarter extant. Three joining pieces plus one non-joining piece preserving profile. The base is thick, small concavity on the low and mid-wall exterior, straight to a slightly conical profile. H. 0.072, rim d. 0.10, base d. 0.051. Wheel-made, concentric striations on the interior and the underside of the base. Medium-fine ware tan: Very pale brown (10YR 8/2). Small granodioritic inclusions

Decoration: Dark slip on the interior and the exterior and the underside of the base.

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 505.

Date: MM IIB

MOX.144 (P 5850; E4 42/5245.1, Pl.17e) One-handed straight-sided cup, Type 2. More than one-half extant. Eleven joining pieces plus two non-joining pieces preserving profile with vertical strap handle. The base is slightly thicker than the body. The body is straight to slightly conical. H. 0.066, rim d. 0.10, base d. 0.055. Wheel-made. Rilling marks on the exterior, concentric striations on the underside of the base. Semi-fine ware tan: Very pale brown (10YR 8/2) Small granodioritic inclusions.

Decoration: Dark slip on the interior and the exterior and the underside of the base.

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl. 81, KP 598. Petras: Tsipopoulou and Hallager, 2010, 50, P6. Palaikastro: Knappett and Cunningham 2012, Pl.4.13, 120. Vrokastro: Hayden 2003, Pl. 3, 14.

Date: MM IIB

Semi-Globular Cups

MOX.145 (P 5853; E4 42/5245.2) Semi-globular cup, Type 1a. About one-half extant. Two joining pieces preserving profile. The base is flat; the body section is semi-globular ending to a straight rim. H. 0.07, rim d. 0.09, base d. 0.05. Wheel-thrown. Rilling striations on the interior and the exterior. Semi-fine ware: Very pale brown (10YR 8/3). Small rectilinear granodioritic inclusions.

Decoration: Dark slip on the interior and the exterior.

Comparanda: Petras: Haggis 2007, Pl. 10, h. Palaikastro: Knappett and Collar 2007; h, j, k; Andreou 1979, Pl.17, 6. Pseira: Betancourt 1999, Pl. 7, BE 2.

Date: MMIB–MM IIB

SERVING

Deep Bowls

MOX.146 (P 6430; E4 42/5244.1, Pl.17f) Deep bowl, Type 5. Less than one-half extant. Two joining pieces preserving profile with vertical rounded handles. The body section is conical ending to an inverted rim. H. 0.93, rim d. 0.20, base d. 0.12. Wheel-thrown, rilling marks on the interior. Coarse ware: Reddish yellow (5YR 7/6). Phyllite and silver mica.

Decoration: Thick, dark parallel bands on the wall interior.

Date: MM IIB

Flared-Rim Bowls

MOX.147 (P 6390; E4 42/5244.2, E4 42/5246.3, Pl.17g) Flared-rim bowl, Type 2b. About one-half extant. Six joining pieces, plus one non-joining piece preserving conical profile with flaring rim. H. 0.037, rim d. 0.16, base d. 0.07. Wheel-thrown. Shallow rilling marks on the interior and the exterior

and parallel striations on the underside of the base. Coarse ware: Light red (2.5YR 6/8). Purple phyllite and silver mica.

Comparanda: Malia Quartier Mu: Poursat and Knappett 2005, PL. 53, 1084; Palaikastro: Knappett and Cunningham, 2012, Pl. 4.2, 44; Petras: Haggis 2012, Pl.15,a; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IB–MM IIB

Saucers

MOX.148 (P 5847 E4 42/5245.1, Pl.17h) Saucer, Type 1b. More than one-quarter extant. One piece preserving profile. Flat, slightly upraised base with flaring body profile ending to a thin rounded rim. The base extends in a larger periphery than the low wall. Pres h. 0.022, rim d. 0.15. Wheel-thrown. Shallow rilling marks on the interior. Semi-fine ware orange: Reddish yellow (5YR 7/8). Reddish phyllite, white metamorphic rock, and silver mica.

Decoration: Red spatter on the interior

Comparanda: Malia Quartier Mu: Poursat and Knappett 2005, PL.53 1084; Palaikastro: Knappett and Cunningham, 2012, Pl. 4.2, 44; Petras: Haggis 2012, Pl.15,a

Date: MM IB–MM IIB

MOX.149 (P 6396; E4 42/5246.1, E4 42/5246.2, E4 42/5246.3, Pl.17i) Saucer, Type 1b. About one-half extant. Ten joining pieces, plus five non-joining pieces preserving profile. The base is slightly upraised. The slightly concave section above the base turns to a flaring profile with a tapered rim. H. 0.032, rim d. 0.13, base d. 0.05. Wheel-thrown. Rilling marks on the interior, parallel striations on the underside of the base. Coarse ware: Red (2.5YR 5/6). Purple phyllite and silver mica.

Comparanda: Malia Quartier Mu: Poursat and Knappett 2005, PL.53 1084. Palaikastro: Knappett and Cunningham, 2012, Pl. 4.2, 44; Petras: Haggis 2012, Pl.15, a.

Date: MM IB–MM IIB

MOX.150 (P 5899; E4 42/5246.1, 42/5245.1, Pl.17j) Saucer, Type 1b. About one-half extant. Two joining pieces preserving profile. Upraised base, concave low body profile turning to flaring profile ending to tapered rim. H. 0.31, rim d. 0.14, base d. 0.055. Wheel-thrown. Rilling marks on the interior, parallel striations on the underside of the base. Semi-fine ware orange: Reddish yellow (5YR 7/6). Small rectilinear purple phyllite inclusions.

Decoration: Red spatter on the interior.

Comparanda: Malia Quartier Mu: Poursat and Knappett 2005, PL.53 1084. Palaikastro: Knappett and Cunningham, 2012, Pl. 4.2, 44; Petras: Haggis 2012, Pl.15,a.

Date: MM IB–MM IIB

COOKING

Pots

MOX.151 (P 5857; E4 42/5245.1, Pl.17k) Cooking pot, Type 1. One piece preserving base and ovoid-globular body profile. Leg h. 0.082. Coil-made. Coarse ware: Red (2.5YR 4/6). Large and small chunks of purple phyllite and very small chunks of silver mica.

Comparanda: Kommos (Betancourt 1990, Pl. 19, 247), Monastiraki-Katalimata (Nowicki 2008, Pl.68)

Date: MM IIA-MM IIB

IV. Fill Underneath House C.7 (E4 31/3204; 31/3224)

STORAGE

Pithoi

MOX.152 (P 7020; E4 31/3224.1, Pl.18a) Pithos, Type 1. About one-quarter extant. One piece preserving everted thick rounded rim and neck profile with rounded handle. Two diagonal ridges on the neck. Pres h. 0.16, rim d. 0.31. Coil-made. Coarse ware: Light red (10R 6/8). Granodiorite.

Decoration: Dark slip on the rim, trickle pattern on neck exterior.

Comparanda:: Malia, Quartier Mu: Poursat and Knappett 2005, PL.7, 112; Christakis 2005, Pl.14, 54.

Date: MM IIB

MOX.153 (P 7635; E4 31/3224.1) Pithos, Type 1. Less than one-quarter extant. Seven joining pieces preserving flat rounded rim and neck profile. Pres h. 0.10, rim d.~0.33. Coil-made. The ridge below the rim shows a coil join. Coarse ware: Pale red (10R 7/4). Granodiorite.

Decoration: Dark band on rim and trickle pattern on the exterior.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.7, 112; Christakis 2005, Pl.14, 54.

Date: MM IIB

Amphorae

MOX.154 (P 7109; E4 31/3204.2, Pl.18b) Oval-mouthed amphora, Type 1. Less than one-quarter extant. One piece preserves the body and handle profile. The body is convex and the handle vertical and rounded. Pres h. 0.118. Coil-made. Coarse ware: Light red (10R 6/6). Granodioritic inclusions.

Decoration: Traces of dark-linked disks on the body section and two diagonal parallel slashes on the handle.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.3, 29. Gournia: Boyd-Hawes et al. 1908, PL.5, 12.

Date: MM IIB

MOX.155 (P 6974; E4 31/3204.2, Pl.18c) Oval-mouthed amphora, Type 1. Less than one-quarter extant. Twelve joining pieces preserving mouth, neck, and body profile, and trace of one vertical rounded handle. Ovoid mouth. Pres h. 0.08, mouth d. 0.08. Coil-built. Coarse ware: Light red (2.5YR 6/6). Granodiorite.

Decoration: Dark on pinkish buff clay. Circular band on the perimeter of the rim. Large band or disc on the bottom of the neck, horizontal band on the shoulder.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.3, 29. Gournia: Boyd-Hawes et al. 1908, PL.5, 12.

Date: MM IIB

MOX.156 (P 7106; 31/3204.2, Pl.18d) Oval-mouthed amphora, Type 1. About one-quarter extant. Two joining pieces, plus five joining pieces, plus ten non-joining pieces preserving base, semi-globular shoulders, conical body section, ovoid neck, and vertical rounded handle. Rim d. 0.15. Wheel-coil. Rilling striations on the base interior, coil joins finished with RKE. Coarse ware: Reddish yellow (5YR 6/6). Granodioritic inclusions.

Decoration: Dark on the handle and the neck. Possible dark-linked disks from base to the shoulder.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.3, 29. Gournia: Boyd-Hawes et al. 1908, PL.5, 12.

Date: MM IIB

MOX.157 (P 7108; E4 31/3204.1, Pl.18e) Oval-mouthed amphora, Type 1. Less than one-quarter extant. One piece preserving rim, ovoid neck, and rounded handle profile. Pres h. 0.098, rim d. 0.12. Wheel-coil. Coarse ware: Red (2.5YR 4/8). Phyllite and white metamorphic rocks

Decoration: Red metallic slip on neck interior.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.3, 29. Gournia: Boyd-Hawes et al. 1908, PL.5, 12.

Date: MM IIB

Jars

MOX.158 (P 7111; E3 31/3224) Jar, Type 2. About one-quarter extant. Four joining pieces preserving base and conical body profile. Beveled base. H. 0.116, base d. 0.145. Coil-made. Coarse ware: Light red (2.5YR 6/8). Purple phyllite.

Decoration: Dark thick band above the base.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 112; Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392.

Date: MM IIB

MOX.159 (P 7503; E4 31/3204.1) Jar, Type 2. Less than one-quarter extant. Four joining pieces preserving base and conical body profile. Pres h. 0.095, base d. ~0.148. Wheel-coil. Rilling striations on base interior and coil join above base exterior. Coarse ware: Light red (2.5YR 6/8). Purple phyllite.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 112; Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392.

Date: MM IIB

MOX.160 (P 7110; E4 31/3224.2, Pl.18f) Jar, Type 2. Less than one-quarter extant. One piece preserving base and slightly concave to conical body profile. Pres h. 0.08, base d. 0.095. Wheel-coil. Rilling striations on the base interior, coil-joins above the base. Coarse ware: Light red (2.5 YR 6/6). Purple phyllite-silver mica,

Decoration: Dark trickle pattern above the base.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 112; Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392.

Date: MM IIB

MOX.161 (P 7006; E4 31/3204.2, Pl.18g) Pithoid jar, Type 4a. Less than one-quarter extant. Two joining pieces preserving flat rounded rim and vertical neck profile, globular on the shoulder. Pres h. 0.052, rim d. 0.18. Coil-made. Coarse ware: Reddish yellow (7.5YR). Granodioritic inclusions.

Decoration: Polychrome. White band below the rim. White parallel crescents on the rim and the high wall of the neck, followed by a white band, which is parallel with a red band on the bottom of the neck.

Comparanda: Malia: Poursat and Knappett 2005, PL.45, 196

Date: MM IIB

MOX.162 (P 6977; E3 31/3204.2, Pl.18h) Hole-mouthed jar, Type 5a. About one-quarter extant. Five joining pieces preserving inverted rim and globular shoulder profile. Pres. h. 0.20, rim d. 0.15. Coil-made. Coarse ware: Pink (5YR 8/4). Granodioritic.

Decoration: Thick parallel dark bands on the exterior. Dark slip on the handles.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.11, 185, 188

Date: MM IB–MM IIB

MOX.163 (P 7107; E4 31/3204.2, Pl.18i) Hole-mouth jar, Type 5b. More than one-quarter extant. Two joining pieces preserving hole-mouth and body profile with a horizontal rounded handle, attached to the shoulder. Pres. h. 0.10, rim d. 0.20. Coil-made. Coil-joins on the high exterior wall. Coarse ware: Light red (2.5YR 6/8). Purple phyllite.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL. 16, 329-340.

Date: MM IIB

Lids

MOX.164 (P 13183; E4 31/3204.2, Pl.18j) Lid, Type 1a. Less than one-quarter extant. One piece preserving body and vertical handle profile. Wheel-made. Coarse ware: Light red (2.5YR 6/6). Granodiorite.

Decoration: Four vertical reddish-brown parallel bands.

Comparanda: Mochlos: Barnard and Brogan 2003, Pl.46, 474. Malia: Poursat and Knappett 2005, Pl. 31, PL.34, 54. Gournia: Boyd-Hawes et al. 1908, PL.2, 43

Date: MM IIB

MOX.165 (P 6980; E4 31/3204.2, Pl.18k) Lid, Type 1a. About one-half extant. One piece preserving rounded profile, rounded wall, inverted rim, and horizontal rounded handle. In the shape of an inverted tray. H. 0.034, rim d.0.25. Wheel-thrown. Rilling striations on the interior. Coarse ware: Light red (10R 6/6). Granodiorite.

Decoration: Two pairs of three attached dark stripes. Dark diagonal parallel hatches on the handle.

Comparanda: Mochlos: Barnard and Brogan 2003, Pl.46, 474. Malia: Poursat and Knappett 2005, Pl. 31, PL.34, 54. Gournia: Boyd-Hawes et al. 1908, PL.2, 43

Date: MM IIB-LM IB

MOX.166 (P 13173; E4 31/3204.1) Lid, Type 1b. Less than one-quarter extant. One piece preserving flat upper surface with convex wall profile and rounded rim. H. 0.03, rim d. 0.17, base d. 0.19. Wheel-thrown. Spiral rilling marks on the interior. Coarse ware: Light reddish brown (2.5YR 6/4). Granodiorite.

Decoration: Dark diagonal thick band on buff clay.

Comparanda: Mochlos: Barnard and Brogan 2003, Pl.46, 474. Malia: Poursat and Knappett 2005, Pl. 31, PL.34, 54. Gournia: Boyd-Hawes et al. 1908, PL.5, 19; Betancourt and Silverman, 1991, Pl.7, 393, 394.

Date: MM IIB-LM

POURING

Jugs

MOX.167 (P 7010; E4 31/3224.2, Pl.19a) Jug with cutaway spout, Type 1a. About one-half extant. Five joining pieces preserve base, conical profile, and globular shoulder. Pres h. 0.17, rim d. 0.065, base d. 0.083. Wheel-coil. Rilling marks on the interior, multiple coil joins on the wall exterior, parallel striations on the underside of the base. Coarse ware: Light red (2.5YR 6/8). Purple phyllite.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.3, 56; Relaki 2016, Pl.23, EMP 129- PM 121. Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392. Monastiraki-Katalimata: Nowicki 2008, KP 494. Gournia: Boyd-Hawes 1908, 22, 29.

Date: MM IB-MM IIB

MOX.168 (P 7105; E4 31/3204.2, Pl.19b) Jug with cutaway spout, Type 1a. About one-quarter extant. Two joining pieces plus two non-joining pieces preserving base and conical body profile. A fingerprint on the lower exterior wall. Pres h. 0.082, base d. 0.076. Wheel-coil. Rilling striations on base and low wall interior, possible coil join on the mid-wall exterior. Coarse ware: Red (10R 5/6). Purple phyllite.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.3, 56; Relaki 2016, Pl.23, EMP 129- PM 121. Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392. Monastiraki-Katalimata: Nowicki 2008, KP 494. Gournia: Boyd-Hawes 1908, 22, 29.

Date: MM IB-IIB

MOX.169 (P 7014; E4 31/3224.1, Pl.19c) Jug with cutaway spout, Type 1a. About one-quarter extant. Two joining pieces preserve base and body profile. Small concavity above the base and the body section is conical. Pres h. 0.085m, base d. 0.075m. Wheel-coil. Rilling striations on the base interior, coil joins on wall exterior. Coarse ware. Phyllite and white-metamorphic rocks, 10R 5/6 Red.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.3, 56; Relaki 2016, Pl.23, EMP 129– PM 121. Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392. Monastiraki-Katalimata: Nowicki 2008, KP 494. Gournia: Boyd-Hawes 1908, 22, 29.

Date: MM IIB

MOX.170 (P 7087; E4 31/3224.2, Pl.19d) Collar-necked jug, Type 8. More than one-quarter extant. Eight joining pieces, plus three non-joining pieces, preserving a small part of the neck and globular body profile. Pres h. 0.141. Wheel-coil. Coil joins, finished with RKE. Coarse ware: Pink (7.5YR 7/4). Imported, Mesara?

Decoration: Dark parallel bands on white slip exterior.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL. 20, 45.

Date: MM IIB

MOX.171 (P 7101; E4 31/3204.2, Pl.19e) Pear-shape jug, Type 6b. Four joining pieces preserving base and body profile. The base is flat, and the body is semi-globular. Pres h. 0.05, base d. 0.06. Wheel-coil. Rilling marks on the interior, parallel striations on the underside of the base. Semi-fine ware orange: Red (2.5YR 5/8).

Comparanda: Malia Quartier Mu: Poursat and Knappett 2005, PL.22, 476

Date: MM IIB

DRINKING

Carinated Cups

MOX.172 (P 6990; E4 31/3204.1, Pl.20a) Ribbed carinated cup, Type 2a. About one-half extant. One piece, plus two joining pieces preserving profile with middle carination, convex low body profile, and inverted rim. Grooved example with eight shallow regular symmetric parallel groups. H. 0.06, rim d. 0.045. Wheel-thrown. Rilling marks on the interior and parallel striations on the underside of the base. Fine ware orange: Reddish yellow (5YR 6/6).

Decoration: Dark metallic slip on the interior and the exterior.

Comparanda: Malia: Poursat and Knappett 2005, Pl.27, no.769; Andreou 1979, Pl.19, 15. Monastiraki-Katalimata: Nowicki 2008, Pl. 70, no. KP 498; 2001, Pl. 15, 13. Pseira: Floyd 2009, Pl.4, AF 92. Vasiliki: Andreou 1978, Pl.15,4. Gournia: Betancourt and Silverman 1991, PL. 7, 412; Boyd-Hawes et al. 1908, PL.2, 10.

Date: MM IIB

MOX.173 (P 13186; E4 31/3204) Ribbed Carinated cup, Type 2a. About one-quarter extant. Two joining pieces preserve base and convex body profile. Pres h. 0.016m, base d. 0.05m. Wheel-made. Rilling marks on the interior, parallel striations on the underside of the base. Medium-fine ware tan: Light reddish brown (2.5YR 6/4). Small granodioritic inclusions.

Decoration: Dark slip on the interior and the exterior.

Comparanda: Malia: Poursat and Knappett 2005, Pl.27, no.769; Andreou 1979, Pl.19, 15. Monastiraki-Katalimata: Nowicki 2008, Pl. 70, no. KP 498; 2001, Pl. 15, 13. Pseira: Floyd 2009, Pl.4, AF 92. Gournia: Boyd-Hawes, et al. 1908, PL.5, 3.

Date: MM IIB

MOX.188 (P 7083; E4 31/32042, Pl.20m) One-handed conical cup, Type 2a. About three-quarters extant. Five joining pieces preserve conical profile ending to a tapered rim, and vertical strap handle. H. 0.045, rim d. 0.065, base d. 0.023. Wheel-made. Rilling marks on the interior and exterior and parallel striations on the underside of the base. Fine ware orange: Reddish yellow (5YR 7/6).

Decoration: White-on-dark reddish clay. White band on the rim interior and parallel thick bands on the interior, running the whole diameter of the vessel.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL. 30, 976.

Date: MM IIB

SERVING

Flared-Rim Bowls

MOX.189 (P 7104; E4 31/3204.2, Pl.21a) Flared-rim bowl, Type 2b. About one-half extant. Four joining pieces preserving base conical body profile with flaring rim. H. 0.04, rim d. 0.031, base d. 0.020. Wheel-thrown. Rilling marks on the interior. Coarse ware: Pink (5YR 8/4). South Coast import.

Decoration: Dark-on-white buff clay. Dark band on the rim and the base interior.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIB

MOX.190 (P 13191; E4 31/3204.1, Pl.20b) Flared-rim bowl, Type 2b. About one-quarter extant. One piece preserving base and body profile. The base is flat, and the body has a conical to flaring profile. Pres h. 0.016, base d. 0.04. Wheel-made. Rilling striations on the interior, parallel striations on the underside of the base. Semi-fine ware orange: Light red (2.5YR 6/8).

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIB

MOX.191 (P 7013; E4 31/3224.1, Pl.20c) Tripod Flared-rim bowl, Type 3. About one-half extant. Three joining pieces preserving profile. Flat base, conical body profile with flaring rounded rim with ovoid legs. Forty pinches on the base interior. Pres. h. 0.09, rim d. 0.21, base d. 0.10, max. leg th. 0.046. Wheel-coil. Rilling marks on the interior, coil joins on the exterior. Coarse ware: Light red (2.5YR 6/8). Purple phyllite.

Decoration: Red slip on the interior.

Comparanda: Monastiraki-Katalimata: Nowicki 2001, Pl. 10, 26. Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 118.

Date: MM IIB

COOKING

Trays

MOX.192 (P 13177; E4 31/3224.1) Tripod cooking tray, undiagnostic type. About one-quarter extant. One piece preserving profile with ovoid leg and trace of a horizontal rounded handle. The base is flat, the body section is conical, and the rim inverted. Traces of burning on the handle and the leg. H. 0.034, rim d. 0.35. Hand-made. Coarse ware: red (10R 4/6). Purple phyllite.

Date: MM IIB

Jars

MOX.193 (P 9727; E4 5471.4, Pl.22a) Pithoid jar, Type 4a. Less than one-quarter extant. One piece; thick everted rounded rim. Pres h. 0.081, rim d. 0.33. Coarse ware: Light red (10R 6/6). Granodiorite and gold mica.

Decoration: Red slip on the rim, thick band on the interior on pinkish buff clay. Dark linked discs

Comparanda: Malia: Poursat and Knappett 2005, PL.45, 196

Date: MM IIB

POURING

Jugs

MOX.194 (P 9750; E3 5471.3, Pl.22b) Trefoil-mouthed juglet, Type 7b. About three-quarters extant. Twelve joining pieces preserving trefoil-mouth, hemispherical body profile with vertical rounded handle. H. 0.97, spout d. 0.05, base d. 0.041, max d. 0.088. Wheel-coil. Rilling striations on the interior, coil joins on the low, middle, and high exterior wall. Coarse ware: Reddish-brown (2.5YR 5/3). Purple phyllite.

Comparanda: Malia: Poursat and Knappett 2005, PL.22, 514.

Date: MM IIB

MOX.195 (P 9752; E3 5471.3, Pl.22c) Jug with cutaway spout, Type 1b. Intact. One piece preserving flat base, spherical body profile, short neck, and cut-away spout and vertical ovoid handle. H. 0.085, base d. 0.045, max. d. 0.079, spout d. 0.025. Wheel-coil. Coil-joints finished with the wheel. Coarse ware: Red (2.5YR 6/6). Purple phyllite and silver mica.

Decoration: Red burnished interior.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.21 458.

Date: MM IIB

DRINKING

Conical Tumblers

MOX.196 (P 9730; E3 5471.3, Pl.22d) Conical tumbler, Type 1b. About three-quarters extant. Seven joining pieces preserve a slightly conical profile with a tapered rim. H. 0.07, rim d. 0.085, base d. 0.035. Wheel-thrown. Rilling marks on the interior, parallel striations on the underside of the base. Semi-fine ware orange: Reddish yellow (5YR 7/6). Purple phyllite and silver mica.

Comparanda: Malia, Quartier Θ: VanEffenterre 1976: PL. XII, A. Quartier Mu: Poursat and Knappett 2005, PL. 30. Monastiraki-Katalimata: Nowicki 2008, Pl.68, KP 478; 2001, Pl. 5, 15. Jars

MOX.199 (P 9252; E3 5521.3) Jar, Type 4b. Less than one-quarter extant. One piece preserving base and conical body profile. Pres h. 0.088, base d. 0.084. Wheel-coil. Rilling marks on base interior, coil joins on the exterior, and two fingerprints on low wall exterior. Coarse ware: Red (10YR 5/6) Purple phyllite and white metamorphic rocks.

Comparanda: (Possible) Malia: Poursat and Knappett 2005, PL.11, 194.

Date: MM IIB

MOX.200 (P 9060; E3 5521.2, Pl.23a) Miscellaneous jar. Less than one-quarter extant. Two joining pieces preserve globular body profile. Pres h. 0.165. Coarse ware: Reddish yellow (5YR 6/6). Granodiorite.

Decoration: Dark parallel bands bordering a panel of dark discs.

Date: MM IIB

Lids

MOX.201 (P 9262; E3 5521.6, Pl.23b) Lid, Type 1b. About one-half extant. Six joining pieces preserve rounded flat lid and semi-globular walls rising to an inverted (shape of an inverted tray). Pres h. 0.026, rim d. 0.13, base d. 0.09. Wheel-thrown. Rilling striations on the interior. Semi-fine ware: Red (2.5YR 4/8). Phyllite with white metamorphic rocks.

Decoration: Red slip on the interior and the exterior.

Comparanda: Mochlos: Barnard and Brogan 2003, Pl. 43, IB.480. Malia: Poursat and Knappett 2005, Pl. 31, PL.34, 54. Gournia: Boyd-Hawes et al. 1908, PL.5, 19; Betancourt and Silverman, 1991, Pl.7, 393, 394.

Date: MM II–LM

POURING

Pitchers

MOX.202 (P 9519; E3 5521.4, Pl.23c) Pitcher with potter's mark, Type 1. Almost complete. Fifty joining pieces preserving profile with vertical rounded handle. The base is flat the body section is conical, the rim inverted and the spout is a pulled-out rim. H. 0.165, rim d. 0.11, base d. 0.072. Wheel-coil. Rilling striations on the base interior, multiple coil-joints from lower to the upper wall. Coarse ware: Light red (2.5YR 6/6). Purple phyllite.

Potter's mark: Two symmetric short diagonal incisions in one of the sides

Comparanda: Malia, Quartier Θ: VanEffentere 1976, PL. XII, G. Quartier Mu: Poursat and Knappett 2005, PL. 15, 272–316; Poursat 1997, PL. 24, a.

Gournia: Boyd-Hawes, et al. 1908, PL.5, 3.

Date: MM IIB

Straight-Sided Cups

MOX.208 (P 13203; E3 5521.3, Pl.24a) Straight-sided cup, Type 3. About one-quarter extant. The base is flat and the body section straight. Pres h. 0.02, base d. 0.07. Wheel-thrown. Rilling striations on the interior and exterior. Fine ware orange: Light red (2.5YR 6/6).

Decoration: Red slip on the interior, dark exterior. Two white thick parallel bands, one above the base and one in low wall exterior.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.2, 13-14. Knossos, Deposit D: MacDonald and Knappett 2007, Pl. 3.35, 565. Malia, Sector Pi: Knappett and Pomadère et al. Pl.24.

Date: MM IB–MM IIB

MOX.209 (P 9263; E3 5521.6, Pl.24b–c) One-handled straight-sided cup, Type 2. Almost complete. Six joining pieces preserving profile with a trace of vertical rounded. The base is flat and the body section straight, slightly conical ending to an everted rim. H. 0.041, rim d. 0.075, base d. 0.045. Wheel-thrown. Rilling marks on the interior, parallel striations on the underside of the base. Fine ware orange: Red (2.5YR 5/8).

Decoration: Dark slip on the interior and exterior, three dark vertical bands, having two semicircles in the left top and bottom right sides.

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl. 81, KP 598. Petras: Tsipopoulou and Hallager, 2010, 50, P6. Palaikastro: Knappett and Cunningham 2012, Pl.4.13, 120.

Date: MM IIB

Semi-Globular Cups

MOX.210 (P 9072; E3 5521.2, Pl.24d) Semi-globular cup, Type 1a. Less than one-quarter extant. Two joining pieces preserve body profile. Pres h. 0.042. Wheel-thrown. Rilling striations on the interior. Fine ware orange: Reddish yellow (7.5YR 7/6).

Decoration: Polychrome. Dark slip interior and exterior, orange band followed by white chevrons.

Comparanda: Petras: Haggis 2007, Pl. 10, h. Palaikastro: Knappett and Collar 2007; h, j, k; Andreou 1979, Pl.17, 6. Pseira: Betancourt 1999, Pl. 7, BE 2.

Date: MM IIB

Tripod Cups

MOX.211 (P 13200; E3 5521.4, Pl.24e) Tripod cup, Type 1. Less than one-quarter extant. One piece preserving leg profile. The leg is globular. H. 0.09, leg th. 0.02m >0.009. Semi-fine ware orange: Light red (2.5YR 6/6).

Decoration: Three white hatches on reddish clay.

Date: MM IIB

SERVING

Flared-Rim Bowls

MOX.212 (P 9578; E3 5521.6) Flared-rim bowl, Type 2a/b. About one-quarter extant. Seven joining pieces preserve flaring profile ending in a rounded rim. Pres h. 0.04, rim d. 0.19. Wheel-thrown. Rilling striations on the interior. Medium-fine ware orange: Light red (2.5YR 6/6).

Decoration: Red slip on the interior and the exterior.

Date: MM IIB

Tripod Saucers

MOX.213 (P 9210; E3 5521.4, Pl.24f): Tripod saucer, Type 2. Almost complete. Fourteen joining pieces preserving profile with conical low wall flaring upper, ending to flaring rounded rim, and rounded handle starting from the rim ending to high wall exterior. H. 0.025, rim d. 0.12, base d. 0.04. Wheel-thrown. Rilling striations on the interior and the exterior, parallel striations on the underside of the base. Medium-fine ware orange: Red (2.5YR 5/6) purple phyllite and silver mica

Decoration: Red slip on the interior and the exterior.

Comparanda: Malia, Quartier Mu: Knappett and Poursat 2005, PL.53, 1168. Trapeza: Pendlebury and Money-Coutts 1939, pl, 9,313; Gournia: Boyd et al. 1908, PL.2, 25.

Date: MM IIB

MOX.214 (P 9264; E3 5521.4, Pl.24g) Tripod saucer, Type 2. More than one-half extant. Five joining pieces, plus three joining pieces, plus eight non-joining pieces preserving flaring profile with vertical rounded handle. Two globular legs that turn on their lower edge have been collected with the vessel, Pres h. 0.029, rim d. 0.16, leg h. 0.104. Wheel-thrown. Rilling marks on the interior. Medium-fine ware: Red (2.5YR 5/6). Purple phyllite

Decoration: Red slip on the interior and the exterior.

Comparanda: Malia, Quartier Mu: Knappett and Poursat 2005, PL.53, 1168; Trapeza: Pendlebury and Money-Coutts 1939, pl, 9,313. Gournia: Boyd et al. 1908, PL.2, 25.

Date: MM IIB

COOKING

Dishes

MOX.215 (P 13197; E3 5521.9, Pl.24h) Cooking dish, Type 2. Less than one-quarter extant. Two joining pieces preserve rim and conical body profile. Rim is slightly inverted. Ridge between the rim and the body. Pres h. 0.14, rim d. ~0.37. Coarse ware: Red (10R 5/6). Purple phyllite.

Date: MM IIB

Trays

MOX.216 (P 9640; E3 5521.9 Pl.24i) Tray, Type 1a. Less than one-quarter extant. One piece preserving convex to conical profile with a rounded rim. Smooth interior, rough exterior. H. 0.03, rim d. 0.035. Coil-made, possible coil-join between rim and body. Coarse ware: Weak red (10R 4/4). Purple phyllite.

Date: MM–LM

Decoration: Dark-on-yellowish buff clay below the rim, possibly part of a disk. Dark band on rim.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.11, 185, 188.

Date: MM IB–MM IIB

MOX.238 (P 12365; D2 1802.5, Pl.27c) Hole-mouthed jar, Type 5c. About one-quarter extant. Ten joining Pieces preserving inverted rim and globular shoulder profile. Relief button decoration below

rim exterior. Wheel-coil. Coil-joints finished with RKE. Pres. h. 0.08, rim d. 0.17. Coarse ware: Gray (5YR 5/1). Granodiorite.

Comparanda: Similar to Walberg 1983, PL.11, 47 (without handles)

Date: MM IIB

MOX.239 (P 12382; D2 1802.5, Pl.27d) Jar with potter's mark. Less than one-quarter extant. One piece preserving vertical handle profile with potter's mark. Coarse ware: Light reddish brown (2.5YR 7/4). Purple phyllite and silver mica.

Potter's mark: Two almost symmetric diagonal parallel incisions on one side of the handle

Date: MM IIB

Lids

MOX.240 (P 12823; D2 1802.5, Pl.27e) Lid, Type 1a. About one-quarter extant. Three joining pieces preserving lid profile with horizontal rounded handle. The top is flat and has short walls rising to a rounded rim. H. 0.01. Coil-made. Coarse ware: Light red (2.5YR 7/6). Granodiorite.

Decoration: Dark semi-circular bands on white buff clay on top of the rim and dark slip on handle exterior.

Comparanda: Mochlos: Barnard and Brogan 2003, Pl.46, 474. Malia: Poursat and Knappett 2005, Pl. 31, PL.34, 54. Gournia: Boyd-Hawes et al. 1908, PL.2, 43.

Date: MM IIB

POURING

Jugs

MOX.241 (P 10813; D2 1802.5, Pl.27f) Open jug, Type 4. More than one-half extant. Seven joining pieces preserving profile with vertical rounded handle. The base is flat, the body section is globular, the rim inverted ending to a pulled-out rim. H. 0.108, rim d. 0.14, base d. 0.96. Wheel-coil. Rilling marks on base interior, coil joins on the exterior. Coarse ware: Reddish-brown (5YR 5/3). Granodiorite.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.47, 352.

Date: MM IIB

DRINKING

Carinated Cups

MOX.242 (P 12843; D2 1802.5, Pl.28a) Carinated cup, Type 2a. Less than one-quarter extant. Three joining pieces preserving rim and body profile with vertical strap handle and deep regular grooves. Pres h. 0.036, rim d. 0.11. Wheel-thrown. Shallow rilling marks on the interior. Fine ware: Pink (5YR 8/4)

Decoration: Reddish-brown slip on the interior and the exterior.

Comparanda: Malia: Poursat and Knappett 2005, Pl.27, no.769; Andreou 1979, Pl.19, 15. Monastiraki-Katalimata: Nowicki 2008, Pl. 70, no. KP 498; 2001, Pl. 15, 13. Pseira: Floyd 2009, Pl.4, AF 92. Vasiliki: Andreou 1978, Pl.15,4. Gournia: Betancourt and Silverman 1991, PL. 7, 412; Boyd-Hawes et al. 1908, PL.2, 10.

Date: MM IIB

SERVING

Deep Bowls

MOX.243 (P 12366; D2 1802.5, Pl.28b) Deep cooking(?) bowl, Type 7. More than one-half extant. Sixteen joining pieces preserving profile with the horizontal handle below the rim on high wall exterior. The base is flat the rim semi-globular ending to an inverted rim. H. 0.11, rim d. 0.22, base d. 0.14. Coil-made. Coarse ware: Brown (10YR 5/3). Purple phyllite.

Decoration: Highly burnished on interior and exterior

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL. 46, 253.

Date: MM IIB

Flared-Rim Bowls

MOX.244 (P 10809; D2 1802.5, Pl.28c) Flared-rim bowl, Type 2a/b. More than one-quarter extant. Five joining pieces, plus three non-joining preserving conical profile rising to a flaring rounded rim. Intense burning on the interior. H. 0.86, rim d. 0.25, base d. 0.13. Wheel-coil. Rilling striations on the base interior, coil joins on middle and high wall exterior. Coarse ware: Reddish-brown (5YR 5/4). Purple phyllite and silver mica.

Date: MM IB–MM IIB

MOX.245 (P 12850; D2 1802.5, Pl.28d) Flared-rim bowl with potter's mark, Type 2a/b. Less than one-quarter extant. One piece preserving flaring rim and conical body profile. Partially burnt on rim interior. Pres h. 0.064, rim d. 0.23. Coarse ware: Reddish yellow (5YR 6/6). Purple phyllite and silver mica.

Potter's mark: Deep single horizontal interior on high wall interior below the rim.

Date: MM IIA–B

COOKING

Dishes

MOX.246 (P 12864; D2 1802.5, Pl.28e) Cooking dish, Type 2. Less than one-quarter extant. One piece preserving inverted rim almost flaring and body profile. Pres h. 0.038, rim d. 0.034. Hand-made. Coarse ware: Red (2.5YR 5/6). Purple phyllite.

Comparanda: Petras (Alberti 2016, Pl.22, CW 182), Kastro (Mook 1999, PL. CX, 10)

Date: MM IIB

Trays

MOX.247 (P 12870; D2 1802.5) Tray, Type 1a. Less than one-quarter extant. One piece preserving profile. The base is flat, and the body section is straight to conical ending to a rounded inverted rim. Pres h. 0.046, rim d. 0.35. Coil-made: Reddish yellow (7.5YR 7/6) Granodiorite.

Decoration: Red slip on the exterior.

Comparanda: Petras (Alberti 2016, Pl.19, CW 122, CW 123), Palaikastro Block M (Knappett and Cunningham, Pl.4.4, 65), Haggis 2012, Pl.26, B371

Date: MM–LM

UTILITARIAN

Basins

MOX.248 (P 12367; D2 1802.5, Pl.28f) Scored basin, Type 1a. More than one-quarter extant. Three joining pieces preserve base and conical body profile. Pres. h. 0.13, base d. 0.34. Coarse ware: Brown (7.5YR 4/3). Granodiorite.

Decoration: Vertical, diagonal, and horizontal incisions create a relief checkerboard pattern on the base and wall interior.

Comparanda: Pseira: Betancourt et al. 2009, Pl. 1, AF 5, Monastiraki-Katalimata (Nowicki, Pl.74, KP 46)

Date: MMIIA–MM IIB

MOX.249 (P 12863; D2 1802.5, Pl.28g) Basin, Type 1b. Less than one-quarter extant. Four joining pieces preserve rim and body profile. The rim is flat and the body profile is globular. Pres h. 0.072, rim d. 0.43. Coil-made. Coil-join on high wall exterior. Coarse ware: Red (2.5YR 5/6). Purple phyllite and silver mica.

Comparanda: Malia, Quartier Mu (Poursat and Knappett 2005, PL. 46, 251)

Date: MM IIB

Scuttles

MOX.250 (P 12829; D2 1802.5, Pl.28h) Scuttle with potter's mark, Type 1. Less than one-quarter extant. One piece preserves a rounded handle profile and part of the pulled-in rim. Handle l. 0.054. Hand-made. Coarse ware: Greenish gray (GLEY 6/1). Granodiorite.

Potter's mark: Two horizontal parallel incisions.

Comparanda: Mochlos (Barnard and Brogan 2003, Pl. 53, IB.610)

Date: MM IIA–LMI

IX. House 1, Room 1, MM IB Fill Above Bedrock (Layer 3, D2 1802.6)

POURING

Jugs

MOX.251 (P 12839; D2 1802.6, Pl.29a) Jug, Type 1c. About one-quarter extant. One piece preserving base and straight body profile. Wheel-coil. Rilling striations on the base interior. Pres h. 0.038, base d. 0.04. Fine ware orange: Reddish yellow (5YR 7/6).

Decoration: Red slip on the exterior.

Date: MM IB

MOX.252 (P 12847; D2 1802.6, Pl.29b) Trefoil-mouthed jug, Type 10. Less than one-quarter extant. Three joining pieces plus one non-joining piece preserving semi-globular profile, part of the neck, and vertical rounded handle. Pres h. 0.036. Coil-made. Fine ware: Pink (7.5YR 8/4).

Decoration: Light-on-dark. Dark slip exterior creates the background of vertical light bands.

Date: MM IB

DRINKING

Straight-Sided Cups

MOX.253 (P 12360; D2 1802.6, Pl.29c) Straight-sided cup, Type 3. About one-quarter extant. One piece preserving profile. Rim is inverted, flat, and thicker than the body. Pres h.0.062, rim d. 0.07. Wheel-thrown, rilling striations on the interior. Fine ware: Pink (7.5YR 8/4).

Decoration: Dark-on-white over burnished surface. A dark thick band on the rim interior and exterior. Three dark diagonal bands start from this band attached from three diagonal bands. A dark band above the base defines the panel of these bands on the bottom. Dark slip on the underside of the base.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.2, 13–14. Knossos, Deposit D: MacDonald and Knappett 2007, Pl. 3.35, 565. Malia, Sector Pi: Knappett and Pomadère et al. Pl.24.

Date: MM IB

MOX.254 (P 12841; D2 1802.6, Pl.29d) Straight-sided cup, Type 3. About one-half extant. One piece preserving flat base and straight to conical body profile. H. 0.058, base d. 0.04. Wheel-coil. Rilling striations on the base interior, coil joins on the low and mid-wall exterior. Fine ware orange: Light red (2.5YR 7/6).

Decoration: Burnished interior and exterior. Dark band on high wall exterior and dark band above the base.

Date: MM IB

SERVING

Flared-Rim Bowls

MOX.255 (P 12834; D2 1802.6, Pl.29e) Shallow flared-rim bowl, Type 2b. About one-half extant. Six joining pieces, plus one non-joining sherd preserving conical profile with flaring rim. Partially burned on the interior. H.0.09, rim d. 0.23. Wheel-coil. Rilling marks on base interior, coil join on middle and high wall exterior. Coarse ware: Light red (2.5YR 6/6). Purple phyllite and silver mica.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Amphorae

MOX.256 (P 10753; D2 1803.2, Pl.30a) Oval-mouthed amphora, Type 1. Less than one-quarter extant. Sixteen joining pieces preserving rim ovoid neck and globular shoulder profile. Pres h. 0.07, rim d. 0.13. Coil-made. Coil-join between the neck and shoulder. Coarse ware: Pink (5YR 8/4). Granodiorite.

Decoration: Dark-on-white parallel bands on the neck and a possible disk on the shoulder.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.3, 29. Gournia: Boyd-Hawes et al. 1908, PL.5, 12.

Date: MM IIB

MOX.257 (P 13071; D2 1812.3, Pl.30b) Oval-mouthed amphora, Type 1. Less than one-quarter extant. Two joining pieces preserve neck, oval rim, shoulder, and vertical rounded handle profile. Pres h. 0.05, rim d. 0.11. Coil-made. Coil-join between the neck and the shoulder. Coarse ware: Light red (2.5YR 7/6). Granodiorite.

Decoration: Dark-on-white buff clay. Dark band on rim interior and exterior. Thick dark band to the base of the neck, from which vertical parallel bands expand to the shoulder. Horizontal parallel bands on handle exterior.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.3, 29. Gournia: Boyd-Hawes et al. 1908, PL.5, 12.

Date: MM IIB

Jars

MOX.258 (P 12894; D2 1803.2, Pl.30c) Jar, Type 2: About one-quarter extant. One piece preserving base and conical body profile. Pres h. 0.072, base d. 0.13. Coil-made. Possible coil-join between the base and low exterior wall. Coarse ware: Light red (2.5YR 6/6). Purple phyllite.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 112; Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392.

Date: MM IIB

MOX.259. (P 12913; D2 1803.2, Pl.30d) Jar, Type 2. Less than one-quarter extant. Three joining pieces preserve base and possibly conical body profile. The base is thicker than the body. Pres h. 0.072m, base d. 0.31m. Coil made. Coil join between the base and low wall exterior. Coarse ware: Red (10YR 5/6). Purple phyllite and silver mica.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 112; Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392.

Date: MM IIB

MOX.260 (P 12907; D2 1803.2, Pl.30e) Pithoid jar, Type 4c. Less than one-quarter extant. One piece preserves rim and shoulder profile. Pres h. 0.048m, rim d. 0.25m. Coil-made. Coarse ware: Light red (2.5YR 6/8). Granodiorite.

Comparanda: Closest Parallel, Walberg 1983, PL.10, 39

Date: MM IB–MM IIB

MOX.261 (P 13000; D2 1812.3, Pl.30f) Hole-mouthed jar, Type 5a. About one-quarter extant. Nine joining pieces preserving rim and shoulder profile with horizontal handle. The rim is slightly flat and rounded. Pres h. 0.088, rim d. 0.18. Coil-made. Coil join between the rim and the shoulder. Coarse ware: Very pale brown (10YR 8/3). Granodiorite.

Decoration: Light-on-dark. Five yellowish parallel bands on dark background. Yellowish bands begin from the last horizontal band and cover the entire shoulder of the vessel. Light parallel hatches on the handle. Thick dark band on rim interior.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.11, 185, 188

Date: MM IB–MM IB

MOX.262 (P 13015; D2 1812.2; Pl.30g) Cooking jar. Nineteen joining pieces preserve rim and globular body profile. A small ridge distinguishes the rim from the high wall exterior. Pres. h. 0.14, rim d. 0.25. Coarse ware: Light red (2.5YR 6/6). Purple phyllite.

Date: MM

POURING

Jugs

MOX.263 (P 13024a; D2 1812.3) Jug, Type 3b. Less than one-quarter extant. The base is flat and the body is conical on section. Pres h. 0.026, base d. 0.07. Wheel-coil. Rilling striations on the base interior. Fine ware orange: Light reddish brown (2.5YR 6/3).

Decoration: Polychrome: Dark slip on the exterior, red band on the body above the base.

Date: MM IB

MOX.264 (P 12879; D2 1803.2) Jug, Type 11. One piece preserving piriform base and semi-conical body profile. The base extends in a larger diameter than the body. Pres h. 0.064, base d. 0.08. Wheel-coil. Rilling marks on the base interior. Coarse ware: Yellowish red (5YR 5/6). Purple phyllite and silver mica.

Comparanda: Haggis 2012, Pl. 21 B 306, B307, B308; Betancourt and Silverman 1991, Pl.6, 386,390. For the shape also Palaikastro: Knappett and Cunningham 2012, Fig, 4.1, 5,7.

Date: MM IB

MOX.265 (P 13003; D2 1812.3, Pl.30h) Jug, Type 11. Less than one-quarter extant. One piece preserving offset, piriform base, and semi-globular body profile. Pres h. 0.024, base d. 0.07. Coil-made. Coarse ware: Pink (7.5YR 8/4). Granodiorite.

Decoration: Dark-on-white. Thick band above the base, dark diagonal parallel bands, perhaps plumes.

Comparanda: Haggis 2012, Pl. 21 B 306, B307, B308; Betancourt and Silverman 1991, Pl.6, 386,390. For the shape also Palaikastro: Knappett and Cunningham 2012, Fig, 4.1, 5,7.

Conical/Squat Conical Tumblers

MOX.275 (P 12989; D2 1812.2, Pl.31g) Conical/squat conical tumbler, Type 1. One piece plus one non-joining piece preserving flat base and straight to conical body profile. H. 0.05, rim d. 0.10, base d. 0.05. Wheel-thrown. Rilling marks on the interior. Fine ware orange: Light reddish brown (2.5YR 7/4).

Decoration: Mottled dark interior, dark band on the rim, and high wall exterior.

Comparanda: Haggis 2012, Pl. 11, 131–134; Andreou 1978, Pl.11,1,2. Palaikastro: Knappett and Collar 2007, 1,2,3.

Date: MM IA–MM IB

MOX.276 (P 13034; D2 1812.2, Pl.31h) Conical cup/or squat conical tumbler, Type 1. Less than one-quarter extant. Two joining pieces, plus two joining pieces preserving flat inverted rim and conical body profile. Pres h. 0.034, rim d. 0.11. Wheel-thrown. Rilling striations on the interior. Fine ware orange: Light red (2.5YR 7/6).

Decoration: Dark band on pinkish buff clay, covers the rim and the high wall interior and exterior.
Comparanda: Haggis 2012, Pl. 11, 131–134; Andreou 1978, Pl.11,1,2. Palaikastro: Knappett and Collar 2007, 1,2,3.
Date: MM IB

MOX.277 (P 10789; D2 1812.2, Pl.31i) Conical cup/ or squat conical tumbler, Type 1. About one-half extant. Four joining pieces plus four non-joining pieces preserving profile. The rim is flat and inverted. H. 0.05, rim d. 0.10, base d. 0.04. Wheel-coil. Rilling striations on the interior, coil join on middle wall exterior. Medium-fine ware orange: Light red (2.5YR 6/6). Granodioritic inclusions.
Decoration: Dark band on the rim interior and exterior. Mottled dark slip on the interior.
Comparanda: Haggis 2012, Pl. 11, 131–134; Andreou 1978, Pl.11,1,2. Palaikastro: Knappett and Collar 2007, 1,2,3.
Date: MM IB

MOX.278 (P 13036; D2 1812.1, Pl.31j) Conical cup/squat conical tumbler, Type 1. One piece preserving rim and body profile. The rim is thick, flat, inverted and the body section is slightly conical. Pres h. 0.052m, rim d. 0.10m. Hand-made. Fine ware tan: Very pale brown (10YR 8/3).
Decoration: Dark band on yellowish buff clay rim interior and exterior, dark band above base on the low exterior wall.
Comparanda: Haggis 2012, Pl. 11, 131–134; Andreou 1978, Pl.11,1,2. Palaikastro: Knappett and Collar 2007, 1,2,3.
Date: MM IB

Straight-Sided Cups

MOX.279 (P 12883; D2 1803.2) Straight-sided cup, Type 3. Less than one-quarter extant. One piece preserving base and straight, slightly conical body profile. Pres h. 0.012, base d. 0.05. Wheel-thrown. Rilling marks on the interior, parallel striations on the underside of the base. Fine ware orange: Reddish Yellow (7.5YR 8/6).
Decoration: Dark slip on the interior and the exterior and part of the underside of the base.
Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.2, 13–14. Knossos, Deposit D: MacDonald and Knappett 2007, Pl. 3.35, 565. Malia, Sector Pi: Knappett and Pomadère et al. Pl.24.
Date: MM IB-IIB

MOX.280 (P 12903; D2 1803.2, Pl.32a) Straight-sided cup, Type 3. More than one-quarter extant. One piece preserving profile with a flat base and straight to conical section. H. 0.044, base d. 0.04. Wheel-made. Rilling marks on the interior and the exterior. Medium-fine ware orange: Light red (5YR 6/8).
Decoration: Dark slip on the interior
Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.2, 13–14. Knossos, Deposit D: MacDonald and Knappett 2007, Pl. 3.35, 565. Malia, Sector Pi: Knappett and Pomadère et al. Pl.24.
Date: MM IB- MM IIB

MOX.281 (P 12900; D2 1803.2, Pl.32b) Ribbed straight-sided cup, Type 4a. About one-quarter extant. One piece preserving base and body profile. Thick regular grooves on the exterior. Pres h. 0.03, base d. 0.05. Wheel-made. Rilling marks on the interior. Fine ware: Pink (7.5YR 8/4).
Decoration: Dark slip on the interior and the exterior.

Comparanda: Haggis 2012, Pl. 27, 376.

Date: MM IIA–MM IIB

MOX.282 (P 13023; D2 1812.3) Miscellaneous straight-sided cup with polychrome. Less than one-quarter extant. One piece preserving rim and body profile. Pres h. 0.044. Wheel-thrown. Rilling striations on the interior. Fine ware orange: Light red (2.5YR 7/6).

Decoration: Polychrome. Orange and white parallel bands on the exterior.

Date: MM IB

MOX.283 (P 13010; D2 1812.1, Pl.32c) Miscellaneous straight-sided cup with polychrome. Less than one-quarter extant. One piece preserving rim and body profile. Pres h. 0.028. Wheel-made. Rilling striations on the interior. Fine ware orange: Reddish yellow (5YR 7/6).

Decoration: Polychrome. Dark slip on the interior and exterior, white and red horizontal parallel bands on the exterior.

Date: MM IB

MOX.284 (P 13073; D2 1812.1) Miscellaneous straight-sided cup. Less than one-quarter extant. One piece preserving rim and body profile. Rim is slightly everted and the body section conical. Pres h. 0.044, rim d. 0.11. Wheel-made. Fine ware orange: Light red (2.5YR 6/8).

Decoration: Red band on the interior. Red slip on the exterior.

Date: MM IB–IIB

Semi-Globular Cups

MOX.285 (P 12899; D2 1803.2) Semi-globular cup, Type 1a. About one-quarter extant. One piece preserving base ad convex to globular body profile. Pres h. 0.024, base d. 0.06. Wheel-thrown. Rilling marks on the interior. Fine ware: Pink (7.5YR 7/4).

Decoration: Red slip on the exterior, spatter ware on the interior. Red slip on the underside of the base.

Comparanda: Petras: Haggis 2007, Pl. 10, h. Palaikastro: Knappett and Collar 2007; h, j, k; Andreou 1979, Pl.17, 6. Pseira: Betancourt 1999, Pl. 7, BE 2.

Date: MM IB

MOX.286 (P 10774; D2 1812.1, Pl.32d–e) Semi-globular cup, Type 1a. About one-quarter extant. Two joining pieces preserve rim and body profile. The rim is inverted, and the body is slightly globular. Pres h. 0.05, rim d. 0.09. Wheel-thrown. Rilling striations on the interior. Fine ware orange: Light red (2.5YR 6/8). Imported, Palaikastro.

Decoration: Polychrome. Dark metallic slip on the interior. Dark slip on the exterior creates the background for three diagonal white bands attached to three horizontal bands. A thick red band follows the three diagonals, which are followed by a white chevron. A thick horizontal band follows and is parallel with two thin white horizontal bands. This decoration belongs to the rectilinear category of

Comparanda: Petras: Haggis 2007, Pl. 10, h. Palaikastro: Knappett and Collar 2007; h, j, k; Andreou 1979, Pl.17, 6. Pseira: Betancourt 1999, Pl. 7, BE 2. For decoration: Walberg, 1983 PL.53, 31(i)36, 31(i)37, 31(i)38

Date: MM IB

MOX.287 (P 12890; D2 1803.2) Semi-globular cup, Type 2a. Less than one-quarter extant. One piece preserving everted rim and semi-globular body profile. Pres h. 0.032, rim d. 0.17. Fine ware: Pink (7.5YR 8/4).

Date: MM IIB

MOX.288 (P 13021; D2 1812.2, Pl.32f–g) Semi-globular cup/angular cup, Type 1c. About three-quarters extant. Seventeen joining pieces, plus two joining pieces, plus three joining pieces, plus eleven non-joining pieces preserving profile. The base is flat, the body is semi-globular rising to a straight slightly inverted rim and strap handle. H. 0.052, rim d. 0.11, base d. 0.68. Wheel-thrown. Rilling striations on base and interior wall. Fine ware: Pink (7.5YR 8/4).

Decoration: Red band on rim interior and exterior.

Comparanda: Petras: Haggis 2007, Pl.10g.

Date: MM IB–IIA

Cups with Offset Base

MOX.289 (P 13052; D2 1812.2, Pl.32h) Cup with offset base, Type 1. Less than one-quarter extant. One piece preserving base and body profile. The base is offset, and the body is conical. Pres h. 0.16, base d. 0.04. Wheel-thrown. Rilling striations on wall and base interior, parallel striations on the underside of the base. Semi-fine ware: Pink (7.5YR 8/4). Granodioritic inclusions.

Decoration: Dark slip on the interior and the exterior.

Comparanda: Pseira: Floyd 1998, Pl.2, BS/BV 11.

Date: MM IB

MOX.290 (P 13912; D2 1812.3) Cup with offset base, Type 1. Less than one-quarter extant. One piece preserving base and body profile. The base is offset, and the body profile is conical. Pres h. 0.014, base d. 0.07. Wheel-thrown. Rilling marks on base and body interior. Medium-fine ware: Light red (2.5YR 6/8). Granodioritic inclusions.

Decoration: Dark slip on the interior and the exterior.

Comparanda: Pseira: Floyd 1998, Pl.2, BS/BV 11.

Date: MM IB

MOX.291 (P 13051; D2 1812.3, Pl.32i) Cup with offset base, Type 1. About one-quarter extant. One piece preserving offset base and conical body profile. Pres h. 0.014, base d. 0.09. Possible coil-made. Fine ware: Pink (5YR 7/3).

Decoration: Dark-on-white exterior. Dark band above the base. Parallel diagonal thin bands are attached to its top.

Comparanda: Pseira: Floyd 1998, Pl.2, BS/BV 11.

Date: MM IB

SERVING

Flared-Rim Bowls

MOX.292 (P 12891; D2 1803.2, Pl.33a) Flared-rim bowl, Type 2a. Less than one-quarter extant. One piece preserving base and conical body profile. The base is offset extending in a larger diameter than the body. Pres h. 0.024, base d. 0.05. Wheel-coil. Rilling striations on the base interior, coil-join on low wall exterior. Fine ware orange: Reddish yellow (7.5YR 8/6).

Decoration: Red slip on interior and exterior

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl.4.4, 71, pp. 119. Malia: Poursat and Knappett 2005, *Soucoupes*, pl. 53, 1105a–1113; Knossos: MacDonald and Knappett 2007, Pl. 3.7, 221–223

Date: MM IIA–MM IIB

MOX.293 (P 13060; D2 1812.1, Pl.33b) Flared-rim bowl, Type 2b. One piece preserving base and body profile. The base is flat and the body section convex. Pres h. 0.02, base d. 0.07. Wheel-made. Rilling marks on the interior. Semi-fine ware orange: Light reddish brown (2.5YR 7/4). Small silver mica inclusions.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIA–MM IIB

MOX.294 (P 12998; D2 1812.1) Flared-rim bowl, Type 2c. Less than one-quarter extant. One piece preserving rim and body profile. The body is conical, and the rim everted almost flaring, Pres h. 0.038, rim d. 0.15. Hand-made. Coarse ware: Reddish yellow (7.5YR 8/6). Granodiorite.

Decoration: Dark band on the rim and high wall interior and exterior.

Comparanda: Similar in section but larger than the saucers at Knossos: MacDonald and Knappett, Pl. 3.15, 266. Mochlos House D–Vasiliki House B, Knossos, Upper East Well and Kouloures Group: Andreou 1978, Pl.1,12; Pl.3,8; Pl.12, 16. Petras: Tsipopoulou 2012, Pl. 4; 2017, Pl. 5, Pl.6; Relaki 2016, Pl.29, 248.

Date: MM IB–MM IIB

MOX.295 (P 13009; D2 1812.2, Pl.33c) Flared-rim bowl, Type 2c. Less than one-quarter extant. One piece preserving rim and body profile. The rim is everted, and the body profile is conical. A ridge distinguishes the body from the rim as part of a coil join. Coil made. Coarse ware: Pink (5YR 8/4). Granodiorite.

Decoration: Brownish dark slip on the interior and a thick dark bluish band on the rim exterior. Ten preserved white diagonal parallel hatches on the rim.

Comparanda: Similar in section but larger than the saucers at Knossos: MacDonald and Knappett, Pl. 3.15, 266. Mochlos House D–Vasiliki House B, Knossos, Upper East Well and Kouloures Group: Andreou 1978, Pl.1,12; Pl.3,8; Pl.12, 16. Petras: Tsipopoulou 2012, Pl. 4; 2017, Pl. 5, Pl.6; Relaki 2016, Pl.29, 248.

Date: MM IB–MM IIA

Ledge-Rimmed Bowls

MOX.296 (P 13019; D2 1812.3, Pl.33d) Ledge-rimmed bowl, Type 8. Less than one-quarter extant. One piece preserving rim and body profile. The rim is ledge, and the body is conical. Pres h. 0.02, rim d. 0.17. Coil-made. Coil-join between the rim and the body. Fine ware orange: Light red (2.5YR 7/6).

Decoration: Dark slip on the exterior, dark band on the rim, and high interior wall.

Comparanda: Palaikastro: Knappett and Collar, 2007, Pl.24, 123.

Date: MM IIB

COOKING

Dishes

MOX.297 (P 13065; D2 1812.2, Pl.33e) Cooking dish, Type 1a. One piece preserving rim and body profile. The rim is inverted, and the body is conical. Smooth interior, rough exterior. Pres h. 0.012, rim d. 0.31. Coil-made. Coil-join between the rim and the body. Coarse ware: Red (2.5YR 5/6). Purple phyllite.

Comparanda: Kommos (Betancourt 1990, Pl.16, 158), Mochlos, (Barnard and Brogan 2003, IB.547)

Date: MM-LM

MOX.298 (P 12902; D2 1803.2, Pl.33f) Cooking dish, Type 1a. Less than one-quarter extant. One piece preserving inverted rim and conical body profile. Rough exterior, smooth interior. Pres h. 0.012, rim d. 0.27. Hand-made. Coarse ware: Light red (2.5YR 6/8). Granodiorite.

Comparanda: Kommos (Betancourt 1990, Pl.16, 158), Mochlos (Barnard and Brogan 2003, Pl.50, IB. 544)

Date:

MOX.299 (P 12987; D2 1812.1, Pl.33g) Cooking dish, Type 2a. One piece preserving flaring rim and conical body profile. Rough exterior, smooth interior. Pres h. 0.08. Coil-made. Coil join between the rim and the body. Coarse ware: Light red (2.5YR 6/8). Silver mica.

Comparanda: Haggis and Mook 2005, Pl. 29, KTS 199

Date:

MOX.300 (P 12884; D2 1803.2) Cooking dish, Type 2a. Less than one-quarter extant. One piece preserving everted flaring thick rim and body profile. Rough exterior and smooth interior. Pres. h.0.01, rim d. 0.39. Hand-made. Coarse ware: Light red (2.5YR 6/8). Purple phyllite and silver mica.

Date: MM-LM

MOX.301 (P 13030; D2 1812.3) Cooking dish, Type 2a. Less than one-quarter extant. One piece preserving rim and body profile. The rim is slightly everted, and the body section is conical. Pres h. 0.01, rim d. 0.18. Coil-made. Coil-join between the rim and the body. Coarse ware: Light brown (7.5YR 6/4). Silver mica.

Comparanda: Haggis and Mook 2005, Pl.29, 199

Date: MM-LM

MOX.302 (P 12910; D2 1803.2, Pl.33h) Cooking dish, Type 2a. Less than one-quarter extant. One piece preserving rim and body profile. Rim is everted and flaring. Rough exterior, smooth interior. Pres h. 0.012, rim d. ca. 0.043. Coil-made. Coil-join between the rim and the body. Coarse ware: Red (2.5YR 5/8). Silver mica.

Comparanda: Mochlos (Barnard and Brogan 2003, Pl. 49, IB.524)

Date: MM–LM

MOX.303 (P 13049, D2 1812.3, Pl.33i) Cooking dish, Type 2b. Less than one-quarter extant. The rim is slightly everted and creates a ridge that splits it in two. The rim slightly flares, and the body is conical. Smooth interior, rough exterior. Pres h. 0.01, rim d. ca. 0.43. Coil-made. Coil-join between the rim and the body. Coarse ware: Light brown (7.5YR 6/4). Purple phyllite.

Comparanda: Petras (Alberti 2016, Pl.22, CW 181)

Date:MM–LM

Trays

MOX.304 (P 13008; D2 1812.3) Cooking tray, Type 1a. Less than one-quarter extant. One piece preserving profile. Rim is rounded, straight to conical body section and flat base. Two fingerprints on top of the handle. Rough base exterior, smooth interior. H. 0.032, base d. 0.31. Coil-made. Coarse ware: Red (2.5YR 4/6). Purple phyllite.

Comparanda: Petras (Alberti 2016, Pl.19, CW 122, CW 123), Palaikastro Block M (Knappett and Cunningham, Pl.4.4, 65), Haggis 2012, Pl.26, B371, Monastiraki-Katalimata (Nowicki 2008, Pl.68, KP 469)

Date: MM–LM

MOX.305 (P 12876; D2 1803.2, Pl.34a): Cooking tray, Type 1a. Less than one-quarter extant. One piece preserving flat base short wall and rounded rim. Intensive burning on the interior and the rim. H. 0.034, rim d. 0.31, base d. 0.27. Coil-made, Coil join between the rim and the body. Coarse ware: Red (2.5YR 5/6). Purple phyllite and silver mica.

Decoration: Burnished interior

Comparanda: Petras (Alberti 2016, Pl.19, CW 122, CW 123), Palaikastro Block M (Knappett and Cunningham, Pl.4.4, 65), Haggis 2012, Pl.26, B371, Monastiraki-Katalimata (Nowicki 2008, Pl.68, KP 469)

Date: MM–LM

MOX.306 (P 12895; D2 1803.2) Tray, Type 1a. Less than one-quarter extant. One piece preserving base, short wall, and thick rounded rim. Smooth interior, rough exterior surface. H. 0.014, tray d. 0.37. Hand-made. Coarse ware: Red (2.5YR 5/6). Granodioritic and gold mica inclusions.

Decoration. Red slip on brownish buff clay interior.

Comparanda: Petras (Alberti 2016, Pl.19, CW 122, CW 123), Palaikastro Block M (Knappett and Cunningham, Pl.4.4, 65), Haggis 2012, Pl.26, B37, Monastiraki-Katalimata (Nowicki 2008, Pl.68, KP 469)

Date: MM–LM

Pots

MOX.307 (P 13032; D2 1812.1, Pl.34b) Cooking pot, Type 1. Less than one-quarter extant. One piece preserving flat base and ovoid leg profile. Pres h. 0.064, base d. 0.15, leg th. 0.054>0.038. Coil-made. Coarse ware: Reddish yellow (5YR 6/8). Purple phyllite and silver mica.

Comparanda: Kommos (Betancourt 1990, Pl. 19, 247), Monastiraki-Katalimata (Nowicki 2008, Pl.68)

Date: MM IIA–MM IIB

UTILITARIAN

Basins

MOX.308 (P 12911a; D2 1803.2, Pl.34c) Scored basin, Type 1a. Less than one-quarter extant. One piece preserving body profile. Diagonal and horizontal incisions on the interior create an incised checkerboard pattern. Hand-made. Coarse ware: Red (2.5YR 5/8). Purple phyllite.

Comparanda: Pseira: Betancourt et al. 2009, Pl. 1, AF 5, Monastiraki-Katalimata (Nowicki, Pl.74, KP 46)

Date: MMIIA–MM IIB

MOX.309 (P 13016; D2 1812.1) Basin, Type 1b. Less than one-quarter extant. One piece preserving flat rounded rim and conical body profile. Pres h. 0.046, rim d. 0.22. Coil-made. Coarse ware: Reddish yellow (7.5YR 7/6). Granodiorite.

Decoration: Dark on the exterior and dark band on the rim interior.

Comparanda: Malia, Quartier Mu (Poursat and Knappett 2005, PL. 46, 251)

Date: MM IIB

XI. House 1, Room 2, Fill above Bedrock (Layer 3, D2 1812.4–7)

STORAGE

Pithoi

MOX.310 (P 10859; D2 1812.4, Pl.35a) Miscellaneous pithos. Less than one-quarter extant. One piece preserving base and conical body profile. Pres h. 0.123m, base d. 0.39m. Coil-made. Multiple coil joins above base interior and exterior. Coarse ware: Light red (2.5YR 7/6). Granodioritic inclusions.

Date: MM

Amphorae

MOX.311 (P 10856; D2 1812.4, Pl.35b) Oval-mouthed amphora, Type 1a. Less than one-quarter extant. Three joining preserving ovoid neck and rim and shoulder profile with vertical rounded handle. Pres h. 0.052m. Coil-made. Coarse ware: Reddish yellow (5YR 7/6). Granodiorite.

Decoration: Dark band on the bottom of the neck, dark linked discs on the shoulder. Short dark bands on the handle.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.3, 29. Gournia: Boyd-Hawes et al. 1908, PL.5,12.

Date: MM IB–II

Jars

MOX.312 (P 12993; D2 1812.4, Pl.35c) Pithoid jar, Type 4c. Less than one-quarter extant. One piece preserving everted flat rim and part of the neck profile. Pres h. 0.028, rim d. 0.19. Wheel-coil. Coil-join between the rim and the neck. Coarse ware: Light reddish brown (2.5YR 7/4). Granodiorite.

Decoration: Dark slip on the flat part of the rim and the high wall exterior.

Comparanda: Closest Parallel, Walberg 1983, PL.10, 39

Date: MM IB–MMIIB

MOX.313 (P 13088; D2 1812.7) Pithoid jar, Type 4c. Less than one-quarter extant. One piece preserving rim and convex body profile. The rim is white and rounded. Pres h.0.026m, rim d. 0.19m. Coil-made. Coil join between the rim and the body. Coarse ware: Reddish-brown (5YR 5/4). Granodiorite.

Decoration. Dark slip on the rim and in a small part of the interior.

Comparanda: Closest Parallel, Walberg 1983, PL.10, 39

Date: MM IB–IIB?

MOX.314 (P 13037; D2 1812.4, Pl.35d) Hole-mouthed jar, Type 5a. Less than one-quarter extant. Eight joining pieces preserving rim and shoulder profile with horizontal handle. The rim is everted, wide, and rounded. Pres h. 0.062, rim d. 0.19. Coil-made. Possibly coil-join between the rim and the body. Coarse ware: Reddish yellow (5YR 7/6). Granodiorite.

Decoration: Dark slip on the exterior and the rim and high wall interior. Ten yellowish parallel stripes run the shoulder.

Comparanda: Haggis 2012, Pl.14, 183; Pl.22, 317, Malia, Quartier Mu: Poursat and Knappett 2005, PL.11, 185, 188)

Date: MM IB–MM IIB

POURING

Jugs

MOX.315 (P 13068; D2 1812.4, Pl.35e) Jug, Type 3b. Less than one-quarter extant. One piece preserving base and body profile. The base is flat, and the body section is straight to conical. Pres h. 0.02, base d. 0.07. Rilling marks on base interior, possible coil join above low wall exterior. Fine ware: Pink (5YR 8/4).

Decoration: Dark band above base exterior Ten preserved diagonal and vertical dark bands attached to it and run the low and mid-wall exterior

Date: MM IB

MOX.316 (P 10832; D2 1812.4) Bridge-spouted jug, Type 5a/b. Less than one-quarter extant. One piece preserves the bridge spout profile and a small part of the inverted rim. Pres h. 0.04, rim d. 0.13. Coil-made. Coarse ware: Light reddish brown (2.5YR 7/4). Granodiorite.

Decoration: Dark band on rim interior, dark disk surrounds spout, and a dark band on the whole perimeter of the spout.

Date: MM II

MOX.317 (P 13031; D2 1812.4) Type 11. Less than one-quarter extant. Two non-joining pieces preserve base and body profile. The base is offset, and the body is slightly conical. Pres h. 0.03, base d. 0.05. Wheel-coil. Rilling marks on base interior, coil-join above the low exterior wall. Fine ware tan: Pinkish white (7.5YR 8/2).

Decoration: Parallel dark bands above base on the low exterior wall and diagonal vertical parallel bands. Dark slip on the underside of the base.

Comparanda: Haggis 2012, Pl. 21 B 306, B307, B308; Betancourt and Silverman 1991, Pl.6, 386,390. For the shape also Palaikastro: Knappett and Cunningham 2012, Fig, 4.1, 5,7.

Date: MM IB

MOX.318 (P 13055; D2 1812.4, Pl.35f) Jug, Type 11. Less than one-quarter extant. One piece preserving base and body profile. The base is offset, and the body section is conical. Pres h. 0.021, base d. 0.045. Wheel-coil. Rilling marks on base interior, possible coil join on low wall exterior. Coarse ware: Reddish yellow (5YR 7/6). Granodiorite.

Decoration: Light-on-dark. Light band above the base and diagonal band attached to the base. Dark band on the perimeter on the underside of the base.

Comparanda: Haggis 2012, Pl. 21 B 306, B307, B308; Betancourt and Silverman 1991, Pl.6, 386,390. For the shape also Palaikastro: Knappett and Cunningham 2012, Fig, 4.1, 5,7.

Date: MM IB

MOX.319 (P 12991; D2 1812.4, Pl.35g) Jug, Type 11. Less than one-quarter extant. One piece preserving base and body profile. The base is flat and offset and the body section is piriform to conical. Pres h. 0.026, base d. 0.034. Hand-made. Coarse ware: Light reddish brown (2.5YR 7/4). Granodiorite.

Decoration: Light-on-dark. Dark slip on the exterior. Two yellowish parallel bands above the base. Two of different thickness bands above.

Comparanda: Haggis 2012, Pl. 21 B 306, B307, B308; Betancourt and Silverman 1991, Pl.6, 386,390. For the shape also Palaikastro: Knappett and Cunningham 2012, Fig, 4.1, 5,7.

Date: MM IB

MOX.320 (P 13075; D2 1812.5, Pl.35h) Jug, Type 3b. Less than one-quarter extant. Two joining pieces preserve a flat base and conical body profile. Burnished exterior. Pres h. 0.038, base d. 0.05. Wheel-coil. Rilling striations on the base interior, possible coil-join on the exterior. Fine ware tan: Very pale brown (10YR 8/3).

Decoration: Dark-on-white (light). Dark band above the base. Parallel thin bands and pairs of three vertical bands attached to the one at the base, possibly plumes.

Comparanda: Haggis 2012, Pl. 21 B 306, B307, B308; Betancourt and Silverman 1991, Pl.6, 386,390. For the shape also Palaikastro: Knappett and Cunningham 2012, Fig, 4.1, 5,7.

Date: MM IB

DRINKING

Carinated Cups

MOX.321 (P 13050; D2 1812.4, Pl.36a) Carinated cup, Type 4b. Less than one-quarter extant. One piece preserving body profile with middle to low carination. Un-grooved example. Pres h. 0.44. Wheel-thrown. Shallow rilling marks on the interior. Fine ware orange: Reddish Yellow (5YR 7/6).

Decoration: Dark slip on the interior and the exterior.

Date: MM IB

Conical Tumblers

MOX.322 (P 13093; D2 1812.5) Conical tumbler, Type 1b. Less than one-quarter extant. One piece preserving rim and straight to conical body profile. Pres h. 0.016, base d. 0.02. Wheel-thrown. Rilling marks on the interior. Fine ware orange: Reddish yellow (7.5YR 8/6)

Decoration: Dark slip on the interior and the exterior and the periphery on the underside of the base.

Comparanda: Andreou 1979, Pl.14, 3; Malia, Quartier Θ: VanEffenterre 1976: PL. XII, A. Quartier Mu: Poursat and Knappett 2005, PL. 30. Monastiraki-Katalimata: Nowicki 2008, Pl.68, KP 478; 2001, Pl. 5, 15. Petras: Tsipopoulou 2017a, Pl.8, a–g; Tsipopoulou 2010, 50, P4. Trapeza: Pendlebury and Money-Coutts, 1939, Pl.14, 531, 532.

Date: MM IIA–MM IIB

Conical/Squat Conical Tumblers

MOX.323 (P 10860; D2 1812.4, Pl.36b) Conical cup or squat conical tumbler, Type 2. About one-half extant. Two joining pieces preserving profile. The base is flat, and the profile is straight to conical ending to an inverted rim. H. 0.058, rim d. 0.13, base d. 0.06. Wheel-thrown, rilling striations on the interior. Fine ware tan: Very pale brown clay (10YR 8/3).

Decoration: Dark slip-on high wall interior and below the rim and dark slip on the exterior.

Comparanda: Palaikastro: Knappett and Collar 2007, Pl. 6, 26; Andreou, Pl. 11, 10.

Date: MM IB

Straight-Sided Cups

MOX.324 (P 13014; D2 1812.4, Pl.36c) Straight-sided cup, Type 6a. Two joining pieces plus two joining pieces preserve base and body profile. The base is flat, and the low wall is straight, slightly concave. Base d. 0.09. Wheel-coil. Rilling striations on the base interior, coil-joins on the low wall exterior. Coarse ware: Light red (2.5YR 6/6). Granodiorite.

Decoration: Dark slip on the interior, exterior, and underside of the base. Light parallel bands above the base.

Comparanda: Haggis 2012, Pl. B285.

Date: MM IB

Cups with Offset Base

MOX.325 (P 13072; D2 1812.4, Pl.36d) Cup with offset base, Type 1. Less than one-quarter extant. Two joining pieces preserve base and body profile. The base is offset, and the body is conical. Pres h. 0.02, base d. 0.05. Wheel-coil. Rilling striations on the base interior. Coarse ware: Light reddish brown (2.5YR 7/4). Granodiorite.

Decoration: Light-on-dark. Thick yellowish band on the dark bluish band above the base. Two diagonal thinner bands above the base.

Comparanda: Pseira: Floyd 1998, Pl.2, BS/BV 11.

Date: MM IB

MOX.326 (P 12997; D2 1812.4, Pl.36e) Cup with offset base, Type 1. About one-quarter extant. Four joining pieces preserving offset base and conical body profile. Pres h. 0.03, base d. 0.07. Wheel-coil. Rilling striations on the base interior, possible coil joins on the exterior. Semi-fine ware: Pink (5YR 8/3). Few Mirabello inclusions.

Decoration: Dark slip on the interior, dark slip on the underside of the base. Three parallel yellowish horizontal bands above the base.

Comparanda: Pseira: Floyd 1998, Pl.2, BS/BV 11.

Date: MM IB

MOX.327 (P 13096; D2 1812.6, Pl.36f) Cup with offset base, Type 1. Less than one-quarter extant. One piece preserving base and body profile. The base is offset, and the body profile is conical. Pres h. 0.02m, base d. 0.04m. Wheel-coil. Rilling striations on the base interior. Fine ware tan: Very pale brown (10YR 8/3).

Decoration: Dark slip on the interior, exterior, and underside of the base.

Comparanda: Pseira: Floyd 1998, Pl.2, BS/BV 11

Date: MM IB

SERVING

Deep Bowls

MOX.328 (P 13047; D2 1812.4, Pl.36g) Deep bowl, Type 1b. One piece preserving rim and body profile. Pres h. 0.036m, rim d. 0.19m. Coil-made. A ridge between the rim and the body shows a possible coil join. Coarse ware: Pink (7.5YR 7/4). Granodiorite.

Decoration: Light-on-dark. Irregular light stripes on the rim and the high wall exterior.

Comparanda: Knossos: MacDonald and Knappett 2007, Pl. 3.33, 540

Date: MM IB–MM IIB

Flared-Rim Bowls

MOX.329 (P 13006; D2 1812.4, Pl.36h) Flared-rim bowl, Type 2b. Less than one-quarter extant. One piece preserving base and conical or flaring body profile. Pres h. 0.034, base d. 0.06. Wheel-coil. Rilling striations on the interior. Possible coil on low wall exterior. Coarse ware: Pink (2.5YR 8/4). Granodiorite.

Decoration: Reddish-brown slip on interior and exterior. Thick yellow band above the base interior and three thinner bands on the flat part of the base interior.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIA–MM IB

MOX.330 (P 13095; D2 1812.5, Pl.36i) Flared-rim bowl, Type 2c. Less than one-quarter extant. One piece flat rounded rim and conical body profile. Pres h. 0.017, rim d. 0.17. Wheel-made? Semi-fine ware: Pink (7.5YR 8/4). Small granodioritic inclusions.

Decoration: Light-on-dark. Dark slip on the exterior, dark band on top of the rim, with two preserved parallel hatches on the rim.

Comparanda: Andreou 1979, Pl.12, 16; Knossos: MacDonald and Knappett 2007, Pl. 3.15, 266. Mochlos, House D–Vasiliki House B, Knossos, Upper East Well and Kouloures Group: Andreou 1978, Pl.1,12; Pl.3,8; Pl.12, 16. Petras: Tsipopoulou 2012, Pl. 4; 2017, Pl. 5, Pl.6. Petras: Tsipopoulou 2012, Pl. 4; 2017, Pl. 5, Pl.6; Relaki 2016, Pl.29, 248.

Date: MM IB–MM IIA

COOKING

Dishes

MOX.331 (P 13084; D2 1812.6, Pl.37a) Cooking dish, Type 1a. Less than one-quarter extant. One piece preserving everted/flaring rim profile. Rim d. 0.33. Hand-made. Coarse ware: Reddish yellow (5YR 5/6). Purple phyllite.

Date: MM–LM

MOX.332 (P 13007; 1812.4, Pl.37b) Cooking dish, Type 2a. Less than one-quarter extant. One piece preserving rim and body profile. Rim is slightly inverted, and the body profile is conical. Rough exterior, smooth interior. Pres h. 0.01, rim d. 0.031. Coil-made. Coil-join between the rim and the body. Coarse ware: Reddish yellow (5YR 7/6). Purple phyllite.

Date: MM–LM

MOX.333 (P 13026; D2 1812.4, Pl.37c) Cooking dish, Type 2a. Less than one-quarter extant. One piece preserving straight rim and conical body profile. Rough exterior with intensive burning, smooth exterior. Rim d. 0.44. Coil-made. Coarse ware: Red (2.5YR 5/6). Purple phyllite.

Date: MM–LM

Trays

MOX.334 (P 13080; D2 1812.6) Cooking tray, Type 1a. Less than one-quarter extant. One piece preserving profile. The body section is straight ending to a rounded rim. H. 0.02, base d. 0.17. Coil-made. Possible coil-join between the rim and the body. Coarse ware: Red (2.5YR 5/6). Granodioritic inclusions.

Comparanda: Petras (Alberti 2016, Pl.19, CW 122, CW 123), Palaikastro Block M (Knappett and Cunningham, Pl.4.4, 65), Haggis 2012, Pl.26, B371, Monastiraki-Katalimata (Nowicki 2008, Pl.68, KP 469)

Date: MM–LM

Pots

MOX.335 (P 13082 D2 1812.6, Pl.37d) Cooking pot, Type 1. Less than one-quarter extant. One piece preserving leg and base profile. The base is flat and the leg large and ovoid. Coil-built. Coarse ware: Reddish Yellow (5YR 6/6). Granodiorite.

Date: MM IB–II

XII. House 1, Room 3, Fill (Layer 2, D2 1803.4, 1813.1–4)

STORAGE

Pithoi

MOX.336 (P 10935; D2 1813.3, Pl.38a): Pithos, Type 2 More than one-quarter extant. Sixty-four joining pieces, two additional joining pieces, and thirty-nine non-joining pieces preserving the upper body, handles, and neck. Four ovoid handles. Seven visible coil-joins. Pres. h. 0.58, pres. body d. 0.53, pres. neck d. 0.26. Coarse ware: Pale red (10R 7/4). Granodiorite.

Decoration: Worn white-washed exterior, red and dark trickle decoration. Eight preserved relief bands.

Comparanda: The only semi-globular comparanda are dated later (Christakis, 2005, Pl. 14, 51), however, this shape does not have an identified parallel.

Date: MM IIB.

Jars

MOX.337 (P 12920; D2 1803.4, Pl.38b) Hole-mouthed jar, Type 5a). Less than one-quarter extant. One piece preserving rounded shoulder and horizontal rounded handle profile. Pres h. 0.072. Coil-made. Coarse ware: Pink (5YR 8/4). Purple phyllite and white metamorphic rocks.

Comparanda: Haggis 2012, Pl.14, 183; Pl.22, 317. Gournia: Boyd-Hawes et al. 1908, 35, Malia, Quartier Mu (Poursat and Knappett 2005, PL.11, 185, 188)

Date: MM IB–MM IIB

Lids

MOX.338 (P 12925; D2 1803.4) Lid, Type 1a. About one-quarter extant. One piece preserving rectangular profile with rounded handle. Rim d. 0.21. Coil-made. Coarse ware: Reddish yellow (5YR 7/6). Granodiorite.

Decoration: Dark slip on the exterior.

Comparanda: **Comparanda:** Mochlos: Barnard and Brogan 2003, Pl.46, 474. Malia: Poursat and Knappett 2005, Pl. 31, PL.34, 54. Gournia: Boyd-Hawes et al. 1908, PL.2, 43.

Date: MM IIB

Miscellaneous Closed Vessels

MOX.339 (P 13108; D2 1803.4, Pl.38c) Closed vessel with potter's mark. Less than one-quarter extant. One piece preserving a vertical rounded handle. Converging from opposite directions. Coil-made. Coarse ware: Light red (2.5YR 6/6). Purple phyllite.

Potter's mark: Two diagonal pre-firing incisions of equal length.

Date: MM IIB

POURING

Jugs

MOX.340 (P 12928; D2 1803.4. Pl.38d): Jug, Type 1c (?) or jar base About one-quarter extant. One piece preserving base and conical body profile. Burnished interior. Pres h. 0.036, base d. 0.13. Coil-made. Possible coil join between the base and the body. Coarse ware: Reddish yellow (5YR 7/6). Granodiorite.

Date: MM

DRINKING

Carinated Cups

MOX.341 (P 13115; D2 1813.4) Carinated cup, Type 4b. Less than one-quarter extant. One piece preserving profile with low carination. Pres. h. 0.026. Wheel-thrown. Rilling striations on the interior. Fine ware orange: Reddish yellow (5YR 7/6).

Decoration: Dark slip-on exterior, white and red parallel bands.

Date: MM IB

Conical Tumblers

MOX.342 (P 12929; D2 1803.4, Pl.39a) Conical tumbler, Type 1a. Less than one-quarter extant. One piece preserving base and conical body profile. The base is flat and thicker than the body section. Pres h. 0.032, base d. 0.04. Wheel-thrown. Rilling striations on the interior, parallel striations on the underside of the base. Coarse ware: Reddish yellow (5YR 6/6). Purple phyllite.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64 KP 425, KP 426.

Date: MM IIB

MOX.343 (P 12921; D2 1803.4) Conical tumbler, Type 1b. Less than one-quarter extant. One piece preserving base and straight to conical body profile. Pres h. 0.019, base d. 0.03. Wheel-thrown. Rilling striations on the interior and the exterior, parallel striations on the underside of the base. Fine ware orange: Reddish yellow (5YR 7/6).

Decoration: Dark slip on the interior and the exterior and on the underside of the base.

Comparanda: Andreou 1979, Pl.14, 3; Malia, Quartier Θ: VanEffenterre 1976: PL. XII, A. Quartier Mu: Poursat and Knappett 2005, PL. 30. Monastiraki-Katalimata: Nowicki 2008, Pl.68, KP 478; 2001, Pl. 5, 15. Petras: Tsipopoulou 2017a, Pl.8, a–g; Tsipopoulou 2010, 50, P4. Trapeza: Pendlebury and Money-Coutts, 1939, Pl.14, 531, 532.

Date: MM IIB

Straight-Sided Cups

MOX.344 (P 13104; D2 1813.2, Pl.39b) Straight-sided cup, miscellaneous type. Less than one-quarter extant. One piece preserving rim and body profile. The rim is slightly inverted and the body section is straight. Pres h. 0.04. Wheel-made. Rilling on the interior. Fine ware orange: Reddish gray (2.5YR 5/1).

Decoration: Dark slip on the interior and exterior. Two preserved red bands on the exterior.

Date: MM IB

Semi-Globular Cups

MOX.345 (P 13116; D2 1813.4, Pl.39c) Semi-globular cup/Angular cup, Type 1c. More than one-half extant. Twenty joining pieces, plus three joining pieces preserving rim and body profile with the low attachment of a strap handle. The rim is inverted, and the body is semi-globular. Rim d. 0.12. Wheel-made. Fine-ware: Pink (5YR 7/4). Small granodioritic inclusions.

Decoration: White-on-dark and dark-on-light. Dark slip on the interior, dark band on the rim, and high wall exterior that contains two thinner yellowish parallel bands. It also forms the panel of two pairs of four diagonal dark bands. Another thick dark band appears above the base.

Comparanda: Similar to Palaikastro: Knappett and Collar 2007, Pl.6, 160.

Date: MM IB

Miscellaneous Cups

MOX.346 (P 10901; D2 1813.4, Pl.39d) Cup within cup. Less than one-quarter extant the first cup and complete the second cup. One piece preserving body profile and a complete miniature tumbler on the interior. Tumbler preserves a small hole on the base (kernos?). Pres h. 0.018, Miniature cup: Pres h. 0.009, rim d. 0.008, base d. 0.002. Wheel-coil. Fine ware: Pink (7.5YR 8/4).

Decoration: Large cup: Dark slip on interior and exterior. Miniature cup: Dark band on exterior rim, dark slip on the interior.

Date: MM IB

SERVING

Ledge-Rimmed Bowls

MOX.347 (P 12931; D2 1803.4) Ledge-rimmed bowl, Type 8. Less than one-quarter extant. One piece preserving rim and body profile. The rim is ledge, and the body section is conical. Rim d. 0.15. Coil-made. Coil-join between the rim and the body. Coarse ware: Red (2.5 YR 5/8). Purple phyllite.

Decoration: Burnished interior and exterior.

Comparanda: Palaikastro: Knappett and Collar, 2007, Pl.24, 123.

Date: MM IIB

Flared-rim bowls

MOX.348 (P 13111; D2 1813.4, Pl.39e) Flared rim bowl Type 2a/b. Less than one-quarter extant. Two joining pieces preserving flared-rim and body profile. The body is conical, and the rim is rounded and inverted. Pres h. 0.66, rim d. 0.27. Wheel-coil. Coil joins finished with the RKE. Coarse ware: Light red (2.5YR 6/6). Granodioritic inclusions.

Decoration: White burnished interior and exterior. Pairs of dark parallel hatches on top of the rim.

Date: MM IB

MOX.349 (P 13114; D2 1813.4, Pl.39f) Flared-rim bowl, Type 2b. One piece preserving base and body profile with conical profile, rising to flared rim. Pres h. 0.014, base d. 0.05. Wheel-made. Rilling striations on the interior. Coarse ware: Light red (2.5YR 6/6). Granodiorite.

Decoration: Dark slip on the interior and exterior. Yellowish parallel bands on the exterior.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIA–MM IIB

Tripod Bowls

MOX. 350 (P 12932; D2 1803.4, Pl.39g) Tripod bowl with flared-rim, Type 3. Less than one-quarter extant. One piece preserves the base and conical body profile with a trace of an ovoid leg. Pres h. 0.013, base d. 0.11. Coil-made. Coil-join on the low wall exterior. Coarse ware: Light red (2.5YR 6/8). Purple phyllite and white metamorphic rocks.

Decoration: Medallion-rope decoration on the base interior (Rope 7 according to Christakis 2004, Pl.27, f).

Comparanda: For shape: Monastiraki-Katalimata: Nowicki 2001, Pl. 10, 26. Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 118.

Date: MM IIB

MOX.351 (P 12926; D2 1803.4) Tripod bowl, Type 3. Less than one-quarter extant. One piece preserving base with conical profile and trace of ovoid leg. Pres h. 0.014m. Coil-made. Coil-join between the base and the body. Coarse ware: Reddish yellow (5YR 6/6). Purple phyllite and white metamorphic rocks.

Comparanda: Monastiraki-Katalimata: Nowicki 2001, Pl. 10, 26. Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 118.

COOKING

Dishes

MOX.352 (P 12933; D2 1803.4, Pl.40a) Cooking dish, Type 1a. Less than one-quarter extant. One piece preserving rim and body profile. The rim is inverted, and the body section is conical. Rough exterior, smooth interior. Pres. h. 0.010, rim d. 0.41. Coil-made. Coil-join between the rim and the body. Coarse ware: Reddish yellow (5YR 6/6). Silver mica.

Date: MM–LM

MOX.353 (P 12930; D2 1803.4, Pl.40b) Cooking dish, Type 2b. Less than one-quarter extant. One piece preserving flaring or everted rim with conical body profile. Rough exterior, smooth interior. Pres h. 0.010, rim d. 0.41. Coil-made. A ridge on the rim is a result of a coil-join. Coarse ware: Silver mica (5YR 6/6).

Comparanda: Kastro (Mook 1999, PL. CX, 4)

Date: MM–LM

Trays

MOX.354 (P 13105; D2 1813.2, Pl.40c) Tray, Type 1a. Less than one-quarter extant. One piece preserving profile with flat base straight body and inverted, rounded rim. Smooth rim and wall interior and intensive burning on the rim. H. 0.012, base d. 0.17. Coil-made. Coil-join between the rim and the body. Coarse ware: Reddish-brown (2.5YR 5/4).

Comparanda: Petras (Alberti 2016, Pl.19, CW 122, CW 123), Palaikastro Block M (Knappett and Cunningham, Pl.4.4, 65), Haggis 2012, Pl.26, B371, Monastiraki-Katalimata (Nowicki 2008, Pl.68, KP 469)

Date: MM–LM

MOX.355 (P 10831; D2 1813.4, Pl.40d) Cooking tray, Type 1c. About one-quarter extant. Seven joining pieces preserving profile with horizontal rounded handle. The base is flat the body slightly convex, and the rim rounded and inverted. Burnished interior, rough exterior. Intensive burning on the interior. H. 0.028, rim d. 0.41. Coil-made. Coil-join between the rim and the body. Coarse ware: Red (2.5YR 4/6). Granodiorite.

Comparanda: Petras (Alberti 2016, Pl. 20, CW 152)

Date: MM–LM

MOX.356 (P 13112; D2 1813.4, Pl.40e) Tripod cooking tray, Type 2. Less than one-quarter extant. One piece preserving flat base, slightly conical tall profile, inverted rim, and a trace of an ovoid leg. H. 0.064. Coil-made. Coil-join between the base and the body and the leg. Coarse ware: Red (2.5YR 5/6). Granodiorite.

Comparanda: Similar to Malia: Poursat and Knappett 2005, Bassines Type 2, 251 and Plateau Type 1, 370 and Type 3, 372, Kommos (Betancourt 1990, Pl. 20, 298)

Date: MM–LM

UTILITARIAN

Basins

MOX.357 (P 12923; 1803.4, Pl.40f) Basin, Type 1b. Less than one-quarter extant, One piece preserving flat rim with conical body profile. A ridge appears on the rim as a result of a coil join. Pres h. 0.07m, rim d. 0.039m. Coil-made. Coil-join between the rim and the body. Coarse ware: Light red (10R 6/6). Granodiorite.

Comparanda: Malia, Quartier Mu (Poursat and Knappett 2005, PL. 46, 251)

Date: MM IIB?

Scuttles

MOX.358 (P 12383; D2 1813.4, Pl.40g–h) Scuttle with potter's mark. About one-quarter extant. Four joining pieces preserving pulled-in rim, convex body section, and vertical rounded handle. Coarse ware: Light red (2.5YR 6/6). Granodiorite.

Potter's mark: Horizontal, parallel incisions on the attachment of the handle with the rim
Comparanda: Mochlos (Barnard and Brogan 2003, Pl. 53, IB.610)
Date: MM IIA–LM

Date: MM IIB

MOX.407 (P 10665; D2 811.2, Pl.45i) Carinated cup, Type 4a. More than one-half extant. Thirteen joining pieces, plus three non-joining pieces preserving profile. The base is flat, low wall convex, and upper wall concave ending to an everted rim. Carination is middle. H. 0.072, rim d. 0.12, base d. 0.052. Wheel-thrown. Rilling striations on the interior and the exterior. Parallel striations on the underside of the base. Semi-fine ware orange: Red (2.5YR 4/8).

Comparanda: Gournia: Boyd-Hawes et al. 1908, PL. 5, 23. Palaikastro: Knappett and Cunningham, Pl. 4.17, 157. Petras: Tsipopoulou 2017a, Pl.8, i.

Date: MM IIB

MOX.408 (P 12421; D2 811.1, Pl.45j) Carinated cup, Type 4a. About one-half extant. Twelve joining pieces, plus two joining, plus two joining, plus two non-joining pieces, preserving profile with rounded handle. Un-grooved. Middle carination rising to an everted rim. Two thin ridges above the base. Pres h. 0.024, base d. 0.05. Wheel-thrown. Rilling striations on the interior. Fine ware orange: Light red (2.5YR 7/6).

Decoration: Dark slip on the interior and the exterior.

Comparanda: Gournia: Boyd-Hawes et al. 1908, PL. 5, 23; Betancourt and Silverman 1991, Pl.8, 409, Pl.9, 415. Palaikastro: Knappett and Cunningham, Pl. 4.17, 157. Petras: Tsipopoulou 2017a, Pl.8, i.

Date: MM IIB

MOX.409 (P 13128; D2 811.1, Pl.45k) Carinated cup, Type 4a. About one-quarter extant. One piece preserving rim and body profile, with everted rim and middle to low carination. Non-grooved example. Pres h. 0.05, rim d. 0.09. Wheel-thrown. Rilling marks on the interior. Fine ware tan: Very pale brown (10YR 8/3).

Decoration: Dark slip on the interior and the exterior.

Comparanda: Gournia: Boyd-Hawes et al. 1908, PL. 5, 23; Betancourt and Silverman 1991, Pl.8, 409, Pl.9, 415. Palaikastro: Knappett and Cunningham, Pl. 4.17, 157. Petras: Tsipopoulou 2017a, Pl.8, i.

Date: MM IIB

Conical Tumblers

MOX.410 (P 13127; D2 811.1) Conical tumbler, Type 1a. About one-quarter extant. Two joining preserving base and body profile. Pres h. 0.022, base d. 0.03. Wheel-thrown. Parallel striations on the underside of the base. Semi-fine ware orange: Light red (2.5YR 6/6). Purple phyllite and silver mica.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282; Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64 KP 425, KP 426.

Date: MM IIB

MOX.411 (P 10642; D2 811.1, Pl.46a) Conical tumbler (squat), Type 1a. About three-quarters extant. Five joining pieces preserving profile. The base is thicker than the body and the body section is straight to conical profile ending to an everted tapered rim. H. 0.038, rim d. 0.07, base d. 0.037. Wheel-thrown. Rilling marks on the interior, parallel striations on the underside of the base. Medium-fine orange: Red (10R 5/8).

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282; Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64 KP 425, KP 426.

Date: MM IIB

MOX.412 (P 12370; D2 811.2, Pl. 46b) Conical tumbler, Type 1b. About one-half extant. Twelve joining pieces preserving profile. The base is flat, the body section straight to conical ending to an everted tapered rim. H. 0.068, rim d. 0.11, base d. 0.038. Wheel-thrown. Rilling marks on the interior, string cut, and concentric striations on the underside of the base. Medium-fine ware orange: Red (2.5YR 5/8).

Decoration: White festoons on rim interior.

Comparanda: Andreou 1979, Pl.14, 3; Malia, Quartier Θ: VanEffenterre 1976: PL. XII, A. Quartier Mu: Poursat and Knappett 2005, PL. 30. Date: MM IIB

Flaring Tumblers

MOX.415 (P 12372; D2 811.1, Pl.46d) Flaring tumbler, Type 2. About three-quarters extant. Seven joining pieces, plus two non-joining pieces preserving profile. The base is flat, and the body section is straight to conical. H. 0.061, base d. 0.034. Wheel-thrown. Rilling marks on the interior, parallel striations on the underside of the base. Fine ware orange: Pink (5YR 8/3).

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 106.

Date: MM IIB

MOX.416 (P 12375; D2 811.2, Pl.46e) Flaring tumbler, Type 2. More than one-half extant. Two joining pieces preserving base and straight to conical body profile. Pres h. 0.038, base d. 0.026. Wheel-thrown. Rilling marks on the interior, parallel striations on the underside of the base. Fine ware orange: Light red (2.5YR 7/6).

Decoration: Pseudo-Vasiliki on the exterior and red slip on the interior.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 106.

Date: MM IIB

One-Handled Conical Cups

MOX.417 (P 12373; D2 811.1, Pl.46f) One-handled conical cup, Type 1b. About one-quarter extant. Ten joining pieces, plus three non-joining pieces preserving rim and a vertical rounded handle attached below the rim and on high wall exterior. Pres h. 0.072, rim d. 0.07. Wheel-thrown. Rilling marks on the interior. Fine ware orange: Red (2.5YR 4/8)

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.29, 965, 979. Gournia: Boyd-Hawes et al. 1908, PL.5, 4.

Date: MM IIB

Straight-Sided Cups

MOX.418 (P 12428; D2 811.1) Straight-sided cup, Type 6a. Less than one-quarter extant. One piece preserving base and body profile. The base is flat on the section and the walls are straight, slightly concave. Pres h. 0.026, base d. 0.04. Wheel-thrown. Rilling striations on the interior. Fine ware orange: Pink (2.5YR 8/3).

Decoration: Dark slip on the interior and exterior and on the underside of the base.

Comparanda: Haggis 2012, Pl.20, B 285, Pl.27, 380.

Date: MM IIB

MOX.419 (P 12371; D2 811.2, Pl.46g) Straight-sided cup, Type 6a. About one-quarter extant. Eight joining pieces preserve a large flat base and straight body profile. Pres h. 0.022, base d. 0.082. Wheel-made. Rilling striations on the interior. Fine ware tan: Pink (7.5YR 8/3).

Decoration: Dark-on-white. Dark cross on the underside of the base. Dark vertical bands on the exterior.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL. 28, 812–819; PL. 41, a.

Semi-Globular Cups

MOX.420 (P 12376, D2 811.1, Pl.46h) Semi-globular cup, Type 1a. About one-quarter extant. Four joining pieces preserve a flat base and semi-globular body profile. Pres h. 0.42, base d. 0.035. Wheel-thrown. Rilling striations on the interior and parallel striations on the underside of the base. Fine ware orange: Light red (2.5YR 7/6).

Decoration: Dark slip on the interior and the exterior and on the perimeter on the underside of the base.

Comparanda: Petras: Haggis 2007, Pl. 10, h. Palaikastro: Knappett and Collar 2007; h, j, k; Andreou 1979, Pl.17, 6. Pseira: Betancourt 1999, Pl. 7, BE 2.

Date: MM IIB

MOX.421 (P 10668; D2 811.2, Pl.46i) Semi-globular cup, Type 2b. About one-quarter extant. Ten joining pieces preserving everted rim and semi-globular body profile with a trace of strap handle. Pres h. 0.042, rim d. 0.18. Wheel-thrown. Rilling striations on the interior. Fine ware orange: Pinkish gray (7.5YR 7/2).

Decoration: Dark metallic slip on the interior and the exterior. The thick, white band underneath the rim.

Comparanda: Malia: Poursat and Knappett 2005, PL.51, 828. Palaikastro: Knappett and Cunningham 2012, Pl. 4.14, 134, Knappett and Collar 2007, Pl.25. Petras: Tsipopoulou 2017a, Pl.8, S. Vrokastro: Hayden 2003, Pl.4, 16. Gournia: Betancourt and Silverman, Pl.8, 406.

Date: MM IIB

Cooking Cups

MOX.422 (P 10645; D2 811.1, Pl.46j) Spouted Cooking cup, Type 1. Intact. One piece preserving profile. The base is flat, the body section globular on the low wall turning to concave and the rim everted. The spout is a pulled-out rim. It maintains a vertical rounded handle on one of its sides. H. 0.058, rim d. 0.054, base d. 0.05. Wheel-thrown. Rilling marks on the interior and parallel striations on the underside of the base. Coarse ware: Red (2.5YR 5/6). Purple phyllite and silver mica.

Date: MM IIB

Miscellaneous Cups

MOX.423 (P 12380; D2 811.1) Miscellaneous one-handed conical cup or tumbler. Less than one-quarter extant. Three joining pieces, plus three non-joining pieces preserving rim and body profile. The rim is inverted, and the body profile is straight to conical. Pres h. 0.047, rim d. 0.11. Wheel-thrown. Rilling striations on the interior. Fine ware orange: Reddish-brown (5YR 6/4). Small phyllite inclusions.

Date: MM IIB

SERVING

Flared-Rim Bowls

MOX.424 (P 13130; D2 811.1) Flared-rim bowl, Type 2a/b. Less than one-quarter extant. One piece preserves flared rim and conical body profile. Pres h. 0.028, rim d. 0.11. Coil-made. Fine ware tan: Very pale brown (10YR 8/3).

Decoration: Dark slip on the flat part of the rim and on the interior.

Date: MM IB–IIB

MOX.425 (P 13136; D2 811.1, Pl.47a) Flared-rim bowl, Type 2a/b. Less than one-quarter extant. One piece preserving flared rim and body profile. Pres h. 0.02, rim d. 0.029. Coil-made. Coil-join between the rim and high wall exterior. Coarse ware: Light red (2.5YR 7/6). Granodiorite.

Decoration: Five preserved diagonal slashes on the rim.

Date: MM IB–IIB

MOX.426 (P 13134; D2 811.1) Flared-rim bowl, Type 2c/b. Less than one-quarter extant. One piece preserving flared flat rim and flaring body profile. Pres h. 0.036, rim d. 0.11. Coil-made. Coarse ware: Pink (7.5YR 8/4). Granodiorite.

Decoration: Reddish-brown band on rim interior and exterior.

Date: MM IIB

MOX.427 (P 12445; D2 811.1) Flared-rim bowl, Type 2c. Less than one-quarter extant. One piece flaring horizontal flat rim and flaring body profile. Pres h. 0.021, rim d. 0.13. Coil-made. Coarse ware: Pink (7.5YR 8/4). Granodiorite.

Decoration: Reddish-brown horizontal band on rim interior and exterior.

Andreou 1979, Pl.12, 16; Knossos: MacDonald and Knappett 2007, Pl. 3.15, 266. Mochlos, House D–Vasiliki House B, Knossos, Upper East Well and Kouloures Group: Andreou 1978, Pl.1,12; Pl.3,8; Pl.12, 16. Petras: Tsipopoulou 2012, Pl. 4; 2017, Pl. 5, Pl.6. Date: MM IB–MM IIA

Ledge-Rimmed Bowls

MOX.428 (P 12429; D2 811.1, Pl.47b) Ledge-rimmed bowl, Type 8. Less than one-quarter extant. One piece preserving convex body and ledge rim profile. Pres h. 0.038, rim d. 0.15. Coil-made. Coil join between the rim and the body. Coarse ware: Red (10YR 5/6). Granodiorite.

Decoration: Traces of red slip on the exterior.

Comparanda: Palaikastro: Knappett and Collar, 2007, Pl.24, 123.

Date: MM IIB

COOKING

Dishes

MOX.429 (P 12427; D2 811.1, Pl.47c) Cooking dish, Type 2a. Less than one-quarter extant. One piece preserving rim and body profile. The rim is everted and the body conical. Rim d. 0.31. Coil-made. Coarse ware: Light red (2.5YR 6/8). Phyllite with white metamorphic rocks.

Date: MM IIA–IIB

MOX.430 (P 13117; D2 811.1, Pl.47d) Cooking dish, Type 2a. Less than one-quarter extant. One piece preserving everted to flared rim and conical body profile. Pres h. 0.012, rim d. 0.023. Coil-made. Coarse ware: Light reddish-brown. (5YR 6/4).

Comparanda: Mochlos (Barnard and Brogan 2004, Pl.49, IB. 524)

Date: MM IB–LM IB

MOX.431 (P 12406; D2 811.1, Pl.47e) Cooking dish, Type 2a. One piece preserving rim and body profile. The rim is flaring. Smooth interior, rough exterior. Pres h. 0.01. Coil-made. Possible coil join between rim and body. Coarse ware: Light red (2.5YR 6/6). Purple phyllite and silver mica.

Comparanda: Mochlos (Barnard and Brogan, Pl.49, IB. 524), Kastro (Mook 1999, PL. CX, 10)

Date: MM IB–LM IB

Trays

MOX.432 (P 13125; 811.2) Tray, Type 1a. One piece preserving profile. The base is flat the body concave ending to an inverted rounded rim. H. 0.044, rim d. 0.23. Coil-made. Coil-join between the rim and the wall interior and exterior. Coarse ware: Red (2.5YR 4/6). Granodiorite.

Decoration: Dark coat slip on the interior surface.

Comparanda: Palaikastro Block M (Knappett and Cunningham, Pl.4.4, 65), Haggis 2012, Pl.26, B371

Date: MM IIA–IIB

Pots

MOX.433 (P 12430; D2 811.2, Pl.47f) Cooking pot, Type 2. Less than one-quarter extant. One piece preserving globular leg profile. Pres h. 0.042. Coil-made. Coarse ware: Light red (2.5YR 6/6). Purple phyllite and silver mica.

Comparanda: Monastiraki-Katalimata (Nowicki 2008, Pl.69, KP 489)

Date: MM IIB

UTILITARIAN

Basins

MOX.434 (P 13131; D2 811.2, 1810.1) Scored basin, Type 1a. Less than one-quarter extant. Two joining pieces preserve body profile. Coil-made. Coarse ware: Red (10YR 5/8). Purple phyllite.

Decoration: Deep ridges preserving zig-zag decoration on the interior.

Comparanda: Pseira: Betancourt et al. 2009, Pl. 1, AF 5, Monastiraki-Katalimata (Nowicki, Pl.74, KP 46)

Date: MM IIA–MM IIB

MOX.435 (P 13135; D2 811.1) Basin, Type 1b. Less than one-quarter extant. One piece preserving rim and body profile. The rim is flat and rounded, and the body section is convex. Pres h. 0.062, rim d. 0.27. Coil-made. Coarse ware: Reddish-brown (2.5YR 5/4). Purple phyllite.

Decoration: White slip on the interior.

Comparanda: Malia, Quartier Mu (Poursat and Knappett 2005, PL. 46, 251)

Date: MM

Scuttles

MOX.436 (P 12381; D2 811.1, Pl.47g) Scuttle with potter's mark. One piece preserving handle and pulled in rim. Coil-made. Coarse ware: Red (2.5YR 5/8). Silver mica.

Potter's mark: Diagonal pre-firing incision on the handle above the rim.

Comparanda: Mochlos (Barnard and Brogan 2003, Pl. 53, IB.610)

Date: MM IIA–LM

XVIII. Deposit Underneath House C.12, Fill (Layer 1, D4 2823, 2824.1)

STORAGE

Pithoi

MOX.437 (P 12721; D4 2823.1, Pl.48a) Pithos, Type 1. Less than one-quarter extant. Eight joining pieces preserve base and body profile. The base extends in a larger diameter than the body. Pres h. 0.085. Wheel-coil. Possible coil-join between the base and the lower part of the body. Coarse ware: Pink (5YR 8/4). Granodioritic fabric.

Decoration: Trickle pattern above the base.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.7, 112; Christakis 2005, Pl.14, 54.

Date: MM IIB

Amphorae

MOX.438 (P 12669; D2 2823.1, Pl.48b) Oval-mouthed amphora, possibly Type 1. Less than one-quarter extant. One piece preserving neck and shoulder profile. Pres h. 0.061. Coil-made. Coarse ware: Pink (5YR 8/4). Granodiorite.

Decoration: Dark slip on the neck and the shoulder exterior.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.3, 29. Gournia: Boyd-Hawes et al. 1908, PL.5,12; Betancourt and Silverman, 1991, Pl.6, 387; Silverman 1978, PL.8d, 17.

Date: MM IB

MOX.439 (P 12682; D4 2823.2, Pl.48c) Oval-mouthed amphora, possible Type 1. Less than one-quarter extant. Two joining pieces preserve ovoid rim and neck profile. Pres h. 0.069, rim d. 0.15. Coil-made. Coarse ware: Light red (2.5YR 7/6). Granodiorite.

Decoration: Dark band on the rim, two diagonal stripes on the neck, dark band on the bottom of the neck above the beginning of the shoulder.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.3, 29. Gournia: Boyd-Hawes et al. 1908, PL.5,12; Betancourt and Silverman, 1991, Pl.6, 387; Silverman 1978, PL.8d, 17.

Date: MM IB

Jars

MOX.440 (P 12632; D2 2823.2, Pl.48d) Jar, Type 2. About one-quarter extant. Seven joining pieces preserve base and conical slightly globular body profile. Concavity above base on low wall exterior. Pres h. 0.094, base d. 0.11. Coil-made. Coil-join above low wall exterior. Coarse ware: Red (2.5YR 5/6). Purple phyllite.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 112; Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392.

Date: MM IIB

MOX.441 (P 12512; D2 2823.2, Pl. 48e) Pithoid jar, Type 4c. Less than one-quarter extant. Two joining pieces preserving wide rim and convex shoulder profile. Pres h. 0.044, rim d. 0.22. Coil-made. Coarse ware: Red (5YR 5/6). Granodiorite.

Decoration: Dark slip on the exterior and on the rim

Comparanda: Closest Parallel, Walberg 1983, PL.10, 39

Date: MM IB–MM IIB

MOX.442 (P 12722; D4 2823.2, 2823.3) Hole-mouthed jar, Type 5a. Less than one-quarter extant. Three joining pieces preserve base and body profile. The base is flat and the body section globular. Pres h. 0.045, base d. 0.018. Coarse ware: Reddish yellow (5YR 6/6). Silver mica.

Comparanda: Haggis 2012, Pl.14, 183; Pl.22, 317. Gournia: Boyd-Hawes et al. 1908, 35, Malia, Quartier Mu (Poursat and Knappett 2005, PL.11, 185, 188)

Date: MM IIB

MOX.443 (P 12761; D2 2823.1, Pl.48f) Hole-mouthed jar, Type 5b. Less than one-quarter extant. One piece preserving everted rounded rim and short globular shoulder. Pres h. 0.065, rim d. 0.27. Coil-made. Coarse ware: Red (2.5YR 5/6). Purple phyllite.

Decoration: Red thick band below rim exterior.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.11, 185, 188.

Date: MM IIB

MOX.444 (P 12516; D4 2823.3, Pl.48g) Hole-mouthed jar, Type 5d. Less than one-quarter extant. One piece preserving rim and body profile. The rim is inverted, and the shoulder has carination with shallow regular grooves. Pres. h. 0.05, rim d. 0.15, max. body d. 0.18. Coarse ware: Pink (7.5YR 8/4). Granodiorite.

Decoration: Dark slip on the exterior

Comparanda: Haggis 2012, Pl.29, B403; Palaikastro: Knappett and Cunningham 2012, Pl. 4.6

Date: MMIIA–MM IIB

Lids

MOX.445 (P 12634; D4 2823.2, Pl.49a) Lid, Type 3a. About one-quarter extant. One piece preserving discoid profile with horizontal rounded handle. Lid d. 0.27. Hand-made. Coarse ware: Red (2.5YR 5/6). Phyllite.

Comparanda: Mochlos: Barnard and Brogan 2003, Pl. 47, IB. 484

Date: MM–LM

Miscellaneous Closed Vessels

MOX.446 (P 12510; D4 2823.3, Pl.49b) Closed vessel with potter's mark. Less than one-quarter extant. One piece preserving a rounded handle. Hand-made. Coarse ware: Red (5YR 5/6). Purple phyllite.

Potter's mark: Two diagonal pre-firing parallel incisions in one part of the handle.

Date: MM IIB

MOX.447 (P 12500; D4 2823.1, Pl.49c) Closed vessel with potter's mark. Less than one-quarter extant. One piece preserving a rounded handle profile. Coarse ware: Red (2.5 YR 5/6). Purple phyllite.

Potter's mark: Two horizontal deep pre-firing incisions, in the form of an arrow point.

Date: MM IIB

MOX.448 (P 12758; D4 2823.2, Pl.49d) Closed vessel with potter's mark. Less than one-quarter extant. One piece preserving a rounded handle profile. Coarse ware: Red (2.5YR 5/6). Purple phyllite.

Potter's mark: One deep diagonal pre-firing incision (possibly two)

Date: MM IIB

MOX.449 (P 12592; D4 2823.2, Pl.49e) Closed vessel with potter's mark. Less than one-quarter extant. One piece preserving a rounded handle profile. Handle l. 0.031. Coarse ware: Greenish gray (Gley 1 5/3) Purple phyllite.

Potter's mark: Two even parallel pre-firing diagonal incisions

Date: MM IIB

MOX.450 (P 12593; D4 2823.2, Pl.49f) Closed vessel with potter's mark. Less than one-quarter extant. One piece preserving handle profile with potter's mark. Max handle d. 0.035. Coarse ware: Red (2.5YR 5/8). Purple phyllite.

Potter's mark: Single diagonal incision.

Date: MM IIB

POURING

Jugs

MOX.451 (P 12699; D2 2823.3, Pl.50a) Jug with cutaway spout, Type 1a. About one-quarter extant. One piece, plus three joining pieces, plus four joining pieces preserving flat base, conical to piriform body section, and part of the neck profile. Base d. 0.07. Wheel-coil. Coarse ware: Pink (5YR 7/4). Granodiorite.

Decoration: Dark band over the base series of dark linked discs.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.3, 56; Relaki 2016, Pl.23, EMP 129–PM 121. Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392. Monastiraki-Katalimata: Nowicki 2008, KP 494. Gournia: Boyd-Hawes 1908, 22, 29.

Date: MM IIB

MOX.452 (P 12631; D2 2823.1, Pl. 50b) Jug with cutaway spout, Type 1a. About one-quarter extant. Two joining pieces preserving base and conical to piriform body profile. Pres h. 0.059, base d. 0.083. Wheel-coil. Rilling marks on base interior, possible coil-joins on low wall exterior. Coarse ware: Red (2.5YR 5/8). Phyllite and white metamorphic rocks.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.3, 56; Relaki 2016, Pl.23, EMP 129– PM 121. Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392. Monastiraki-Katalimata: Nowicki 2008, KP 494. Gournia: Boyd-Hawes 1908, 22, 29.

Date: MM IB–MM IIB

MOX.453 (P 12641; D4 2823.1, Pl.50c) Jug with cutaway spout, Type 1a. One piece preserving base and conical to piriform body profile. Less than one-quarter extant. Pres h. 0.072, base d. 0.11. Coil-made. Coil-join above the low exterior wall. Coarse ware: Reddish yellow (5YR 6/6). Purple phyllite.

Decoration: Dark band above the base, concentric circles above it.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.3, 56; Relaki 2016, Pl.23, EMP 129 PM 121. Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392. Monastiraki-Katalimata: Nowicki 2008, KP 494. Gournia: Boyd-Hawes 1908, 22, 29.

Date: MM IB–MM IIB

MOX.454 (P 12394; D2 2823.2, Pl.50d) Jug, Type 1c. Less than one-quarter extant. Seven joining pieces preserving base and conical body profile. Pres h. 0.107, base d. 0.11. Wheel-coil. Rilling marks on the base interior. Coarse ware: Red (2.5YR 5/6). Phyllite and silver mica.

Comparanda: For shape: Monastiraki-Katalimata: Nowicki 2008, Pl. 72 KP 536.

Date: MM IIB

MOX.455 (P 12695; D4 2823.1, Pl.51a) Jug, Type 1c. About one-quarter extant. Six joining pieces preserving base and conical body profile. H.0.093, base d. 0.07. Wheel-coil. Coil-joints on low to middle wall exterior. Coarse ware: Pink (5YR 8/4). Granodiorite.

Decoration: Red band above wall exterior, three red diagonal stripes run the wall exterior.

Date: MM IIB

MOX.456 (P 12674; D4 2823.1, Pl.51b) Jug with cutaway spout, Type 1c. About one-quarter extant. Four joining pieces preserving base and conical to piriform body profile. Pres h. 0.06, base d. 0.06. Wheel-coil. Rilling striations on the base interior, possible coil-joints on low and middle wall exterior. Coarse ware: Light reddish brown (2.5YR 7/4). Granodiorite.

Decoration: Red semi-circular band on the exterior

Comparanda: Gournia: Boyd and Hawes et al. 1908, PL.5, 15.

Date: MM IIB

MOX.457 (P 12681; D2 2823.1, Pl.51c) Pear-shaped (globular) jug, Type 6b. Two joining pieces preserve base and globular body profile. Pres h. 0.054, base d. 0.10. Coil-made. Fine ware: Pink (7.5YR 8/4)

Decoration: Dark slip on the exterior.

Comparanda: Malia, Quartier Mu: Poursat and Knappett 2005, PL.21, 470, 463.

Date: MM IIB

Pitchers

MOX.458 (P 12659; D4 2823.1, Pl.51d) Pitcher, Type 1. Five joining pieces preserve rim, body, and vertical rounded handle profile. Pres h. 0.085. Wheel-coil. Coil-join on high wall exterior. Coarse ware: Light red (2.5YR 6/6). Purple phyllite.

Comparanda: Malia, Quartier Θ: VanEffentere 1976, PL. XII, G. Quartier Mu: Poursat and Knappett 2005, PL. 15, 272–316; Poursat 1997, PL. 24, a.

Date: MM IIB

MOX.459 (P 12662; D2 2823.1–2823.2, Pl. 51e) Pitcher, Type 1. About one-quarter extant. Three joining pieces preserve the rim, body, and spout profile. The rim is inverted and the spout pulled out rim. Pres h. 0.11, rim d. 0.021. Coil-made. Coarse ware: Reddish yellow (5YR 6/6). Purple phyllite and white metamorphic rocks.

Comparanda: Malia, Quartier Θ: VanEffentere 1976, PL. XII, G. Quartier Mu: Poursat and Knappett 2005, PL. 15, 272–316; Poursat 1997, PL. 24, a.

Date: MM IIB

MOX.460 (P 12664; D4 2823.1) Pitcher, Type 1. Less than one-quarter extant. Two joining preserving inverted rim and high wall exterior with a trace of the vertical rounded handle. Pres h. 0.11m, rim d. 0.21m. Coil-made: Reddish yellow (7.5YR 7/6). Purple phyllite with white metamorphic rocks.

Comparanda: Malia, Quartier Θ: VanEffentere 1976, PL. XII, G. Quartier Mu: Poursat and Knappett 2005, PL. 15, 272–316; Poursat 1997, PL. 24, a.

Date: MM IIB

DRINKING

Carinated Cups

MOX.461 (P 12495; D4 2823.1, Pl.52a) Ribbed carinated cup, Type 2a. Less than one-quarter extant. Three joining pieces preserving body profile with convex part below carination and shallow regular grooves above carination. Pres h. 0.028. Wheel-thrown. Rilling marks on the interior. Fine ware orange: Pink (7.5YR 7/4).

Decoration: Dark slip on the interior and the exterior

Comparanda: Malia: Poursat and Knappett 2005, Pl.27, no.769; Andreou 1979, Pl.19, 15. Monastiraki-Katalimata: Nowicki 2008, Pl. 70, no. KP 498; 2001, Pl. 15, 13. Pseira: Floyd 2009, Pl.4, AF 92. Vasiliki: Andreou 1978, Pl. 15,4. Gournia: Betancourt and Silverman 1991, PL. 7, 412; Boyd-Hawes et al. 1908, PL.2, 10.

Date: MM IIB

MOX.462 (P 12494; D4 2823.1, Pl.52b) Ribbed carinated cup, Type 2a. Less than one-quarter extant. Two joining pieces preserve base and body profile. It is tall rim with thin regular symmetric parallel grooves. Pres h. 0.055, base d. 0.06. Wheel-made. Rilling marks on the interior. Fine ware orange: Light red (2.5YR 7/6).

Decoration: Dark metallic slip on the interior and the exterior

Comparanda: Malia: Poursat and Knappett 2005, Pl.27, no.769; Andreou 1979, Pl.19, 15. Monastiraki-Katalimata: Nowicki 2008, Pl. 70, no. KP 498; 2001, Pl. 15, 13. Pseira: Floyd 2009, Pl.4, AF 92. Vasiliki: Andreou 1978, Pl. 15,4. Gournia: Betancourt and Silverman 1991, PL. 7, 412; Boyd-Hawes et al. 1908, PL.2, 10.

Date: MM IIB

Conical Tumblers

MOX.463 (P 12507; D4 2823.2, Pl.52c) Conical tumbler with potter's mark, Type 1a. About one-half extant. Two pieces preserving base and body profile. The base is thicker than the body section, which is slightly conical. Pres h. 0.031, base d. 0.05. Wheel-thrown. Rilling marks on the interior, parallel striations on the underside of the base. Semi-fine ware orange: Light red (2.5YR 6/6). Purple phyllite.

Potter's mark: One diagonal and one horizontal pre-firing incision.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282. Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64 KP 425, KP 426.

Date: MM IIB

MOX.464 (P 12519; D2 2824.1, Pl.52d) Conical tumbler, Type 1b. Two joining pieces preserve base and straight to the slightly conical body section. Pres h. 0.042, base d. 0.06. Wheel-thrown. Rilling marks on the interior. Fine ware orange: Reddish yellow (2.5YR 8/6).

Decoration: Red metallic slip on the interior and the exterior.

Comparanda: Haggis 2012, Pl. 20, B277, B280, B282; Monastiraki-Katalimata: Nowicki 2008, Pl.70, KP 511, KP 506; Pl. 64 KP 425, KP 426.

Date: MM IIB

MOX.465 (P 12668; D4 2823.1) Conical tumbler, Type 1b. About one-quarter extant. One piece preserving base and conical to straight body section body profile. Pres h. 0.024, base d. 0.03. Wheel-thrown. Rilling marks on the wall interior. Fine ware orange: Reddish yellow (5YR 7/6).

Decoration: Dark slip on interior and exterior and on the underside of the base.

Comparanda: Andreou 1979, Pl.14, 3; Malia, Quartier Θ: VanEffenterre 1976: PL. XII, A. Quartier Mu: Poursat and Knappett 2005, PL. 30. Monastiraki-Katalimata: Nowicki 2008, Pl.68, KP 478; 2001, Pl. 5, 15. Petras: Tsipopoulou 2017a, Pl.8, a-g; Tsipopoulou 2010, 50, P4. Trapeza: Pendlebury and Money-Coutts, 1939, Pl.14, 531, 532.

Date: MM IIB

MOX.466 (P 12499; D4 2823.1, Pl.52e) Conical tumbler, Type 3. Less than one-quarter extant. One piece preserving flat base and straight to conical profile. Pres h. 0.031m, base d. 0.05m. Wheel-thrown. Rilling marks on the interior and parallel striations on the underside of the base. Fine ware orange: Light red clay (2.5YR 7/6).

Decoration: Red slip on the interior and the exterior.

Comparanda: Monastiraki: Nowicki 2008, Pl.67, 462; 2001, Pl. 5, 15.

Date: MM IIB

Flaring Tumblers

MOX.467 (P 12497; D 2823.1, Pl.52f) Flaring tumbler, Type 2. Less than one-quarter extant. One piece preserving base and flaring body profile. The base is flat and the body slightly conical. Pres h. 0.021, base d. 0.03. Wheel-thrown. Rilling striations on the interior and the exterior. Fine ware tan: Very pale yellow (10YR 7/4).

Decoration: Dark slip on the interior and the exterior.

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl. 64, KP 425, Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 106.

Date: MM IIB

One-Handled Conical Cups

MOX.468 (P 12637; D4 2823.2, Pl.52g) One-handed conical cup, Type 1a. More than one-half extant. Six joining pieces preserving base and conical body profile with part of the vertical rounded handle. The base is thicker than the conical body section. Pres h. 0.057, base d. 0.05. Medium-fine ware orange: Reddish yellow (5YR 6/6).

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl.65, KP 440, KP 439, KP 442; Pl. 66, 449; Pl. 67, KP 455; 2001, PL. 1, 1a and 1c, Pl.3, 2. Malia: Poursat and Knappett 2005, 970; Andreou 1978, Pl. 18, 8. Pseira: Betancourt 1999, PL.8, BE 3. Vrokastro: Hayden, 2003, Pl. 2, 12; Hall 1914, Pl. 57a. Gournia: Boyd-Hawes et al. 1908, PL.5, 3.

Date: MM IIB

Straight-Sided Cups

MOX.469 (P 12514; D4 2823.1, Pl. 52h) Straight-sided cup, Type 1b. Almost complete. Six joining pieces preserving profile with traces of strap handle. The base is flat, the low wall maintains an angle and the wall section is straight ending to a tapered rim. H. 0.049, rim d. 0.09, base d. 0.05. Wheel-thrown. Shallow rilling marks on the interior and the exterior. Fine ware: Pink (7.5YR 8/4).

Decoration: Dark slip on the interior, the exterior, and on the underside of the base.

Comparanda: Petras: Haggis 2007, Pl.6c. Pseira: Betancourt 1999, Pl. 7, BE 1. Palaikastro: Knappett and Collar 2007, Pl.18, 93; 2001, Pl. 5, 15.

Date: MM IB–MM IIB

MOX.470 (P 12503; D4 2823.5, Pl.52i) Straight-sided cup, Type 5. Less than one-quarter extant. One piece preserving base and straight body profile. Pres h. 0.024, base d. 0.05. Fine ware orange: Light red (2.5YR 7/6).

Decoration: Dark slip on the interior and exterior

Date: MM IIB

MOX.471 (P 12640; D4 2823.1) Straight-sided cup, Type 6. About one-half extant. Three joining pieces preserving profile. The base is flat and the body section is slightly conical. About one-half extant. Pres h. 0.061, Rim d. 0.11, base d. 0.06. Wheel-coil. Rilling striations on the base interior, coil join on middle wall exterior. Coarse ware: Light red (2.5YR 6/5). Purple phyllite.

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl. 68, KP 482.

Date: MM IIB

Miscellaneous Cups

MOX.472 (P 12591; D4 2823.1, Pl.52j) Miscellaneous cup with potter's mark. Less than one-quarter extant. One piece preserving body profile. Fine ware orange: Reddish yellow (5YR 6/8).

Potter's mark: Two pre-firing parallel diagonal incisions of equal length.

Date: MM IIB

SERVING

Deep Bowls

MOX.473 (P 12760; D4 2823.1) Deep bowl, Type 1c. Less than one-quarter extant. One piece preserving body and horizontal rounded handle. Pres h. 0.021. Fine ware orange: Light red (2.5YR 7/6).

Comparanda: Walberg 1983, PL.17, 253

Decoration: Dark slip on interior and the exterior, two knobs on the top of the handle.

Date: MM IIB

Flared-Rim Bowls

MOX.474 (P 12618; D4 2823.1, Pl.53a) Flared-rim bowl, Type 2b. Two joining pieces, plus one non-joining preserving profile. The body section is conical ending to flaring rounded rim. H. 0.104, rim d. 0.21, base d. 0.11. Wheel-coil. Rilling striations on the interior, coil-join on the mid-wall exterior. Coarse ware: Red (2.5YR 5/6). Purple phyllite.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIA–MM IIB

MOX.475 (P 12496; D4 2823.1) Flared-rim bowl, Type 2a/b. Less than one-quarter extant. One piece preserving rim and body profile. The rim is flaring and flat. Pres h. 0.041, rim d. 0.15. Wheel-thrown. Rilling marks on the interior. Fine ware orange: Reddish yellow (7.5YR 8/6).

Decoration: Dark slip on the exterior and part of the interior

Date: MM IB–IIB

MOX.476 (P 12688; D4 2823.2, Pl.53b) Flared-rim bowl, Type 2b. Less than one-quarter extant. One piece preserving base and body profile. Two deep incisions at two different parts of the base. Small pinches on the base interior. Pres h. 0.024, base d. 0.05. Wheel-coil. Coarse ware: Light red (2.5YR 7/6). Purple phyllite.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MMIIA–MM IIB

MOX.477 (P 12602; D4 2823.2, 2823.1, 2823.3) Flared-rim bowl, Type 2b. About one-quarter extant. Three joining pieces, plus two joining pieces, plus one non-joining piece preserving flat base and flared-rim profile. H. 0.094, rim d. 0.028. Wheel-coil made. Coarse ware: Light red (2.5YR 7/6). Purple and pink phyllite.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIA–MM IIB

Ledge-Rimmed Bowls

MOX.478 (P 12692; D4 2823.3) Ledge-rimmed bowl, Type 8. Less than one-quarter extant. One piece preserving ledge rim and body profile. Pres h. 0.031, rim d. 0.15. Coil-made. Coil-join on rim exterior with the wall. Semi-fine ware: Pink (2.5YR 8/4). Phyllite inclusions.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 122

Date: MM IIB

COOKING

Dishes

MOX.479 (P 12679; D4 2823.1) Cooking dish, Type 2a. Two joining pieces preserve everted rim and body profile. Smooth interior, rough exterior. Rim d. 0.45. Hand-made. Coarse ware: Red (2.5YR 5/6). Phyllite and silver mica.

Date: MM–LM

MOX.480 (P 12680; D4 2823.1, Pl. 53c) Cooking dish, Type 2b. Less than one-quarter extant. One piece preserving profile with flaring thick rim divided by a ridge. Rim d. 0.42, Hand-made. Coarse ware: Light red (2.5YR 6/6). Purple phyllite and silver mica.

Date: MM–LM

Trays

MOX.481 (P 12506; D4 2823.2, Pl. 53d) Tray, Type 1a. Less than one-quarter extant. One piece preserving base and convex body profile ending to an inverted rim. A possible ridge on top of the rim. H. 0.02, rim d. 0.11, base d. 0.06. Coil-made. Coil-join between the rim and the body. Coarse ware: Light red (2.5YR 7/6). Granodiorite.

Date: MM IIB

MOX.482 (P 12672; D4 2823.1) Cooking tray. About one-quarter extant. One piece preserving profile. The wall section is vertical, slightly conical. Pres h. 0.032, base d. 0.15. Hand-made. Coarse ware: Red (2.5YR 5/6). Purple phyllite.

Date: MM IIB

Pots

MOX.483 (P 12654; D4 2823.1) Cooking pot, Type 1. Less than one-quarter extant. One piece preserving globular profile. Pres h. 0.063, leg w. 0.033m>0.019. Coarse ware: Red (2.5YR 5/6). Purple phyllite.

Comparanda: Kommos (Betancourt 1990, Pl. 19, 247), Monastiraki-Katalimata (Nowicki 2008, Pl.68)

Date: MM IIA–MM IIB

MOX.484 (P 12667; D4 2823.1) Cooking pot. Less than one-quarter extant. One piece preserves a flat base, globular body profile, and a trace of a globular leg. Pres h. 0.027, base d. 0.09. Hand-made. Coarse ware: Reddish yellow (5YR 6/6). Purple phyllite.

Date: MM IIB

MOX.485 (P 12684; D4 2823.2, Pl.53e) Cooking pot, Type 1. Less than one-quarter extant. One piece preserving part of flat vase and ovoid leg profile. Leg h. 0.094. Coarse ware: Red (2.5YR 5/6). Granodiorite.

Comparanda: Kommos (Betancourt 1990, Pl. 19, 247), Monastiraki-Katalimata (Nowicki 2008, Pl.68)

Date: MM IIA–MM IIB

UTILITARIAN

Basins

MOX.486 (P 12683; D4 2823.2) Scored basin, Type 1a. Less than one-quarter extant. One piece preserves part of the body. Pres. l. 0.09, pres. w. 0.067. Hand-made. Coarse ware: Light reddish brown (2.5YR 6/4). Purple phyllite.

Decoration: Diagonal and horizontal parallel incisions creating even checkerboard motif.

Comparanda: Pseira: Betancourt et al. 2009, Pl. 1, AF 5, Monastiraki-Katalimata (Nowicki, Pl.74, KP 46)

Date: MM IIA–MM IIB

STORAGE

Amphorae

MOX.487 (P 12716; D4 1803.2–2826.1–2825.2, Pl.54a) Oval-mouthed amphora, Type 3. About one-half extant. Twelve joining pieces preserving, conical profile with oval mouth and the traces of two vertical rounded handles attached from the rim to the neck. Coil-made. Coil-joins from base to middle exterior wall. Pres. h. 0.22, rim d. ~0.12. Coarse ware: Red (2.5YR 6/6). Phyllite.

Decoration: Red-on-white. Dark reddish-brown band on the periphery of the neck from which start red stripes extending to the lower part of the vessel.

Comparanda: Malia, Sector Pi: Knappett, Pomadère et al, 2017, Pl. 43–44. Palaikastro: Knappett and Cunningham 2012, Pl. 4.3, 59.

Date: MM IIA

Jars

MOX.488 (P 12701; D4 2824.2–2825.2–1803.1) Pithoid Jar, 4b. Less than one-quarter extant. Thirteen joining pieces preserving base and globular lower body profile. Pres h. 0.065, base d. 0.18. Coil-made. Coarse ware: Pink (7.5YR 8/4). Granodiorite.

Date: MM IIA

MOX.489 (P 12596; D2 1800.2, D4 1803.2, D4 28254.2, Pl.54b): Jar, Type 4b. About one-quarter extant. Six joining pieces preserving base and conical body profile. Pres h. 0.123, base d. 0.19. Coil-made. A ridge above the base shows a coil-join. Coarse ware: Red (7.5YR 6/6). Purple phyllite.

Comparanda: (Possible) Malia: Poursat and Knappett 2005, PL.11, 194

Date: MM IIA–MM IIB

MOX.490 (P 12582; D4 1803.2, Pl.54c) Hole-mouthed jar, Type 5a. Less than one-quarter extant. Two joining pieces preserve rim and globular shoulder profile. Coil-made. Pres h. 0.086, rim d. 0.18. Coarse ware: Reddish yellow (5YR 6/6). Granodiorite.

Decoration: Light-on-dark and dark-on-brownish buff clay. A dark band on the rim and neck with two light-on dark bands that create a panel of running light-on-dark S's. Two vertical, slightly diagonal bands create a panel of dark net decoration. Two dark circles on the base of the handle and three pairs of dark diagonal parallel hatches on the handle.

Comparanda: Haggis 2012, Pl.14, 183; Pl.22, 317. Gournia: Boyd-Hawes et al. 1908, 35, Malia, Quartier Mu (Poursat and Knappett 2005, PL.11, 185, 188)

Date: MM IIA

MOX.491 (P 12615; D4 1803.2, Pl.55a) Jar with horizontal handle, Type 5a/b. Less than one-quarter extant. One piece preserving rim with horizontal handle profile. Coil made. Pres h. 0.086m. Coarse Ware: Light red (2.5YR 7/8). Phyllite with white metamorphic rocks.

Potter's mark: Single pre-firing diagonal incision.

Date: MM IIA

MOX.492 (P 12527; D4 2824.2, Pl.55b) Wide-mouthed jar, Type 7. Less than one-quarter extant. Two joining pieces preserve rim, body, and handle profile. The rim is everted, wide, and flat and the handle is horizontal, located below the rim on high wall exterior. Coil-made. Pres h. 0.077, rim d. 0.28. Coarse ware: Pink (5YR 8/4). Granodiorite.

Decoration: Red slip on the rim interior and the exterior.

Date: MM IIA–MM IIB

MOX.493 (P 12730; D4 2825.1, Pl.55c) Bridge-spouted jar, Type 8. Less than one-quarter extant. One piece preserving rim body and spout profile. The rim is flat and everted. Dark band on the bottom of the spout. Coil-made. Coil-join between rim and body exterior. Rim d. 0.13. Coarse ware: Pink (7.5YR 8/4). Granodiorite.

Decoration: Dark band below rim exterior, possible concentric circles below.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.4, 68.

Date: MM IIA–IIB

Lids

MOX.494 (P 12490; D4 2824.2, 2825.1, Pl.55e) Lid, Type 1b. About one-half extant. Four joining pieces preserving profile. The rim is inverted, and the base is flat. Intensively burnished on the interior and the exterior. Wheel-coiled. Two obvious coils above the base and on the high wall exterior. Spiral rilling striations on vessel interior. The profile of the lid is globular and shallow, the lip is inverted. H. 0.036, rim d. 0.10. Fine ware orange: Reddish yellow (5YR 7/6).

Comparanda: Mochlos: Barnard and Brogan 2003, Pl.46, IB.475. Malia: Poursat and Knappett 2005, Pl. 31, PL.34, 54. Gournia: Boyd-Hawes et al. 1908, PL.5, 19; Betancourt and Silverman, 1991, Pl.7, 393, 394.

Date: MM II–LM

MOX.495 (P 12388; D4 2825.1, D4 2824.2, D4 2825.2, Pl.55d) Lid, Type 2. More than one-half extant. One piece, plus three joining pieces preserving lid with discoid profile and cylindrical knob handle. Wheel made. Rilling marks on the interior. Diam. 0.11. Fine ware tan: Pink (7.5YR 8/4). Possibly imported.

Comparanda: Malia: Poursat and Knappett 2005, Type 3, pl. 34, 1298, 1299. Phaistos: Levi et Carinci 1988, pl. 98 i–k.

Date: MM IIA–MM IIB

MOX.496 (P 12723; D4 2824.2, Pl.56a) Lid, Type 3a. About one-half extant. One piece preserving profile with rounded handle. Pres w. 0.099. Coarse ware: Reddish yellow (5YR 6/6). Purple phyllite and silver mica.

Comparanda: Mochlos: Barnard and Brogan 2003, Pl. 47, IB. 484)

Date: MM IIA–LM

MOX.497 (P 12636; D4 2825.1, Pl.56b) Lid, Type 3a. About one-quarter extant. One piece preserving lid profile with l rounded handle. The body section is flat and shows a disk. Max d. 0.11, max w. 0.06 Coarse ware: Reddish yellow (7.5YR 7/6). Granodiorite with golden mica.

Decoration: Red slip on the exterior

Comparanda: Mochlos: Barnard and Brogan 2003, Pl. 47, IB. 484

Date: MM IIA–LM

MOX.498 (P 12541; D4 2825.1, Pl.56c) Lid, Type 3b. About one-quarter extant. One piece preserving discoid profile. Disc diam. 0.20. Wheel-made. Rilling marks on the interior. Coarse ware: Reddish yellow (7.5YR 7/6). Granodiorite.

Decoration: Red band on the periphery of the rim and a vertical red thick band start from part of that band.

Comparanda: Mochlos: Barnard and Brogan 2003, Pl. 47, IB. 487.

Date: MM IIA

MOX.499 (P 12390; D4 2825.1, Pl.56d) Lid, Type 4a. More than one-half extant. One piece preserving profile with small cylindrical knob handle. It has the shape of a very shallow saucer with a small base that has a smaller diameter than the disk. Wheel-made. Rilling marks on disc interior, spiral rilling striations on the underside of the base. Uneven edge and string cut on the underside of the base. Disc d. 0.010, base d. 0.05. Coarse ware: Red (2.5 YR 5/6). Purple phyllite.

Comparanda: Mochlos: Barnard and Brogan 2003, Pl.45, IB.455. Gournia: Boyd-Hawes et al. 1908, PL.2, 40.

Date: MM IIA–LM IB

MOX.500 (P 12391; D4 2825.1, Pl.56e) Lid, Type 4b. More than one-half extant. One piece preserving profile with rounded horizontal handle. It has the shape of a very shallow saucer, with a small base that has a smaller diameter than the diameter of the rim. Disc d. 0.11, base d. 0.05. Wheel-made. Rilling marks on the interior, parallel striations on the underside of the base. Coarse ware: Light red (2.5YR 6/6). Granodiorite and gold mica.

Decoration: Red slip on the interior and the exterior, and a white band running horizontally the diameter of the handle.

Comparanda: Mochlos: Barnard and Brogan 2003, Pl.45, IB.64. Close but inexact parallel from Malia: Poursat and Knappett 2005, PL.54, 1294, 1297. Gournia: Boyd-Hawes 1908, PL.2, 42.

Date: MMIIA–LM

Miscellaneous Closed Vessels

MOX.501 (P 12614; D4 1803.1, Pl.57a) Miscellaneous closed vessel with potter's mark. Less than one-quarter extant. One piece preserving rim and vertical rounded handle profile. Hand-made. Pres h. 0.038. Coarse ware: Light red (2.5YR 6/8). Phyllite.

Potter's mark: Two thick diagonal pre-firing parallel incisions.

Date: MM IIA

MOX.502 (P 12560; D4 2825.2, Pl.57b) Miscellaneous closed vessel with potter's mark. Less than one-quarter extant. One piece preserving horizontal handle profile. Coarse ware: Yellowish red (5YR 5/6). Purple phyllite with silver mica.

Potter's mark: Two pre-firing diagonal parallel incisions

Date: MM IIA

MOX.503 (P 12561; D4 2825.2, Pl.57c) Miscellaneous closed vessel with potter's mark. Less than one-quarter extant. One piece preserving inverted rim and handle profile with potter's mark. Pres h. 0.034. Hand-made. Coarse ware: Red (2.5YR 5/6). Purple phyllite.

Potter's mark: Two symmetric pre-firing diagonal parallel incisions on the handle.

Date: MM IIA

POURING

Jugs

MOX.504 (P 12700; D4 2825.1–2824.2–1803.2, Pl.57d) Jug with cutaway spout, Type 1a. More than three-quarters extant. Twenty joining pieces preserving profile with vertical rounded handle. Flat base, conical to piriform body profile, globular shoulder, ovoid neck. Wheel-shaping: Spiral striations on the base interior. Coil-joints finished with rotational kinetic energy on the interior and the exterior. Pres. h. 0.18, base d. 0.08. Coarse Ware: Light reddish brown (2.5YR 7/6). Granodiorite.

Decoration: Red on brownish buff clay. Red band around the neck from which three pairs of three red stripes run the exterior of the vessel, from different directions attached to a thick red band above the base (possible triple plumes).

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.3, 56; Relaki 2016, Pl.23, EMP 129–PM 121. Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392. Monastiraki-Katalimata: Nowicki 2008, KP 494. Gournia: Boyd-Hawes 1908, 22, 29.

Date: MM IB–MM IIB

MOX.505 (P 12589; D4 1803.2, Pl.57e) Jug with cutaway spout, Type 1a. More than one-quarter extant. Five joining pieces preserve beak spout, shoulder, and conical body profile. Coil-made. Pres h. 0.105. Coarse ware: Light reddish brown (2.5YR 7/4). Granodiorite.

Decoration: Dark slip on the exterior.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.3, 56; Relaki 2016, Pl.23, EMP 129–PM 121. Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392. Monastiraki-Katalimata: Nowicki 2008, KP 494. Gournia: Boyd-Hawes 1908, 22, 29.

Date: MM IB–MM IIB

MOX.506 (P 12710; D4 1803.2, Pl.57f) Jug with cutaway spout, Type 1a. About one-half extant. Twelve joining pieces, plus seven joining pieces, plus three joining pieces preserving spout, base, and body profile with conical to piriform section and vertical rounded handle. Wheel-coil. Rilling striations on the base interior, possible coil joints on the low and mid-wall interior. Pres h. 0.10, base d. 0.083. Medium fine ware orange: Reddish yellow (5YR 7/6). Purple phyllite.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.3, 56; Relaki 2016, Pl.23, EMP 129–PM 121. Malia, Quartier Mu: Knappett and Poursat 2005, PL. 18, 392. Monastiraki-Katalimata: Nowicki 2008, KP 494. Gournia: Boyd-Hawes 1908, 22, 29.

Date: MM IB–MM IIB

MOX.508 (P 12733; D4 2826.1, Pl.57g) Bridge-spouted jug/jar, possibly 5a/b. Less than one-quarter extant. One piece preserving rim and spout profile. Rim d. 0.15. Coil-made. Medium-fine ware: Pink (7.5YR 8/4). Small granodioritic inclusions.

Decoration: Dark slip on rim interior and exterior and the lip of the spout.

Date: MM IIA–IIB

MOX.509 (P 12703; D4 2824.1, 2824.2, 2825.1, Pl.58a) Globular jug, Type 12. About one-quarter extant. Eleven joining pieces preserve the globular body and a very small part of the neck profile. Pres h. 0.124. Coil-made. Coarse ware: Light red (2.5YR 7/6). Granodiorite.

Decoration: Dark slip on the exterior

Comparanda: Malia: Poursat and Knappett 2005, PL. 22, 512; Petras: Tsipopoulou, 2017b, Pl. 34b (this example is dated in MM IA, but it seems to continue). For the globular section, Pl. 36 (i).

Date: MM IIA–MM IIB

MOX.510 (P 12704; D4 2825.1–2825.2, Pl.58b) Globular jug, Type 12. About one-quarter extant. Seventeen joining pieces preserving globular body profile. A thick semicircular band runs the body. Coil-made. Pres h. 0.147m. Coarse Ware. Granodiorite, 2.5YR 7/6 Light red.

Comparanda: Malia: Poursat and Knappett 2005, PL. 22, 512. Petras: Tsipopoulou, 2017b, Pl. 34b (this example is dated in MM IA, but it seems to continue). For the globular section, Pl. 36 (i).

Date: MM IIA–MM IIB

MOX.511 (P 12608; D4 2824.2, 2825.2, Pl.58c) Globular jug, Type 12. About three-quarters extant. Fifteen joining pieces preserving flat base, globular profile and traces of the neck, and a trace of a rounded handle. Wheel-coil. Rilling striations on the interior and coil-join on high wall exterior. Coarse ware: Yellowish red (5YR 5/6). Phyllite.

Comparanda: Malia: Poursat and Knappett 2005, PL. 22, 512. Petras: Tsipopoulou, 2017b, Pl. 34b (this example is dated in MM IA, but it seems to continue). For the globular section, Pl. 36 (i).

Date: MM IIA–MM IIB

MOX.512 (P 12719; D4 2824.3, Pl.58d) Globular jug, Type 12. About one-half extant. Three joining pieces and one non-joining piece preserving base and globular body profile. Coil-made. Pres h. 0.095. Coarse ware: Light reddish brown (2.5YR 6/3). Purple phyllite.

Decoration: Dark-on-white decoration. Dark parallel semi-circular thick stripes on white slipped exterior and dark thick band on the perimeter of the neck.

Comparanda: Malia: Poursat and Knappett 2005, PL. 22, 512. Petras: Tsipopoulou, 2017b, Pl. 34b (this example is dated in MM IA, but it seems to continue). For the globular section, Pl. 36 (i).

Date: MM IIA

MOX.513 (P 12526b; D4 2824.2, Pl.58e) Cooking jug, Type 13. About one-quarter extant. Four joining pieces preserving base and body profile. The base is flat the body section on the lower part globular and straight from middle to high section. Wheel-coil. Rilling striations on the base interior. Pres h. 0.112, base d. 0.13. Wheel-coil. Coarse ware: Red (2.5YR 5/6). Phyllite.

Date: MM IIA

Pitchers

MOX.514 (P 12610; D4 2825.1–2825.2, Pl.59a) Pitcher, Type 1. More than one-half extant. Nine joining pieces, plus eight joining pieces preserving profile with conical shape and vertical rounded handle. Wheel coil. Rilling striations on the base interior. Multiple coil-joins on vessel interior and exterior. Max pres. h. including both rim and base section 0.30, rim d.0.18, base d. 0.11. Coarse ware: Red (2.5YR 5/8). Purple phyllite.

Comparanda: Malia, Sector Pi: Knappett, Pomadère et al, 2017, Pl.47.

Date: MM IIA–IIB

MOX.515 (P 12545; D4 2825.1, Pl.59b) Miscellaneous closed vessel or pitcher with potter's mark, Type 5d. Less than one-quarter extant. Two joining pieces preserving rim and handle profile. The rim is inverted, and the handle rounded. Coil-made. Coarse ware: Reddish yellow (5YR 7/6). Purple phyllite inclusions.

Potter's mark: Two pre-firing parallel vertical symmetric incisions with pointed edges in the form of arrow point

Date: MM IIA

MOX.516 (P 12547; D4 2825.1–2825.2, Pl.59c) Miscellaneous closed vessel or pitcher with potter's mark, Type 5d. About one-quarter extant. Three joining pieces preserving rim and body profile with vertical rounded handle. Coil-made. Coarse ware: Light red (2.5YR 7/8). Purple phyllite,

Potter's mark: Two symmetric pre-firing diagonal incisions on the right part of the handle.

Comparanda Malia, Sector Pi: Knappett, Pomadère et al, 2017, Pl.47.

Date: MM IIA

MOX.517 (P 12605; D4 2824.2, Pl.59d) Ewer, Type 1. About three-quarters extant. Eight joining pieces preserving profile with two upraised horizontal handles. The body section is conical, ended on an inverted rim. Wheel-coil. Rilling striations on the interior. Possible coil-joins from the bottom up of the vessel wall. H. 0.133, rim d. 0.15, base d. 0.07. Coarse ware: Yellowish red (5YR 5/8). Purple phyllite with silver mica.

Date: MM IIA

DRINKING

Carinated Cups

MOX.518 (P 12556; D4 2825.2, Pl. 60a) Ribbed carinated cup/vessel, Type 2a. More than one-half extant. Four joining pieces preserving profile with pulled-out rim spout and ovoid to strap handle. Short rim carination and shallow parallel regular grooves. H. 0.069, rim d. 0.10. Rilling marks on the interior. Fine ware orange: Reddish yellow (7.5YR 7/6).

Decoration: Dark slip on the interior and the exterior and on the underside of the base.

Date: MM IIA–MM IIB

MOX.519 (P 12536; D4 2825.1, Pl.60b) Ribbed carinated cup, Type 2a. About one-half extant. Three joining pieces preserving rim and body profile. Short rim, with middle to high carination and shallow regular grooves on the exterior. Wheel-made: Rilling marks on the interior. Pres h. 0.066, base d. 0.05. Fine ware tan: Very pale brown (10YR 8/3).

Decoration: Dark slip on the interior, exterior, and underside of the base.

Comparanda: Malia: Poursat and Knappett 2005, Pl.27, no.769; Andreou 1979, Pl.19, 15. Monastiraki-Katalimata: Nowicki 2008, Pl. 70, no. KP 498; 2001, Pl. 15, 13. Pseira: Floyd 2009, Pl.4, AF 92. Vasiliki: Andreou 1978, Pl.15,4. Gournia: Betancourt and Silverman 1991, PL. 7, 412; Boyd-Hawes et al. 1908, PL.2, 10.

Date: MM IIA–IIB

MOX.520 (P 12714; D4 2824.2, D4 2825.2) Ribbed carinated cup, Type 2a. About one-quarter extant. Four pieces preserving profile with vertical strap handle. Tall rim and low carination, presenting shallow regular grooves. H. 0.067, base d. 0.06. Wheel-made. Rilling marks on the interior. Fine ware: Pink (7.5YR 7/4).

Decoration: Dark coat slip on interior and exterior and on the underside of the base.

Comparanda: Malia: Poursat and Knappett 2005, Pl.27, no.769; Andreou 1979, Pl.19, 15. Monastiraki-Katalimata: Nowicki 2008, Pl. 70, no. KP 498; 2001, Pl. 15, 13. Pseira: Floyd 2009, Pl.4, AF 92. Vasiliki: Andreou 1978, Pl.15,4. Gournia: Betancourt and Silverman 1991, PL. 7, 412; Boyd-Hawes et al. 1908, PL.2, 10.

Date: MM IIA–MM IIB

MOX.521 (P 12446; D4 2826.1, Pl.60c) Ribbed Carinated cup, Type 2b. About one-half extant. Four joining pieces preserving profile. Tall rim with low carination and shallow irregular grooves. Dark slip on the interior and the exterior and on the underside of the base. Dark dripping on the exterior. H. 0.076, rim d. 0.11, base d. 0.05. Wheel-made. Rilling striations on the interior, parallel striations on the underside of the base. Fine ware: Pink (5YR 7/4).

Comparanda: Malia, Sector Pi: Knappett and Pomadère et al. 2017, Pl.21. Palaikastro: Knappett and Cunningham 2012, Pl. 4.9, 94.

Date: MM IIA

MOX.522 (P 12532; D4 2826.1, D4 1803.2, Pl.60d). Ribbed carinated cup, Type 2b. More than three-quarters extant. Twenty joining pieces preserving profile with ovoid to strap handle. It is a tall rim-carinated cup with deep irregular grooves. Red slip on the interior and the exterior and the perimeter on the underside of the base. H. 0.082, rim d. 0.15, base d. 0.06. Wheel-made. Rilling marks on the interior and parallel striations on the underside of the base. Fine ware orange: Light red (2.5YR 7/6).

Comparanda: Malia, Sector Pi: Knappett and Pomadère et al. 2017, Pl.21. Palaikastro: Knappett and Cunningham 2012, Pl. 4.9, 94.

Date: MM IIA

MOX.523 (P 12566; D4 2826.1, Pl.61a) Ribbed Carinated cup, Type 2b. About three-quarters extant. Thirteen joining pieces preserving profile with strap handle and deep irregular grooves. Dark slip on the interior and the exterior. Wheel-made. Shallow rilling marks on the interior and parallel striations on the underside of the base. Pres h. 0.10, rim d. 0.10, base d. 0.05. Fine ware orange: Reddish yellow (7.5YR 7/6).

Comparanda: Malia, Sector Pi: Knappett and Pomadère et al. 2017, Pl.21. Palaikastro: Knappett and Cunningham 2012, Pl. 4.9, 94.

Date: MM IIA

MOX.524 (P 12567; D4 2826.1, D4 1803.1, D4 1803.2, D4 2825.1, Pl.61b) Ribbed Carinated cup, Type 2b. About one-half extant. Thirteen joining pieces preserve a tall rim and low carination profile with deep irregular grooves above the carination ending to an inverted rim. Red slip on the interior and the exterior and on the perimeter on the underside of the base. Wheel-thrown. Shallow rilling marks on the interior, the exterior, and parallel striations on the underside of the base. H. 0.11, rim d. 0.23, base d. 0.07. Fine ware orange: Light red (2.5YR 6/6).

Comparanda: Malia, Sector Pi: Knappett and Pomadère et al. 2017, Pl.21. Palaikastro: Knappett and Cunningham 2012, Pl. 4.9, 94.

Date: MM IIA

MOX.525 (P 12568; D4 2825.1, D4 2826.1, Pl.61c) Ribbed carinated cup, Type 2b. More than one-half extant. Seven joining pieces preserving tall everted rim and low carination profile (possibly with vertical strap handle which is now absent). Very deep irregular grooves were made on the exterior. Wheel-thrown. Rilling striations on the interior. H. 0.088, rim d. 0.14. Fine ware orange: Light red (2.5YR 7/6).

Decoration: Dark slip on the interior and the exterior.

Comparanda: Malia, Sector Pi: Knappett and Pomadère et al. 2017, Pl.21. Palaikastro: Knappett and Cunningham 2012, Pl. 4.9, 94.

Date: MM IIA

MOX.526 (P 12513; D4 1803.3, D4 1803.1, Pl.61d) Ribbed carinated cup, Type 2b. More than one-quarter extant. Five joining pieces preserve profile with low carination, tall everted rim, and deep irregular grooves. Wheel-made. Rilling marks on the interior. H. 0.094, rim d. 0.15, base d. 0.059. Fine ware orange: Reddish yellow (7.5YR 7/6). Small purple phyllite inclusions.

Decoration: Dark slip on the interior and the exterior

Comparanda: Malia, Sector Pi: Knappett and Pomadère et al. 2017, Pl.21.

Date: MM IIA

MOX.527 (P 12571, D4 2826.1, Pl.61e) Ribbed carinated cup, Type 2b. About one-quarter extant. Five joining pieces plus one non-joining piece preserving rim and body profile. Deep irregular grooves on the exterior. Pres h. 0.095, rim d. 0.15. Wheel-made. Rilling striations on the interior, parallel striations on the underside of the base. Fine ware orange: Reddish yellow (7.5YR 7/6).

Decoration: Dark slip on the interior and the exterior

Comparanda: Malia, Sector Pi: Knappett and Pomadère et al. 2017, Pl.21. Palaikastro: Knappett and Cunningham 2012, Pl. 4.9, 94.

Date: MM IIA

MOX.528 (P 12573; D4 2826.1, D4 1803.2, Pl.62a) Ribbed Carinated cup, Type 2b. About one-half extant. Three joining pieces preserving profile. Tall rim, low carination, and deep regular grooves. Wheel made. Shallow rilling marks on the interior. Pres h. 0.07, rim d. 0.11, base d. 0.074. Fine ware orange: Reddish yellow (5YR 7/6).

Decoration: Dark metallic slip on the interior and exterior of the vessel.

Comparanda: Malia, Sector Pi: Knappett and Pomadère et al. 2017, Pl.21. Palaikastro: Knappett and Cunningham 2012, Pl. 4.9, 94.

Date: MM IIA

MOX.529 (P 12574; D4 2826.1, Pl.62b) Ribbed carinated cup, Type 2b. More than one-half extant. Eighteen joining pieces preserving profile with ovoid to strap handle. Tall rim carination with deep irregular grooves. Red slip on the interior, the exterior, and on the underside of the base. Wheel-made. Rilling marks on the interior and parallel rilling striations on the underside of the base. H. 0.078, Rim d. 0.13, base d. 0.05. Fine ware orange: Light red (2.5YR 7/6).

Decoration: Reddish-brown slip on the interior and the exterior and the perimeter on the underside of the base.

Comparanda: Malia, Sector Pi: Knappett and Pomadère et al. 2017, Pl.21. Palaikastro: Knappett and Cunningham 2012, Pl. 4.9, 94.

Date: MM IIA

MOX.530 (P 12392; D2 2824.2, Pl.62c) Tripod carinated cup, Type 3b. About three-quarters extant. Two joining pieces preserving profile with three knob legs and strap handle. The carination is middle to high, and the short rim is everted. It preserves a pulled rim spout. Wheel-made. Rilling marks on

the interior and parallel striations on the underside of the base. H. 0.041, rim d. 0.09, base d. 0.05. Medium-fine ware: Reddish yellow (5YR 6/6). Small purple phyllite.

Decoration: Red slip on the interior and the exterior.

Date: MM IIA

MOX.531 (P 12393; D4 2825.1, Pl.63a) Carinated cup, Type 4c. More than three-quarters extant. Eight joining pieces preserving profile with strap handle. It maintains a tall everted rim and low carination. Wheel-made. Rilling marks on the interior and parallel striations on the underside of the base. H. 0.068, rim d. 0.09, base d. 0.05. Fine ware orange: Reddish yellow (7.5YR 7/6).

Decoration: Dark slip on the interior and exterior and in the perimeter on the underside of the base.

Comparanda: With some differences: Pseira: Betancourt et al. 2009, Pl.1, Pl. 14, AF 20. Petras: Relaki 2016, Pl.27, EMP 80, 82. Knossos: MacGillivray 2007, Pl. 4.16, 1. Gournia: Betancourt and Silverman, Pl.9, 412.

Date: MM IIA

MOX.532 (P 12529; D4 2824.2, Pl.63b) Carinated cup, Type 4c. About one-quarter extant. One piece preserving concave flaring profile with tall everted rim and low carination. H. 0.61, base d. 0.05, Rim d. 0.08. Wheel made. Rilling marks on the interior. Fine ware tan: Reddish yellow (7.5YR 8/6).

Decoration: Dark slip on the interior and the exterior.

Comparanda: Knossos, Deposit D: MacDonald and Knappett 2007, Pl. 3.25, 480. Petras: Tsipopoulou 2017a, Pl. 27, EMP 215; EMP 79; EMP. 90.

Date: MM IIA

MOX.533 (P 12552; D4 2825.2, Pl. 63c) Carinated cup, Type 4d. About one-half extant. Eleven joining pieces preserving profile with strap handle. It is a non-grooved example. Wheel-made. Rilling marks on the base and wall interior. Parallel striations on the underside of the base. H. 0.069, rim d. 0.102, base d. 0.043. Fine ware: Light red (2.5YR 7/6).

Decoration: Reddish-brown slip on the interior and the exterior.

Comparanda: Zakros: Tsiboukaki and Platon, 2017, Pl. 1, e.

Date: MM IIA

MOX.534 (P 12565; D2 2826.1, Pl.63d) Carinated cup, Type 4d. Almost complete. Twelve joining pieces preserving profile with strap handle. The base is flat, and the carination is middle. Wheel-made. Shallow rilling marks on the interior and parallel striations on the underside of the base. H. 0.055, rim d. 0.09, base d. 0.05. Fine ware: Pink (7.5 YR 8/4). Perhaps East Cretan import.

Decoration: Bichrome, red and dark slip on the exterior and red slip on the interior.

Comparanda: Zakros: Tsiboukaki and Platon, 2017, Pl. 1, e.

Date: MM IIA

MOX.535 (P 12489; D4 2824.2, D4 2825.1, Pl.64a) Carinated cup with offset base, Type 5. More than three-quarters extant. Ten joining pieces preserving profile with upraised ring base, globular low wall, straight upper wall ending to a straight slightly everted rim. H. 0.064, rim d. 0.13, base d. 0.05. Wheel-made. Shallow rilling marks on base and wall interior, parallel striations on the underside of the base. Fine ware orange: Reddish yellow (7.5YR 7/6).

Decoration: White-on-dark. Dark slip interior and exterior and on the underside of the base. White thin band below rim exterior, thick semicircular bands starting from the rim, extending until the low wall exterior containing single isolated spirals.

Comparanda: Myrtos Pyrgos: Knappett 1999, Pl.23. Palaikastro: Knappett and Cunningham, 2012, Pl. 4.2, 22; Knappett and Collar 2007, Pl. 6, 23. Gournia: Betancourt and Silverman 1991, PL. 6, 408. Petras: Tsipopoulou 2017a, Pl. 7, a. Zakros: Platon and Tsiboukaki, 2017, Pl.1, a, Pl.4, c, d.

Date: MM IIA

MOX.536 (P 12717; D4 2825.2, D4 1803.1, Pl.64b) Carinated cup, Type 5. More than one-half extant. Six joining pieces preserving tall rim and low carination profile with strap handle and an upraised ring base. Wheel-thrown. Deep rilling marks on the interior and the exterior, parallel striations on the underside of the base. H. 0.09, Rim d. 0.13, base d. 0.04. Fine ware: Pink (7.5YR 8/4).

Decoration: Red slip on the interior and the exterior.

Comparanda: Palaikastro: Knappett and Cunningham 2012, 22; Knappett and Collar, 2007, Pl.18, 97, Pl. 23. Gournia: Betancourt and Silverman 1991, PL. 6, 408. Petras: Tsipopoulou 2017a, Pl.7a, h. Zakros: Platon and Tsiboukaki, 2017, Pl.1, a, b.

Date: MM IIA

MOX.537 (P 12551; D4 2825.2, Pl.64c) Carinated cup with offset base, Type 5a. Nine joining pieces preserving profile with ring upraised base and strap handle. H.0.085, rim d. 0.11, base d. 0.05. Wheel-made. Rilling marks on the interior and parallel striations on the underside of the base. Fine ware gray, 2.5YR 6/1 gray.

Decoration: White-on-dark. Dark metallic slip on the interior and the exterior, white-on-dark exterior, with two parallel white bands, one above the base, parallel to one on the mid-wall exterior. One wavy band on high wall exterior including in different parts below the rim, a white floral motif, and an isolated spiral. White bands form a chevron on the handle.

Comparanda: Petras: Tsipopoulou 2017a, Pl. 36d, Haggis 2007, Fig 10,b. Palaikastro: Knappett and Collar 2007, Pl. 6, 23. Gournia: Betancourt and Silverman 1991, PL. 6, 408. Zakros: Platon and Tsiboukaki, 2017, Pl.1, a, Pl.4, c, d.

Date: MM IIA

MOX.538 (P 12553; D4 2825.2, Pl.64d) Carinated cup with ring base, Type 5a. About one-quarter extant. Five joining pieces preserving base and body profile with ring upraised base. Dark slip on the interior, exterior, and on the underside of the base. Wheel-made. Spiral concentric striations on base interior and rilling marks on wall interior. Pres h. 0.027, base d. 0.06. Fine ware tan: Light red (2.5YR 6/6). Small purple phyllite inclusions.

Comparanda: Petras: Tsipopoulou 2017a, Pl. 36d, Haggis 2007, Fig 10,b. Palaikastro: Knappett and Collar 2007, Pl. 6, 23. Gournia: Betancourt and Silverman 1991, PL. 6, 408. Zakros: Platon and Tsiboukaki, 2017, Pl.1, a, Pl.4, c, d.

Date: MM IIA

Conical Tumblers

MOX.539 (P 12549; D4 2825.1, Pl.64e) Conical tumbler with potter's mark, Type 1a. About one-quarter extant. One piece preserving base and body profile. The base extends in a larger diameter than the lower part of the low wall. Wheel-made. Rilling striations on the interior. Dimensions: Pres h. 0.041, base d. 0.05. Medium-fine ware: Reddish-brown (5YR 5/4). Small purple phyllite with white metamorphic inclusions.

Potter's mark: Two parallel diagonal incisions, with pointed edges

Date: MM IIA–MM IIB

MOX.540 (P 12595; D4 1803.2, Pl.64f) Conical cup/conical tumbler, Type 5. About one-quarter extant. Two joining pieces preserving profile, with a flat base and slightly conical section. Wheel-thrown. Rilling marks on the interior, parallel striations on the underside of the base. H. 0.049, rim d. 0.09, base d. 0.03. Fine ware orange: Reddish yellow (7.5YR 8/6).

Decoration: Dark slip on the interior and the exterior

Comparanda: Knossos, Deposit D: MacDonald and Knappett 2007, Pl. 3.19, 369, and Cunningham, Pl. 4.2, 15.

Date: MM IIA

MOX.541 (P 12385; D4 1803.2, Pl.64g) Conical cup/Conical tumbler, Type 5. Almost complete. Four joining pieces preserve profile with a flat base and conical profile. Wheel-thrown. Rilling marks on the interior and the exterior and the underside of the base. H. 0.048, rim d. 0.085, base d. 0.04. Fine ware orange: Reddish yellow (7.5YR 7/6).

Decoration: Dark coat slip on the interior and the exterior. A white arc starts on part of the rim and extends until the high-wall exterior.

Comparanda: Knossos, Deposit D: MacDonald and Knappett 2007, Pl. 3.19, 369, and Cunningham, Pl. 4.2, 15.

Date: MM IIA

MOX.542 (P 12387; D4 1803.2, Pl.65a) Conical cup/Conical tumbler, Type 5. About three-quarters extant. Seven joining pieces preserving profile with a flat base and conical section. Wheel-made. shallow rilling marks on wall interior and exterior, spiral striations on base interior and parallel striations on the underside of the base. H. 0.056, rim d. 0.09, base d. 0.03. Fine ware orange: Light red (2.5YR 6/8).

Decoration: Red monochrome metallic slip on the interior and the exterior. Red slip on the underside of the base.

Comparanda: Knossos: MacDonald and Knappett 2007, Pl. 3.19, 371. Palaikastro: Knappett and Cunningham, Pl. 4.2, 15.

Date: MM IIA

MOX.543 (P 12576; D4 2824.2, Pl.65b) Conical cup/Conical tumbler, Type 5. About one-half extant. Three joining pieces preserving profile. The base is flat, and the body is straight to conical. H. 0.056, rim d. 0.09, base d. 0.03. Fine ware orange: Light red (2.5YR 7/8).

Decoration: Dark reddish monochrome slip on interior and exterior.

Comparanda: Knossos: MacDonald and Knappett 2007, Pl. 3.19, 371. Palaikastro: Knappett and Cunningham, Pl. 4.2, 15.

Date: MM IIA

MOX.544 (P 12648; D4 1803.1, D4 2825.2, D4 2826.1, Pl.65c) Conical cup/conical tumbler, Type 5. More than three-quarters extant. Ten joining pieces reserving profile with conical section. Fine ware orange clay. Reddish-brown interior and exterior. H. 0.068, rim d. 0.15, base d. 0.06. Wheel made. Rilling marks on the interior and parallel striations on the underside of the base. Fine ware orange: Reddish yellow (5YR 7/6).

Decoration: Reddish-brown slip on the interior and the exterior.

Comparanda: Knossos, Deposit D: MacDonald and Knappett 2007, Pl.3.19. 369. Palaikastro: Knappett and Cunningham, 2012, Pl. 4.2, 15.

Date: MM IIA

MOX.545 (P 12708; D4 2824.1) Conical cup/Tumbler Type 5. More than one-half extant. Three joining pieces preserve profile with a flat base and conical section. Wheel-thrown, shallow rilling marks on the interior and parallel striations on the underside of the base. H. 0.06, base d. 0.04, rim d. 0.12. Fine ware tan: Pink (7.5YR 8/4). Small purple and pink phyllite.

Comparanda: Knossos: MacDonald and Knappett 2007, Pl. 3.19, 371. Palaikastro: Knappett and Collar 2007, Pl.18, 90.

Date: MM IIA

Flaring Tumblers

MOX.546 (P 12525; D4 2824.2, Pl.65d) Flaring tumbler, Type 2. About three-quarters extant. Seven joining pieces preserving profile. The base extends slightly in a larger diameter than the body, presenting concavity. Wheel-made. Shallow rilling marks on the interior and the exterior. Parallel striations on the underside of the base. H. 0.059, rim d. 0.097, base d. 0.046. Fine ware tan: Very pale brown (10YR 8/4).

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl. 64, KP 425, Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 106.

Date: MM IIA–MM IIB

MOX.547 (P 12534; D4 2825.1, Pl.65e) Flaring tumbler, Type 2. Less than one-quarter extant. One piece preserving base and body profile. Wheel-made. Rilling striations on the interior and parallel striations on the underside of the base. Pres h. 0.022, base d. 0.03. Fine ware orange: Reddish yellow (7.5YR 8/6).

Decoration: Red slip on the interior and the exterior.

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl. 64, KP 425, Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 106.

Date: MM IIA–MM IIB

MOX.548 (P 12540; D4 2825.1, Pl.65f) Flaring tumbler, Type 2. More than one-half extant. Seven joining pieces preserving profile. Wheel-thrown. Shallow rilling marks on the interior, parallel striations on the underside of the base. H. 0.053, base d. 0.04. Fine ware tan: Very pale brown (10YR 8/4).

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl. 64, KP 425, Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 106.

Date: MM IIA–MM IIB

MOX.549 (P 12586; D4 1803.2, Pl.65g) Flaring tumbler, Type 2. About one-quarter extant. One piece preserving base and body profile. The body is straight on a low wall and then flares to an everted rim. Wheel-made. Rilling striations on the base interior and thin parallel striations on the underside of the base. Pres h. 0.029, base d. 0.03. Fine ware: Pink (5YR 7/4). Imported?

Decoration: Red slip on the interior and the exterior.

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl. 64, KP 425, Palaikastro: Knappett and Cunningham 2012, Pl. 4.13, 106.

Date: MM IIA–MM IIB

Straight-Sided Tumblers

MOX.550 (P 12581; D4 1803.2, Pl.65h) Straight-sided tumbler, Type 3. More than one-quarter extant. Two joining pieces preserving profile. H. 0.06, rim d. 0.07. Wheel-made. Shallow rilling marks on the interior. Fine ware orange, 5YR 7/6 Reddish yellow.

Decoration: White-on-dark. Two or more parallel bands below the rim on a dark slipped background. Dark slip is also made on the interior.

Comparanda: Knossos, Deposit D: MacDonald and Knappett 2007, Pl. 3.35, 565. Palaikastro: Knappett and Cunningham 2012, Pl. 4.2, 17.

Date: MM IIA

One-Handled Conical Cups

MOX.551 (P 12712; D4 2824.2, Pl.66a) One-handled conical cup, Type 1a. About one-quarter extant. One piece preserving base and body profile and part of the rounded handle. Wheel-coil. Parallel striations on the underside of the base. Pres h. 0.037, base d. 0.04. Coarse ware: Reddish-brown (2.5YR 7/8). Phyllite with white metamorphic rocks.

Decoration: White-on-dark, with dark slip-on vessel interior and white drop on the base interior.

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl.65, KP 440, KP 439, KP 442; Pl. 66, 449; Pl. 67, KP 455; 2001, PL. 1, 1a and 1c, Pl.3, 2. Malia: Poursat and Knappett 2005, 970; Andreou 1978, Pl. 18, 8. Pseira: Betancourt 1999, PL.8, BE 3. Vrokastro: Hayden, 2003, Pl. 2, 12; Hall 1914, Pl. 57a. Gournia: Boyd-Hawes, et al. 1908, PL.5, 3.

Date: MM IIA–MM IIB

MOX.552 (P 12555; D4 2824.2, Pl.66b) One-handled conical cup, Type 1a. About one-half extant. One piece preserving base and body profile with vertical rounded handle. Wheel-made. Rilling marks on the interior and parallel striations on the underside of the base. Pres h. 0.055, base d. 0.04. Medium-fine ware: Light red (2.5YR 6/8). Small phyllite inclusions.

Decoration: Red-slipped interior.

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl.65, KP 440, KP 439, KP 442; Pl. 66, 449; Pl. 67, KP 455; 2001, PL. 1, 1a and 1c, Pl.3, 2. Malia: Poursat and Knappett 2005, 970; Andreou 1978, Pl. 18, 8. Pseira: Betancourt 1999, PL.8, BE 3. Vrokastro: Hayden, 2003, Pl. 2, 12; Hall 1914, Pl. 57a. Gournia: Boyd-Hawes, et al. 1908, PL.5, 3.

Date: MM IIA–MM IIB

MOX.553 (P 12575; D4 2826.1, Pl.66c) One-handled conical cup, Type 1a. About one-half extant. Two joining pieces preserving profile with a trace of a vertical rounded handle. Wheel made. Rilling marks on the interior, and parallel striations on the underside of the base. H. 0.06, Rim d. 0.11, base d. 0.05. Coarse ware: Red (2.5YR 5/6). Pink and purple phyllite inclusions.

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl.65, KP 440, KP 439, KP 442; Pl. 66, 449; Pl. 67, KP 455; 2001, PL. 1, 1a and 1c, Pl.3, 2. Gournia: Boyd-Hawes, et al. 1908, PL.5, 3.

Date: MM IIA–MM IIB

MOX.554 (P 12715; D4 2825.2; D4 2824.2; D4 2826.1; D4 2825.1, Pl.66d) One-handled conical cup, Type 1a. About one-half extant. Four joining pieces preserving base and body profile with

vertical rounded handle. Wheel-made. Shallow rilling marks on the exterior. Pres h. 0.055, rim d. 0.03. Coarse ware: Light red (2.5YR 6/6). Purple phyllite.

Decoration: Traces of dark slip on the interior and the exterior.

Comparanda: Monastiraki-Katalimata: Nowicki 2008, Pl.65, KP 440, KP 439, KP 442; Pl. 66, 449; Pl. 67, KP 455; 2001, PL. 1, 1a and 1c, Pl.3, 2. Malia: Poursat and Knappett 2005, 970; Andreou 1978, Pl. 18, 8. Pseira: Betancourt 1999, PL.8, BE 3. Vrokastro: Hayden, 2003, Pl. 2, 12; Hall 1914, Pl. 57a. Gournia: Boyd-Hawes, et al. 1908, PL.5, 3.

Date: MM IIA–MM IIB

MOX.555 (P 12522; D4 2826.1, Pl.66e) One-handled conical cup, Type 2b. More than one-half extant. The shape is conical, and the handle is strap. Dark slip on the interior the exterior and on the perimeter on the underside of the base. Wheel-made. Shallow rilling marks on the interior and parallel striations on the underside of the base. Fine ware orange: Reddish-brown (7.5YR 7/6).

Comparanda: Knossos: MacDonald and Knappett 2007, Pl.3.21; MacGillivray 2007, Pl. 4.21, 2. Malia, Sector Pi: Knappett et al. 2017, Pl. 27, Pl. 29, Pl.30. Petras: Tsipopoulou 2017a, Pl. 7, v.

Date: MM IIA

MOX.556 (P 12546a; D4 1803.1, D4 1803.2, Pl.66f) One-handled conical cup, Type 2b. About three-quarters extant. Fourteen joining pieces preserving conical profile with vertical strap handle. Wheel-thrown. Rilling striations on the interior, parallel striations on the underside of the base. H. 0.69, rim d. 0.11, base d. 0.06. Fine ware: Pink (7.5YR 7/4). Very small chunks of phyllite.

Decoration: Dark slip on the interior and the exterior and on the underside of the base.

Comparanda: Knossos: MacDonald and Knappett 2007, Pl.3.21; MacGillivray 2007, Pl. 4.21, 2. Malia, Sector Pi: Knappett et al. 2017, Pl. 27, Pl. 29, Pl.30. Petras: Tsipopoulou 2017a, Pl. 7, v.

Date: MM IIA

MOX.557 (P 12559; D4 2825.2, D4 2826.1, Pl.67a) One-handled conical cup, Type 2b. About three-quarters extant. Twenty joining pieces preserving profile with vertical strap handle. Wheel-thrown. Shallow rilling marks on the interior and parallel striations on the underside of the base. H. 0.07, rim d. 0.12, base d. 0.06. Fine ware orange: Reddish yellow (5YR 7/6).

Decoration: Dark slip on the interior and the exterior and on the underside of the base.

Comparanda: Knossos, Deposit D: MacDonald and Knappett 2007, Pl. 3.20, 399. Malia, Sector Pi: Knappett et al. 2017, Pl. 27, Pl. 29, Pl.30. Petras: Tsipopoulou 2017a, Pl. 7, v.

Date: MM IIA

MOX.558 (P 12563; D4 2825.2, Pl. 67b) One-handled conical cup, Type 2b. More than one-half extant. Seven joining pieces preserving profile with vertical rounded handle. H. 0.068, Rim d. 0.11, base d. 0.05. Wheel-made. Rilling mark on the interior and parallel striations on the underside of the base. Fine ware tan: Reddish yellow (7.5YR 7/6).

Decoration: Reddish-brown slip with white traces on the interior and the exterior.

Comparanda: Knossos, Deposit D: MacDonald and Knappett 2007, Pl. 3.20, 399. Malia, Sector Pi:

Knappett et al. 2017, Pl. 27, Pl. 29, Pl.30. Petras: Tsipopoulou 2017a, Pl. 7, v.

Date: MM IIA-MM IIB

MOX.559 (P 12572; D4 2826.1, Pl.67c) One-handled conical cup, Type 2b. About three-quarters extant. Ten joining pieces preserving conical profile with vertical strap handle. Wheel-thrown. Shallow rilling marks on the interior. H.0.08m, rim d. 0.12, base d. 0.05. Fine ware tan: Very pale brown (10YR 8/4).

Decoration: Dark slip on the interior and exterior (Dark reddish-gray: 5YR 4/2). Traces of white paint on the interior.

Comparanda: Knossos, Deposit C, and D: MacDonald and Knappett 2007, Pl.3.15, 237; Pl. 3.20, 399. Malia, Sector Pi: Knappett et al. 2017, Pl. 27, Pl. 29, Pl.30. Petras: Tsipopoulou 2017a, Pl. 7, v.

Date: MM IIA

MOX.560 (P 12651; D4 1803.2, Pl.67d) One-handled conical cup, Type 2b. More than one-half extant. Eight joining pieces preserving profile with ovoid to strap handle. The base is slightly thicker than the body. H. 0.055, rim d. 0.11, base d. 0.05. Wheel-made. Rilling marks on the interior, parallel striations on the underside of the base. Coarse ware: Yellowish red (5YR 5/6). Purple phyllite and silver mica.

Comparanda: Knossos, Deposit C, and D: MacDonald and Knappett 2007, Pl.3.15, 237; Pl. 3.20, 399. Malia, Sector Pi: Knappett et al. 2017, Pl. 27, Pl. 29, Pl.30. Petras: Tsipopoulou 2017a, Pl. 7, v.

Date: MM IIA

MOX.561 (P 12653; D4 1803.2, Pl.67e) One-handled conical cup, Type 2b. More than three-quarters extant. Eleven joining pieces preserving profile with vertical strap handle. Dark buff slip on the interior and exterior. Wheel-thrown. Shallow rilling marks on the interior, parallel striations on the underside of the base. H. 0.76, rim d. 0.11, base d. 0.05. Fine ware orange: Reddish yellow (5YR 7/6).

Decoration: Dark slip on the interior and the exterior and on the underside of the base.

Comparanda: Knossos: MacDonald and Knappett 2007, Pl. 3. 20, 399. Malia, Sector Pi: Knappett et al. 2017, Pl. 27, Pl. 29, Pl.30. Petras: Tsipopoulou 2017a, Pl. 7, v.

Date: MM IIA

Conical or straight-sided cups

MOX.562 (P 12603; D4 2825.2, D4 1803.2, D4 2825.1, Pl.67f) Conical or straight-sided cup, Type 7. More than three-quarters extant. Five joining pieces preserving profile. Small concavity above the base, conical body section to the straight slightly everted rim. Wheel-coil. Straight parallel striations on the underside of the base, coil-joins in middle wall exterior. Coarse ware: Red (2.5YR 5/6). Purple phyllite.

Decoration: Dark coat slip on interior and exterior.

Date: MM IIA

MOX.563 (P 12558; D4 2825.2, Pl.67g) Plain handless conical cup or straight-sided cup, Type 7. One piece preserving profile. About one-quarter extant, Visible fingerprints on wall exterior. H. 0.062, rim d. 0.09, base d. 0.03. Coil-made. Coil-joins on low, middle, and high wall exterior. Coarse ware: Red (2.5YR 5/6). Purple phyllite.

Date: MM IIA

Straight-Sided Cups

MOX.564 (P 12752; D4 1803.2, Pl.68a) Straight-sided cup, Type 3. About one-half extant. Four joining pieces preserving profile. Wheel-made. Rilling marks on the interior. H. 0.109, base d. 0.09, rim d. 0.13. Fine ware: Pink (7.5YR 8/4).

Decoration: Reddish-brown slip on the exterior.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl. 4.2, 13–14. Knossos, Deposit D: MacDonald and Knappett 2007, Pl. 3.35, 565. Malia, Sector Pi: Knappett and Pomadère et al. Pl.24.

Date: MM IIA

MOX.565 (P 12386; D4 1803.2, D4 2826.1, Pl.68b) One-handled straight-sided cup, Type 4b. About three-quarters extant. Four joining pieces preserving profile with strap handle and deep irregular grooves covering the entire wall exterior. Dark slip on the interior and the exterior (2.5YR 3/1 Dark reddish gray). Wheel-thrown. Shallow rilling marks on the interior and the exterior and parallel striations on the underside of the base. H. 0.065, rim d. 0.09, base d. 0.062. Fine ware tan: Pink (5YR 8/3).

Comparanda: Malia: Demargne and Gallet de Santaire 1953, PL. VIII, 8520. Malia, Sector Pi: Knappett and Pomadère et al. 2017, Pl. 23.

Date: MM IIA

Semi-Globular Cups

MOX.566 (P 12535; D4 2825.1, Pl.68c) Semi-globular cup or bowl with rounded profile, Type 1a. About one-half extant. Two joining pieces preserving semi-globular profile. H. 0.05, rim d. 0.11, base d. 0.05. Wheel made. Shallow rilling marks on the interior. Fine ware: Pink (5YR 8/4).

Decoration: Polychrome. A parallel red horizontal line on the rim interior has faded away because of the washing of the vessel. Three white parallel semi-globular stripes, or concentric semi-circle on the exterior, on the dark, slipped exterior starting from the rim, extending from high to low wall exterior. Horizontal white line above base interior intersected by two diagonal lines that form a panel of a white wavy band. The left diagonal band creates a second panel with a vertical white band. This panel includes four diagonal parallel wavy bands. Left of the white vertical S-band.

Comparanda: Pseira, Area BR: Betancourt 1999, Pl.22, BR 105; Area BC, BE: Betancourt 1999, Pl.7, BE 2. Sphoungaras: Hall 1912, Pl. 29. Petras: Tsipopoulou 2012, Pl.31, 12.

Date: MM IIA-MM IIB

MOX.567 (P 12493; D4 2824.2, D4 2825, Pl.68d) Semi-globular cup (or bowl), Type 2c. About one-half extant. Five joining pieces preserving profile with vertical rounded handle. A deep wide ridge separates the everted rounded rim from the homogenous wall exterior. Intensive burnished on the interior and the exterior. Wheel-made with rilling striations on the interior. Pres h. 0.061, rim d. 0.15. base d. 0.07. Fine ware orange: Reddish yellow (5YR 6/6).

Comparanda: Andreou 1979, Pl.12, 16; Petras: Tsipopoulou 2017a, Pl.29, EMP 220.

Date: MM IIA

MOX.568 (P 12491; D4 2825.2, 2826.1, Pl.68e) Spouted semi-globular cup (or bowl), Type 4. About three-quarters extant. Six joining pieces preserve globular profile, turning to concave in the upper wall ending to an everted rim with pulled rim spout. Highly burnished on interior and exterior. Wheel-thrown. Spiral rilling striations on the interior and the underside of the base. H. 0.061, rim d. 0.08, base d. 0.09. Fine ware: Pink (7.5YR 7/4).

Date: MM IIA

Angular Cups

MOX.569 (P 12544; D4 2825.1, Pl.68f) Angular cup (or beveled cup), Type 1. About one-half extant. Two joining pieces preserving profile with beveled base. H. 0.042, rim d. 0.07, base d. 0.03. Fine ware tan: Pale brown (10YR 8/2).

Decoration: Dark slip on the interior and the exterior. Wheel-thrown. Rilling marks on the interior and the exterior.

Comparanda: Petras: Haggis 2007, Pl.6,d. Pseira: Betancourt 1999, Pl. 7, BE 1. Palaikastro: Knappett and Collar 2007, Pl.18, 93.

Date: MM IB–MM IIA

MOX.570 (P 12650; D4 2825.2, D4 1803.2, Pl.68g) Angular cup, Type 1. About one-half extant. Five joining pieces preserving base and body profile with strap handle. The base is flat and the carination is very low, above the base. The wall profile above the base is straight. Wheel-thrown. Rilling marks on the interior, rilling striations on the base interior and parallel striations on the underside of the base. Pres h. 0.039, base d. 0.05. Fine ware: Pink (5YR 7/4).

Decoration: Reddish-brown slip on the interior and the exterior.

Comparanda: Petras: Haggis 2007, Pl.6,d. Pseira: Betancourt 1999, Pl. 7, BE 1. Palaikastro: Knappett and Collar 2007, Pl.18, 93.

Date: MM IB–MM IIA

Miscellaneous Open Vessels

MOX.571 (P 12562; D4 2825.2, Pl.69a) Cup or open vessel with potter's marks. About one-quarter extant. One piece preserving everted rim and strap handle profile with potter's mark. Hand-made. Coarse ware: Yellowish red (5YR 5/6). Purple phyllite.

Potter's mark: Two diagonal near-parallel curving incisions on top of the handle.

Date: MM IIA

MOX.572 (P 12594; D4 1803.2, Pl.69b) Miscellaneous open vessel. Less than one-quarter extant. One piece preserving body profile. Possible wheel-made. Medium-fine ware: Pale brown (10YR 8/3). Purple phyllite inclusions.

Potter's mark: Two symmetric regular diagonal incisions.

Date: MM IIA

MOX.573 (P 12523; D4 2824.2, Pl.69c) Miscellaneous open vessel. Less than one-quarter extant. One piece preserving strap handle profile with potter's mark. Hand-made. Coarse ware: Reddish-brown (5YR 5/4). Purple phyllite with white metamorphic rocks.

Potter's mark: Two diagonal, parallel, pre-firing incisions on the handle of equal length.

Date: MM IIA

SERVING

Deep Bowls

MOX.574 (P 12492; D4 2826.1, D4 2824.2, Pl.69d) Deep bowl, Type 1b. About three-quarters extant. Seven joining pieces preserve globular profile with an inverted rounded rim. Brown burnished interior and exterior. Wheel-thrown. Shallow rilling marks on wall interior. H. 0.036, rim d. 0.11, base d. 0.06. Fine ware orange: Reddish yellow (7.5YR 6/6). Small phyllite inclusions.

Comparanda: Knossos: MacDonald and Knappett 2007, Pl. 3.33, 540

Date: MM IIA–MM IIB

MOX.575 (P 12609; D4 2825.1, D4 1803.2, Pl.69e) Deep bowl, Type 1b. More than one-half extant. Nineteen joining pieces preserving profile. The base is flat, and the body profile is rounded rising to an inverted rim. Wheel-coil. Rilling marks on base interior, coil joins on low and mid-wall interior and exterior, and on the rim. H. 0.11, base d. 0.13, rim d. 0.27. Coarse ware: Yellowish red (5YR 5/6). Purple phyllite and silver mica.

Comparanda: Knossos: MacDonald and Knappett 2007, Pl. 3.33, 540

Date: MM IIA–MM IIB

MOX.576 (P 12639; D4 2825.2, Pl.69f) Deep bowl, Type 1c. Less than one-quarter extant. One piece, plus three joining pieces preserving profile with horizontal handle. The handle extends at the same height as the rim. Wheel-coil. Spiral rilling striations on the base interior, possible coil-join above the base. Pres h. 0.061. Coarse ware: Gray (5YR 5/1). Purple phyllite with silver mica inclusions.

Comparanda: Walberg 1983, PL.17, 253

Date: MM IIA–B

Flared-Rim Bowls

MOX.577 (P 12447; D4 2826.1, D4 2824.2, Pl.70a) Flared-rim bowl, Type 2a. About one-half extant. Three joining pieces preserving profile. Wheel-coil. Two coils, above the base and on the mid-wall exterior. Shallow rilling marks on the interior and exterior. Intensive burning on the interior. H. 0.097, rim d. 0.28, base d. 0.14–0.16. Coarse ware: Yellowish red (5YR 5/8). Purple phyllite and silver mica inclusions.

Comparanda: Palaikastro: Knappett and Cunningham 2012, Pl.4.4, 71, pp. 119. Malia: Poursat and Knappett 2005, *Soucoupes*, pl. 53, 1105a–1113; Knossos: MacDonald and Knappett 2007, Pl. 3.7, 221–223

Date: MM IIA–MM IIB

MOX.578 (P 12599; D4 2826.1, D4 2825.2, D4 1803.2, Pl.70b) Flared-rim bowl with potter's mark, Type 2b. Less than one-half extant. Seven joining pieces preserving flared profile with potter's mark. Intensive burning above base interior. H.0.099, rim d. 0.27, base d. 0.13. Wheel-coil. Rilling marks on the base. Coil-join above base exterior. Coarse ware: Light red (2.5YR 7/6). Purple phyllite and silver mica inclusions.

Potter's mark: Two symmetric diagonal incisions, below rim interior.

Date: MM IIA

MOX.579 (P 12538; D4 2825.1, D4 2826.1, Pl.70c) Flared-rim bowl, Type 2b. Less than one-half extant. Four joining pieces preserving flaring profile. The base is flat, the body section flaring ending to a rounded rim. H. 0.086, rim d. 0.24, base d. 0.12. Wheel-coil. Coil-join above base interior, string marks above base interior. Coarse ware: Reddish yellow (7.5YR 6/6). Purple phyllite and silver mica.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIA

MOX.580 (P 12521, D4 2824.2) Flared-rim bowl, Type 2b. The wall profile is conical ending to a flaring rim. Pres h. 0.068, base d. 0.07, rim d. 0.17. Wheel-coil. Rilling marks on the interior, possible coil on low wall exterior. Coarse ware: Red (2.5YR 5/6). Purple phyllite.

Decoration: Red slip on the interior

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIA–IIB

MOX.581 (P 12580; D4 1803.2, Pl.70d) Flared-rim bowl, Type 2b. Less than one-half extant. Eight joining pieces preserving profile. Coil-made. Coil-joins on the middle and high wall. A string ridge on the rim distinguishes it from the high wall. H. 0.099, rim d. 0.27, base d. 0.13. Coarse ware: Reddish yellow (7.5YR 8/6). Silver mica.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIA–MM IIB

MOX.582 (P 12569; D4 2824.2, D4 2825.1, D4 2826.1, D4 1803.2, Pl.71a) Flared-rim bowl, Type 2c. About three-quarters extant. Twenty joining pieces preserve conical profile, ending to an inverted rim, slightly flat on its edge. Wheel-made. Shallow rilling marks on the interior, concentric rilling striations on the base interior. H. 0.068, rim d. 0.21, base d. 0.07. Fine ware orange: Reddish yellow (7.5YR 8/6).

Decoration: Dark slip on the interior and the exterior.

Comparanda: Palaikastro: Knappett and Cunningham, 2012, Pl. 4.4, 71; Knossos: MacDonald and Knappett 2007, Pl. 3.33, 536.

Date: MM IIA

MOX.583 (P 12587; D4 1803.3, Pl.71b) Flared-rim bowl, Type 2c. Almost complete. Nineteen joining pieces preserving profile with flaring, almost flat upper section, and slightly flat rim. Wheel-thrown. Spiral rilling striations on the base interior, and shallow rilling marks on the interior. H. 0.086, rim d. 0.021, base d. 0.07. Fine ware orange: Reddish yellow (7.5YR 8/6)

Decoration: Red slip on the interior.

Comparanda: Andreou 1979, Pl.12, 16; Knossos: MacDonald and Knappett 2007, Pl. 3.15, 266. Mochlos, House D–Vasiliki House B, Knossos, Upper East Well and Kouloures Group: Andreou 1978, Pl.1,12; Pl.3,8; Pl.12, 16. Petras: Tsipopoulou 2012, Pl. 4; 2017, Pl. 5, Pl.6.
